Days out: the test app, updated after the first feedback

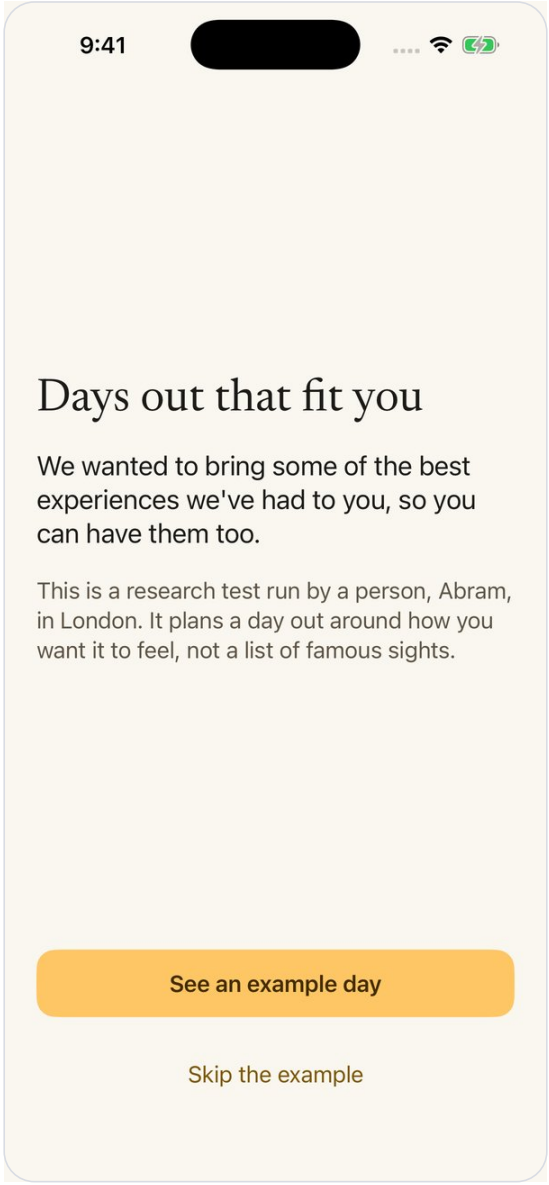

14 screens, in the order you'd see them

An iPhone app that plans a day out in London around how you want it to feel, not a list of famous sights.
You answer a few quick questions and react to some places you know. It plans a day with a map, and you rate each stop after you've been. More questions, all optional, come after the first plan.
These are screenshots from a test build with sample data. Nothing is live yet.

Your feedback (about 10 minutes)

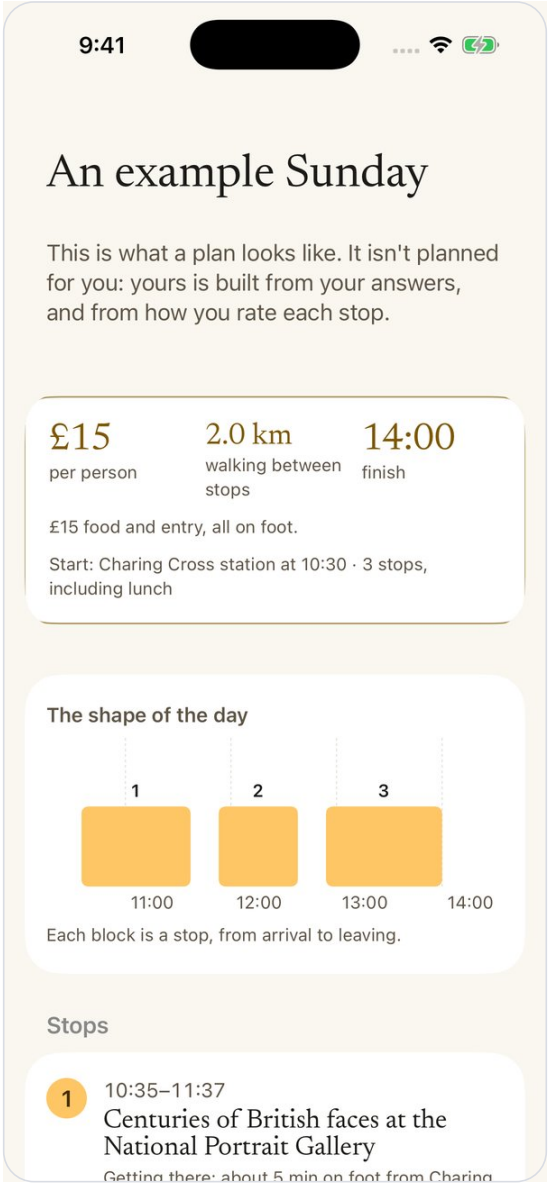

1. Is there a screen that would make you stop or give up? Which one?
2. Is anything confusing or unclear? Give the screen number.
3. Is there anything you'd change, add or remove?
4. Would you want to try it for a real day out? Why, or why not?

Reply to Abram with the screen numbers. Short answers are best, and honest ones help most, including "this is boring".

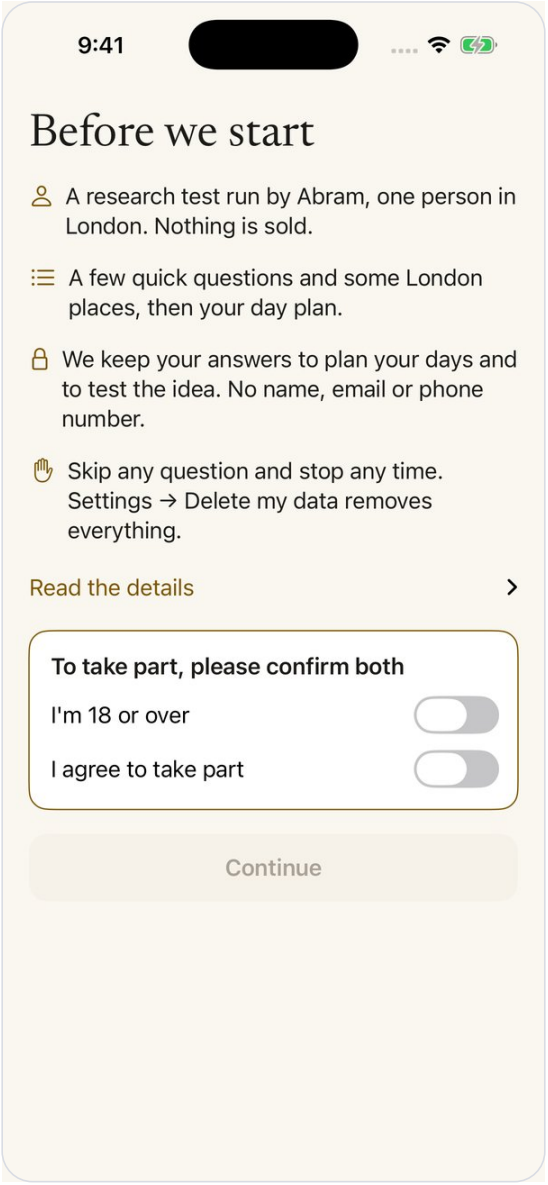

1 Welcome

Who runs this, and why.

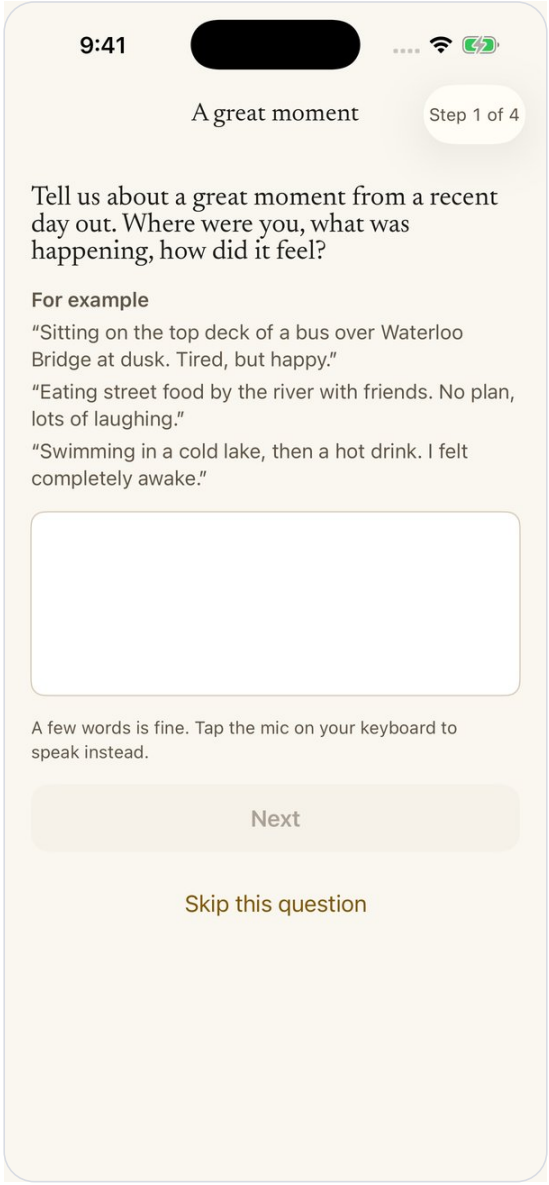

2 An example day

What a plan looks like, before any question. It isn't planned for you.

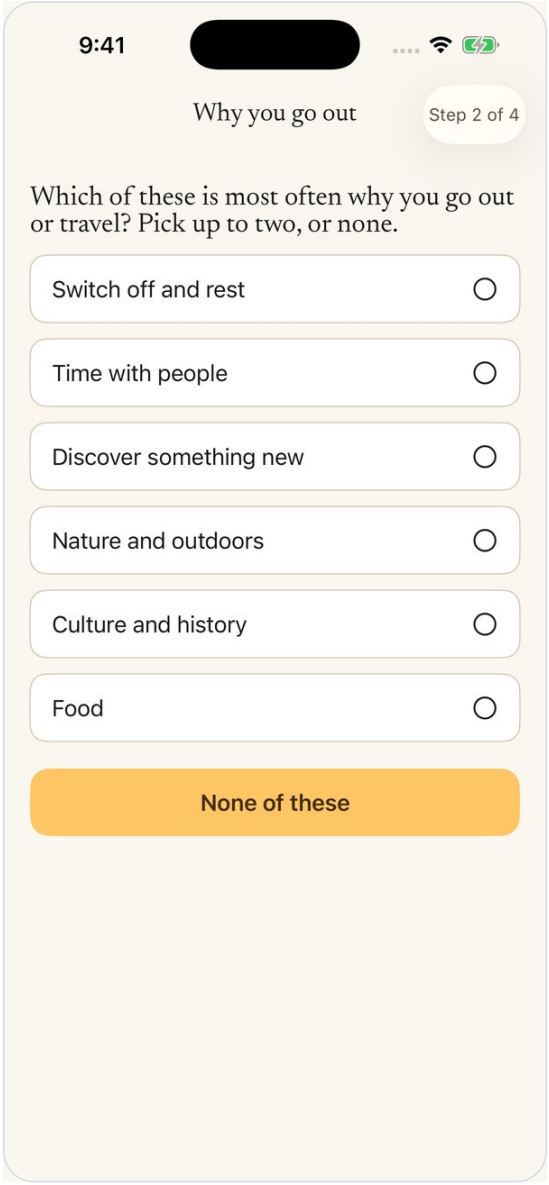

3 Before we start

A short summary, the two required choices in a box, and the details folded away.

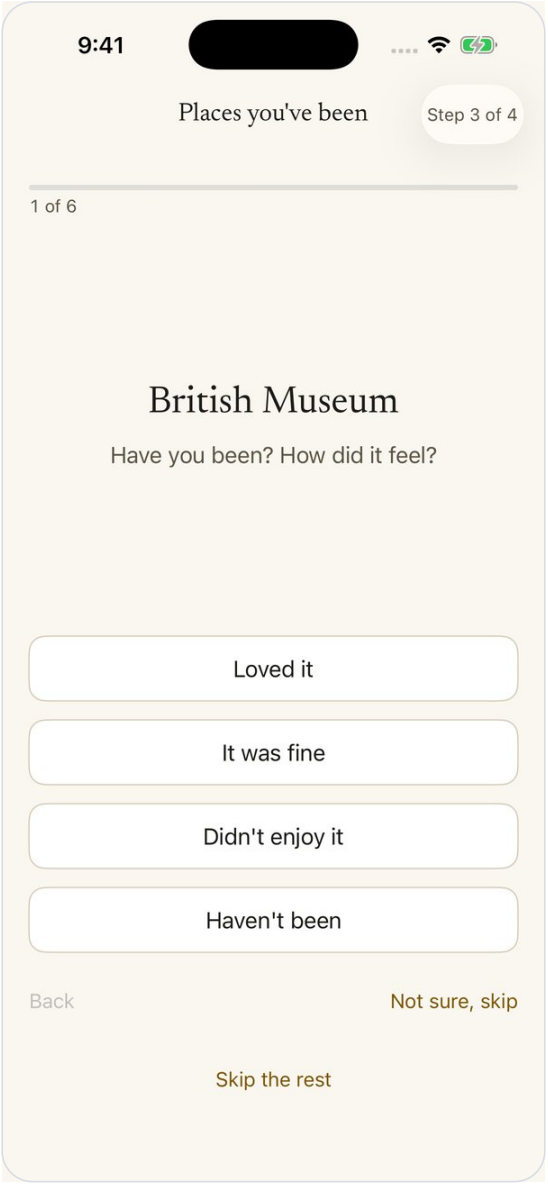

4 A great moment

One open question, with three example answers. Type, speak with the keyboard mic, or skip.

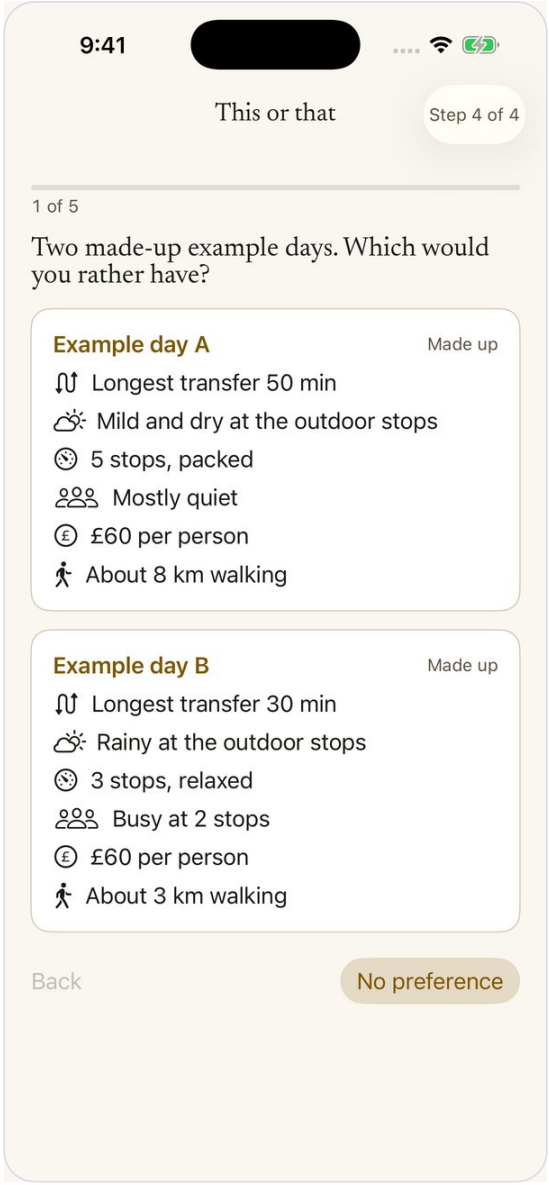

5 Why you go out

Pick up to two, or none.

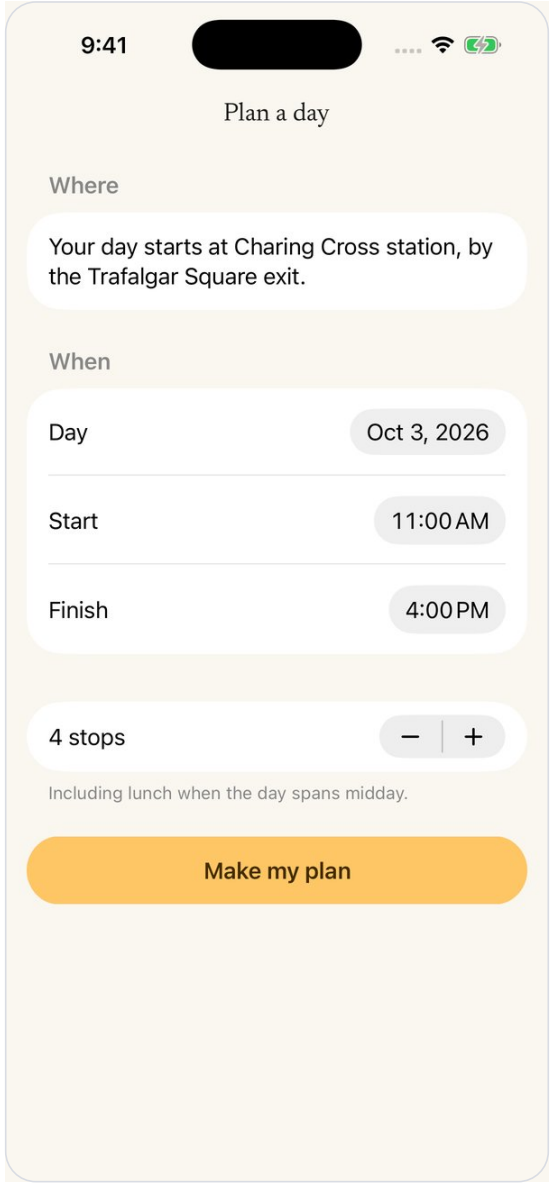

6 Places you've been

6 London places, one at a time: four reactions, "Not sure, skip", Back and "Skip the rest".

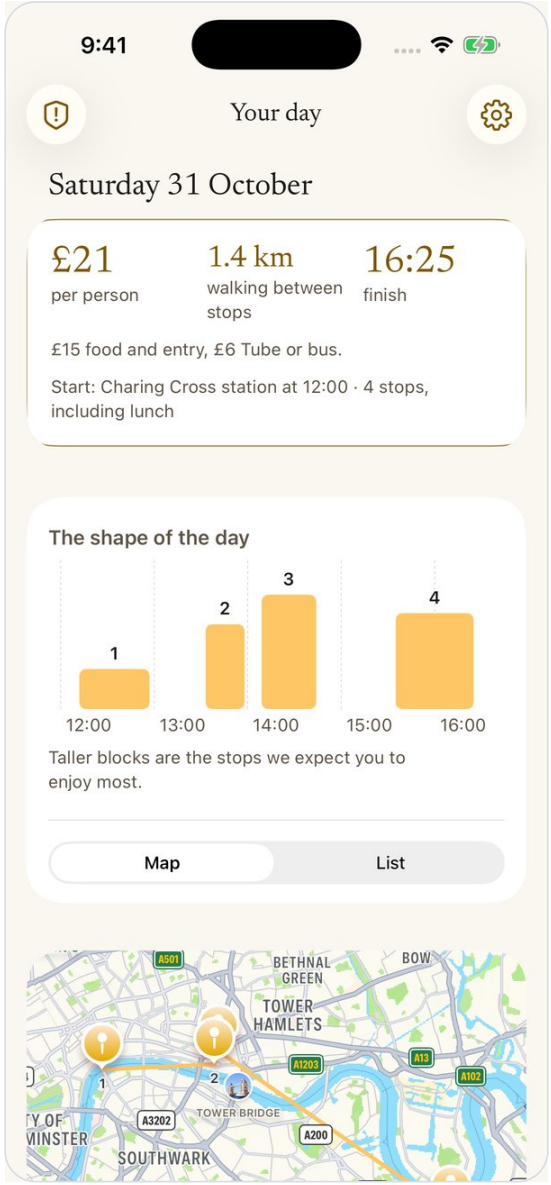

7 This or that

Two made-up example days: pick one, or "No preference". There are 5 of these.

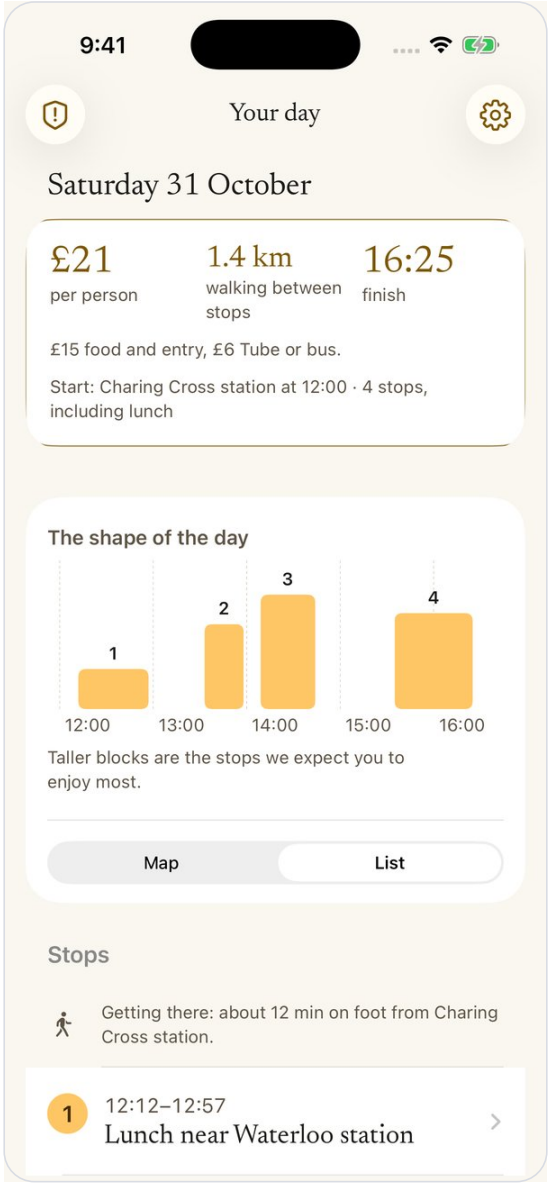

8 Plan a day

Choose the day and the times.

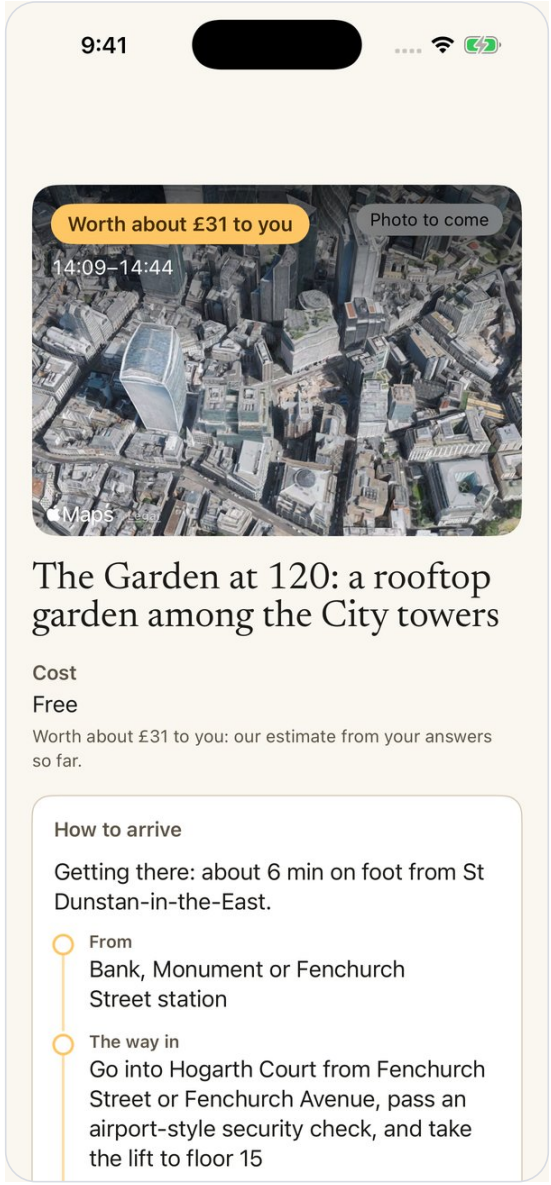

9a Your day

Cost per person, walking and the finish time first, the shape of the day, then the map and the stops.

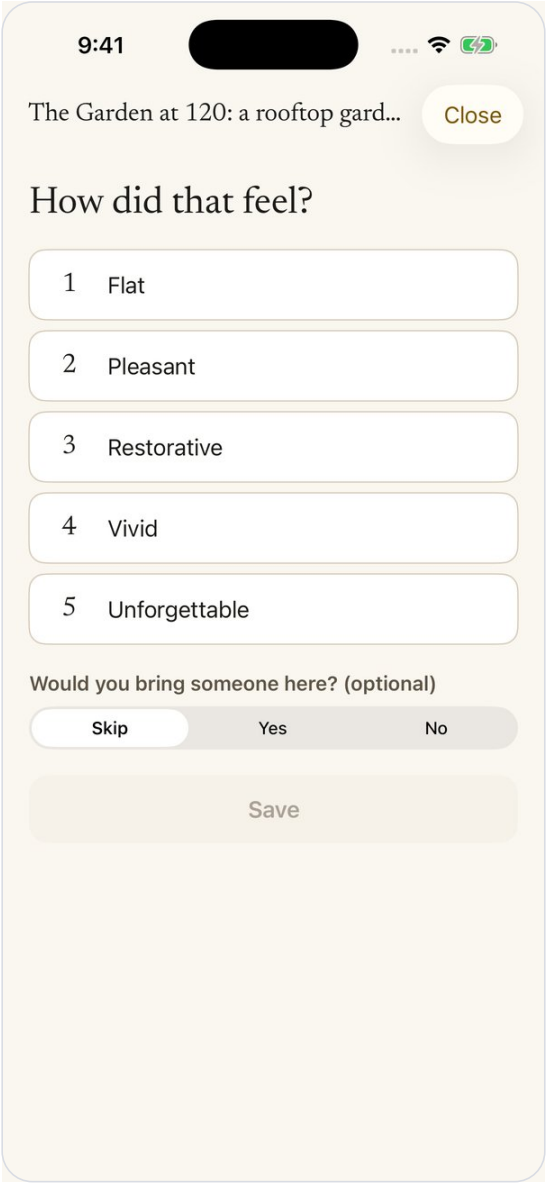

9b Your day, as a list

The same plan without the map, with the travel between stops. "Regenerate plan" is further down.

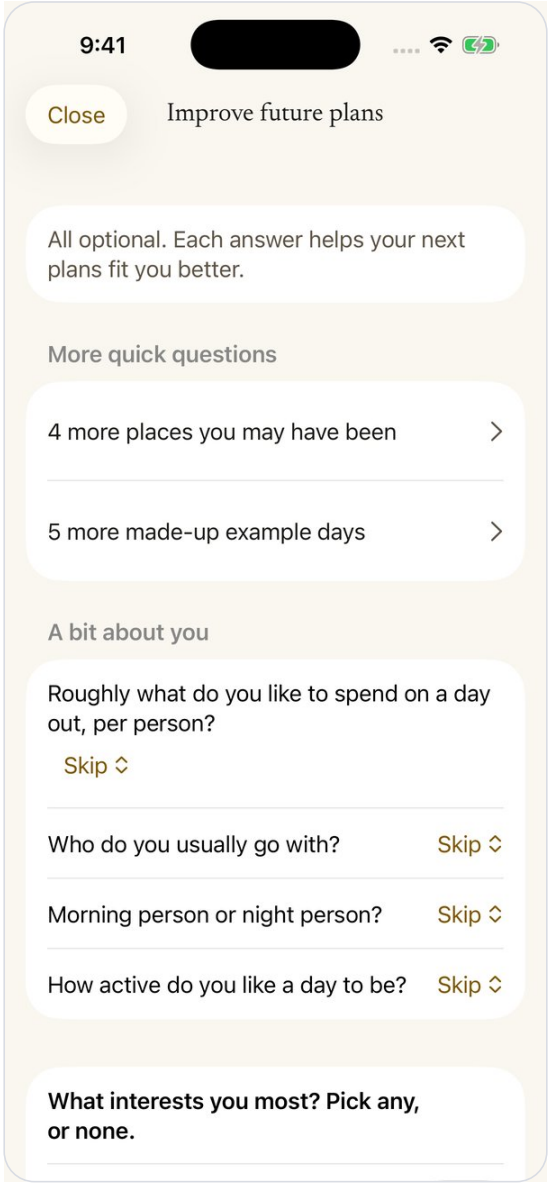

10 A stop

The moment card: worth to you, cost, the way in, the best light, a rain option and Swap this stop.

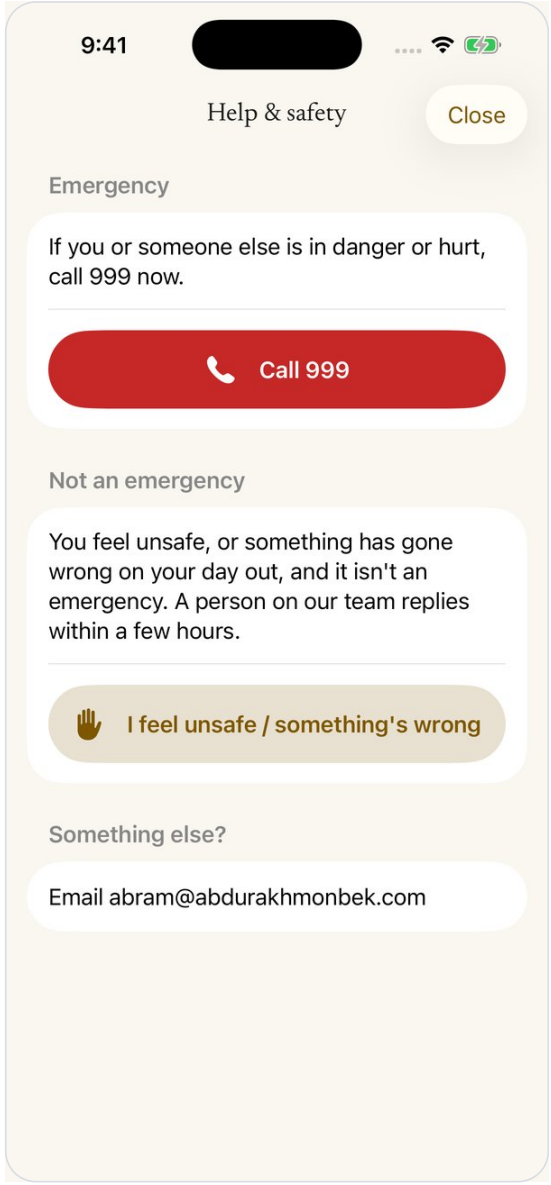

11 Rating

After the visit: five steps, from Flat to Unforgettable.

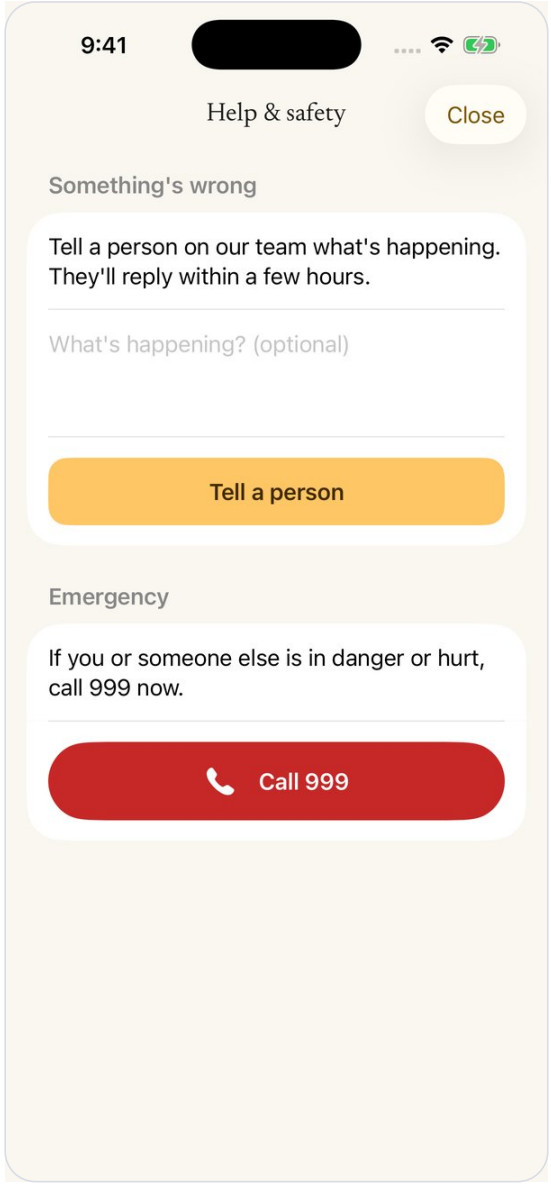

12 Improve future plans

One screen: 4 more places, 5 more example days, about you, photos and a short shot-card example.

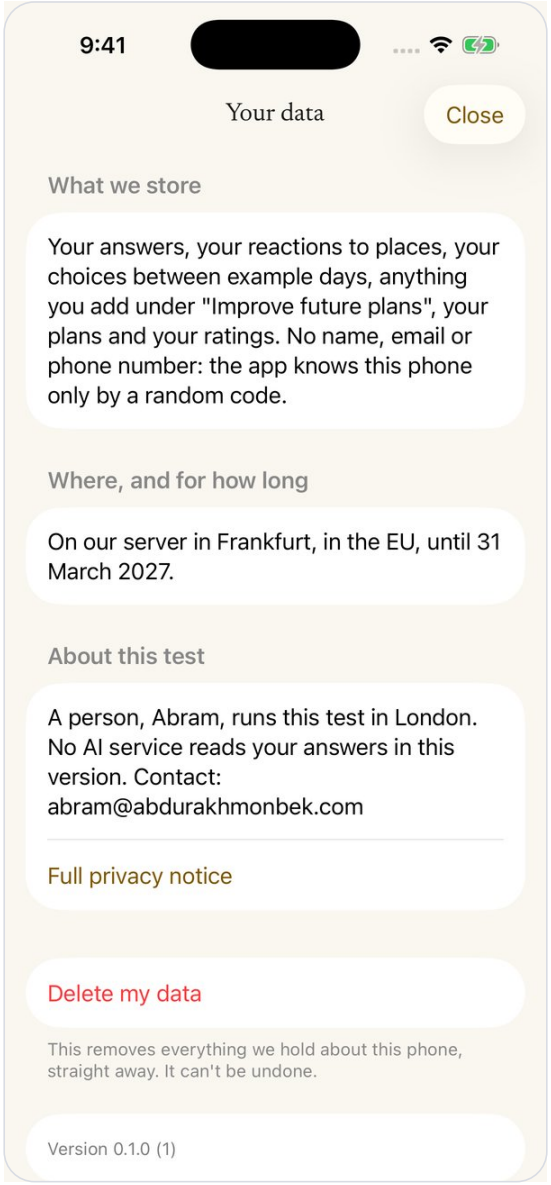

13a Help & safety

Emergency: call 999, kept separate from "I feel unsafe / something's wrong".

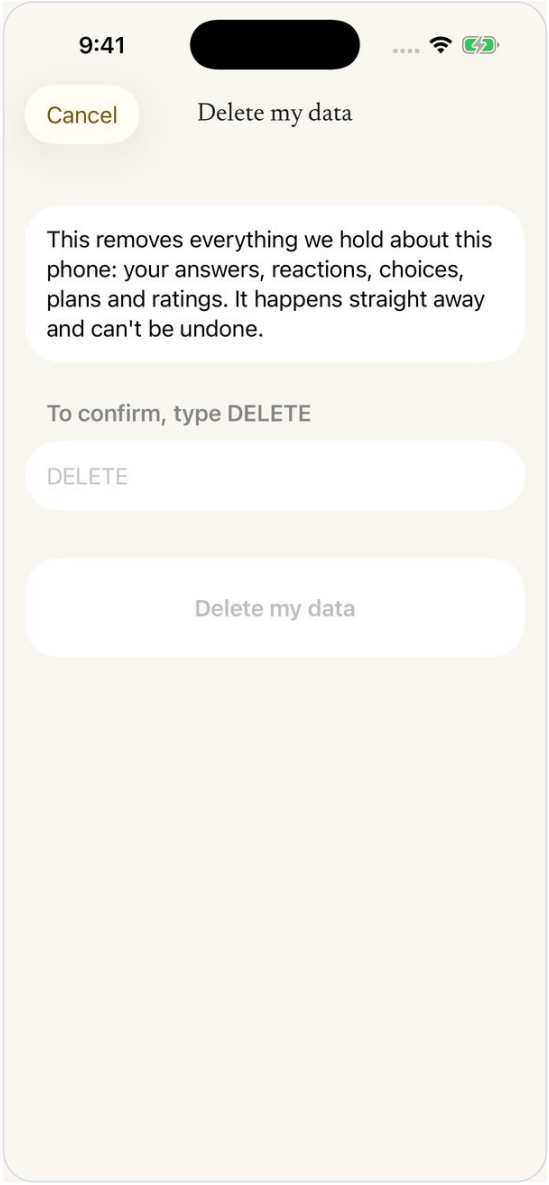

13b Help & safety: telling a person

An optional message to a person on the team, who replies within a few hours. 999 stays on screen.

14a Your data

What's stored, where and for how long.

14b Delete my data

Type DELETE to confirm. It can't be undone.
