Days out: the test app, after the screen review

14 screens, in the order you'd see them

An iPhone app that plans a day out in London around how you want it to feel, not a list of famous sights.
You answer a few quick questions and react to some places you know. It plans a day with a map, and you rate each stop after you've been. More questions, all optional, come after the first plan.
These are screenshots from a test build with sample data. Nothing is live yet.

Your feedback (about 10 minutes)

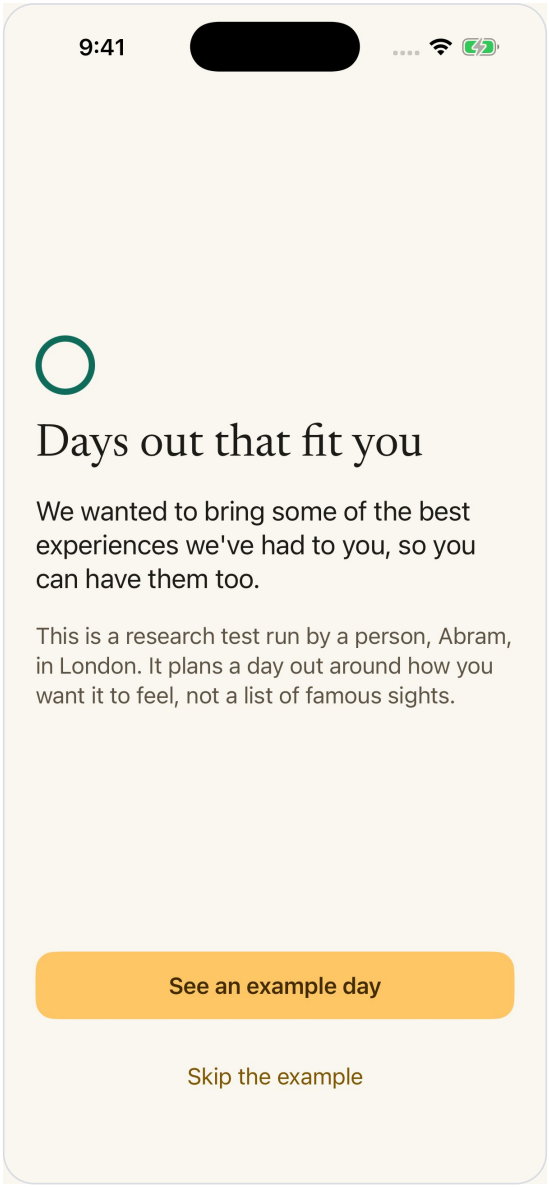

1. Is there a screen that would make you stop or give up? Which one?
2. Is anything confusing or unclear? Give the screen number.
3. Is there anything you'd change, add or remove?
4. Would you want to try it for a real day out? Why, or why not?

Reply to Abram with the screen numbers. Short answers are best, and honest ones help most, including "this is boring".

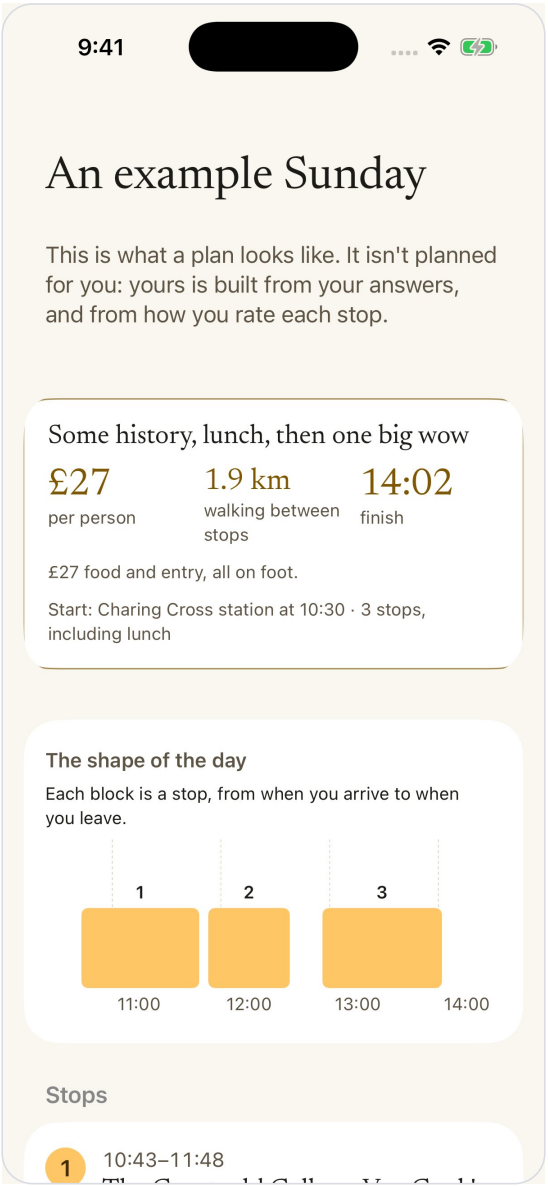

1a Welcome: the logo

On first opening, the icon's ring draws itself, then settles above the title (about 1.3 s; a tap skips it).

1b Welcome

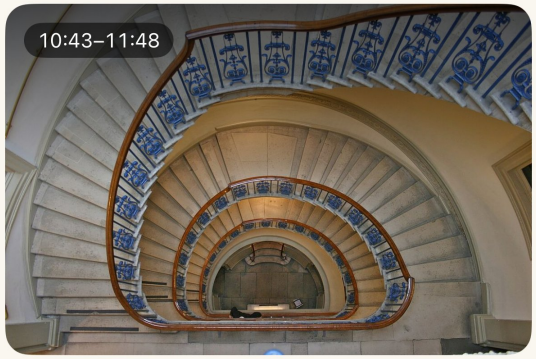

Who runs this, and why.

2a An example day

What a plan looks like, before any question: how the day should feel, cost and the stops. Not planned for you.

Before we start

- A research test run by Abram, one person in London. Nothing is sold.
- A few quick questions and some London places, then your day plan.
- We keep your answers to plan your days and to test the idea. We don't ask for your name, email or phone number.
- Skip any question and stop any time. Settings → Delete my data removes everything.

3 Before we start

A short summary, the two required choices in a box, and the details folded away.

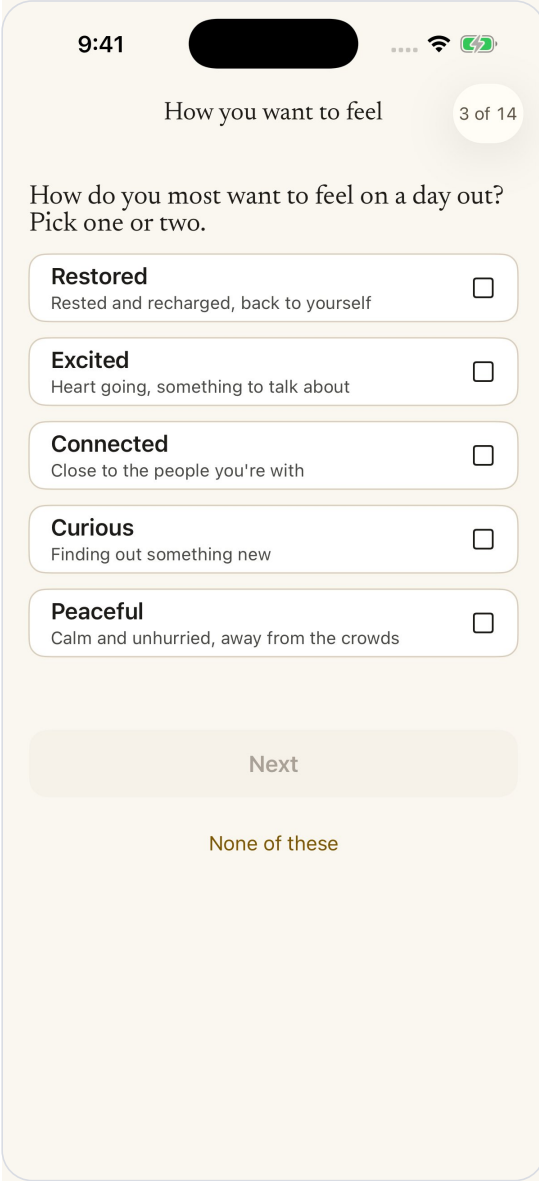

3b Where you're based

London, elsewhere in the UK, or visiting from abroad, and a town or city if they like. Never nationality.

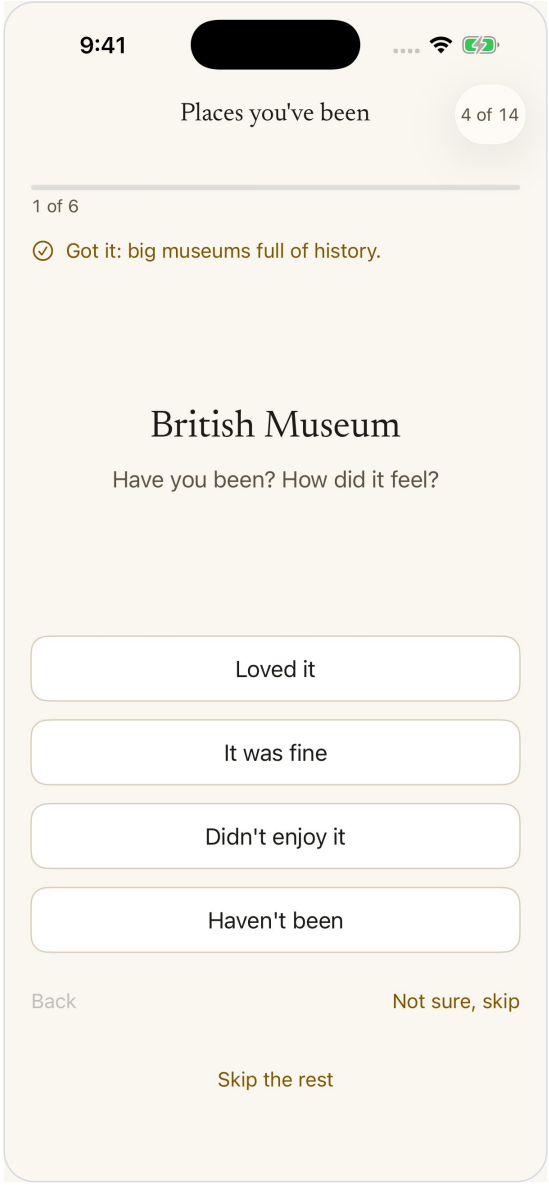

4 A great moment

Abram asks it in a small video tile (placeholder until recorded). "Tell it instead" to speak, or type, or skip.

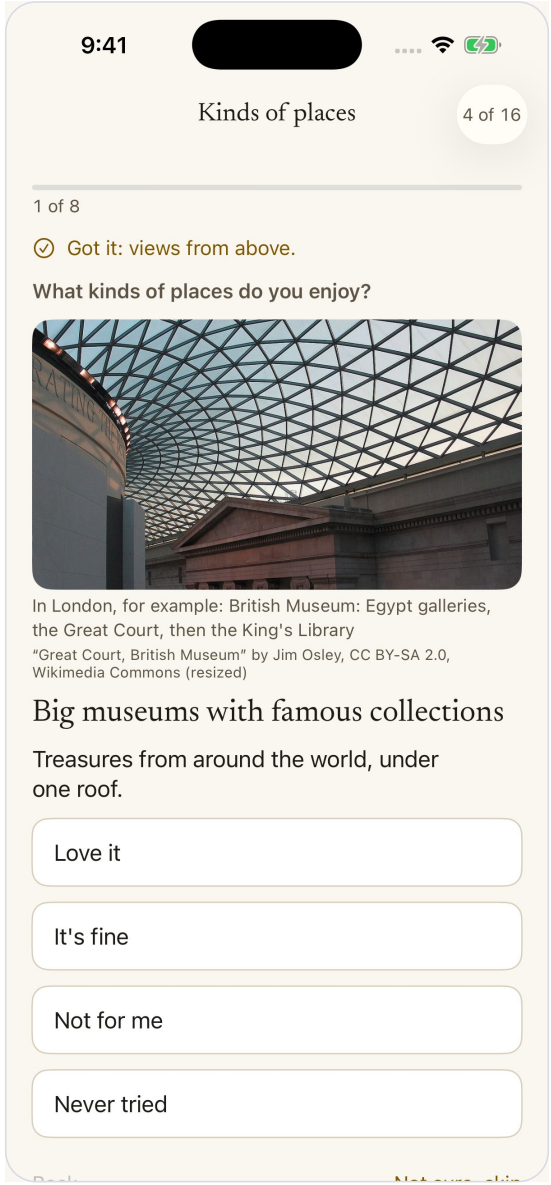

5 How you want to feel

Restored, excited, connected, curious or peaceful: tick one or two. "None of these" is a link below Next.

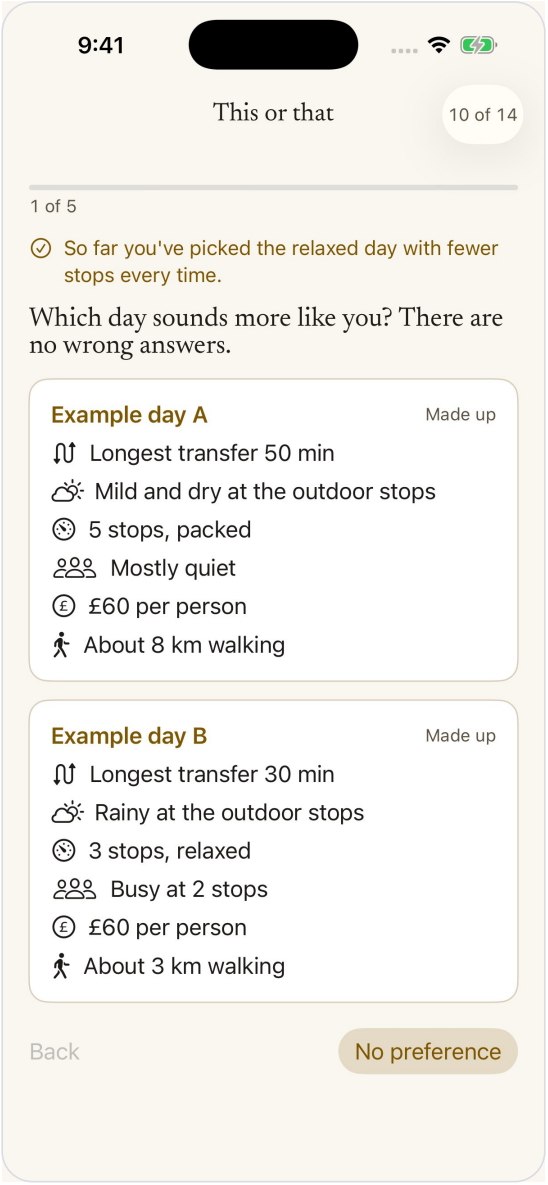

6 Places you've been

6 London places, one at a time. A short line reacts to the last answer ("Got it: …"), only from what was answered.

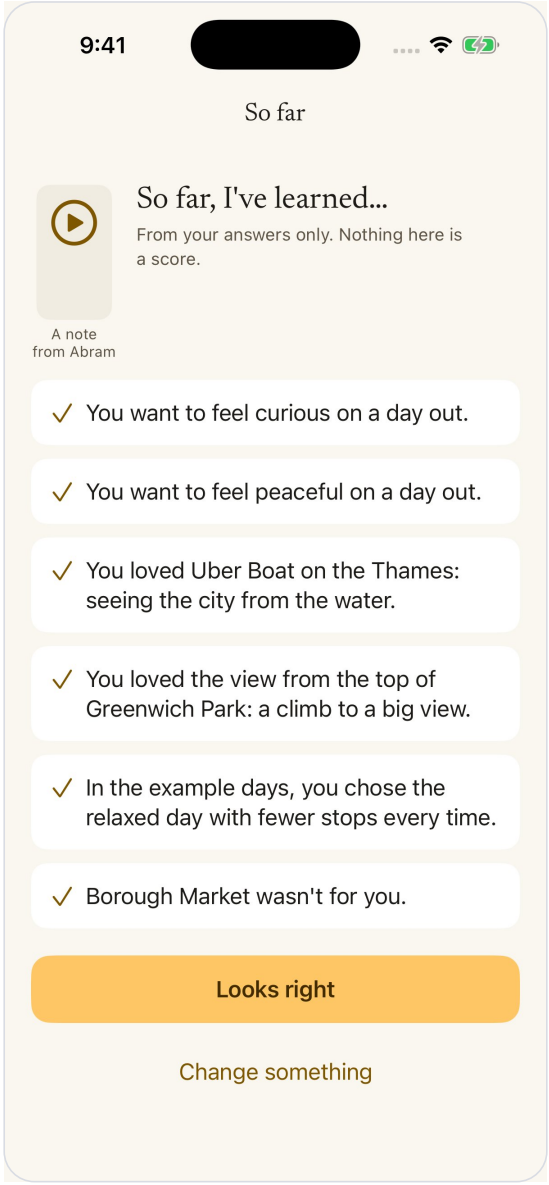

6b Kinds of places (visitors)

Visitors from abroad only, instead of 6: 8 kinds of places with a London example. "Never tried" asks if they'd like to.

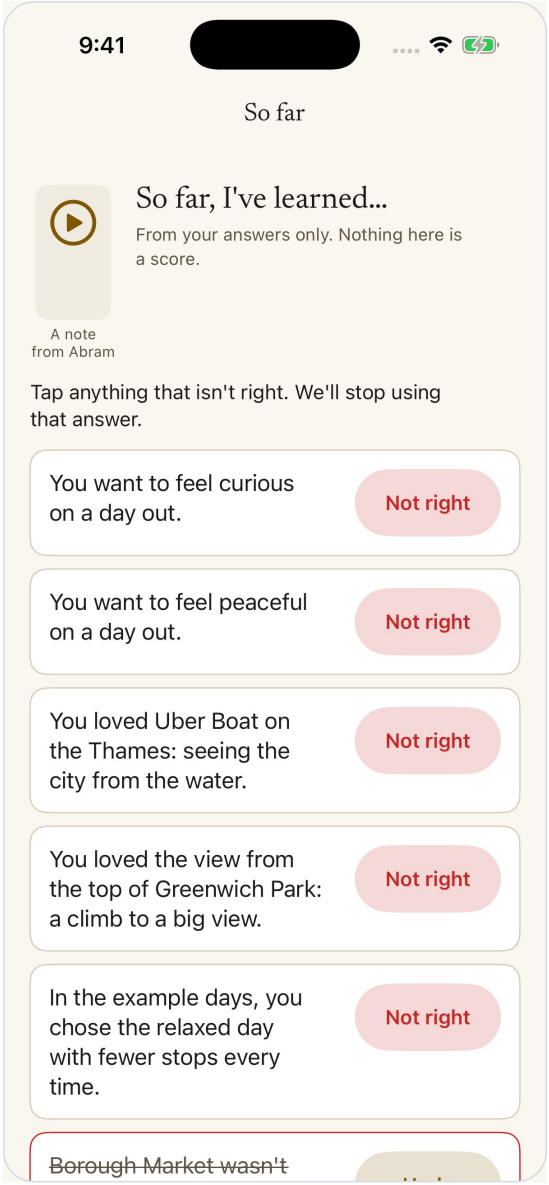

7 This or that

"There are no wrong answers." Two made-up days: pick one, or "No preference". A pattern is named once it holds 3 times.

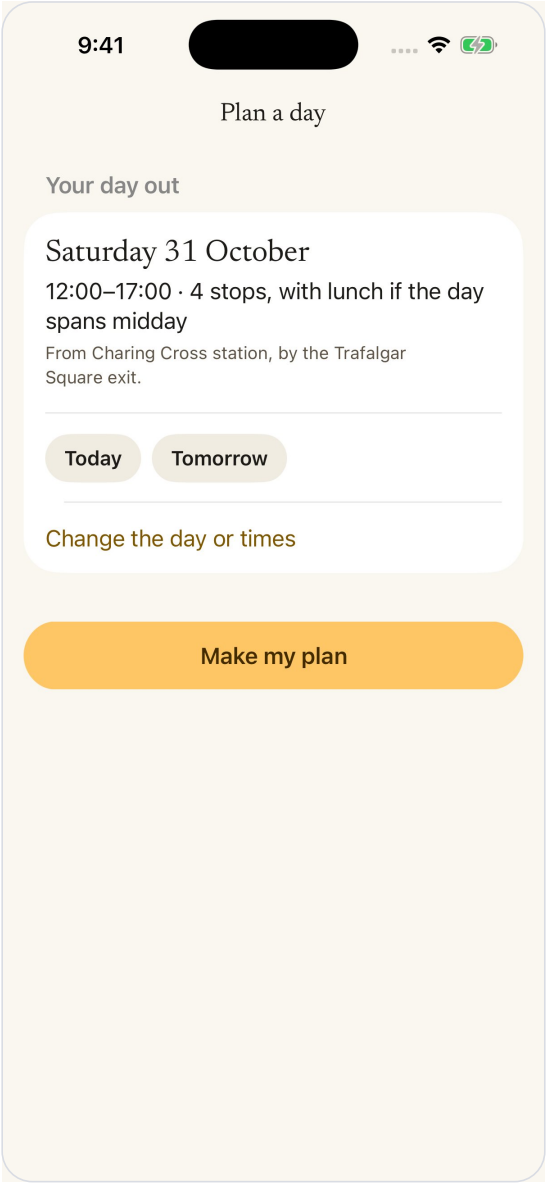

7b So far, I've learned…

Your own answers in plain words, no scores, with a small note from Abram. Looks right, or Change something.

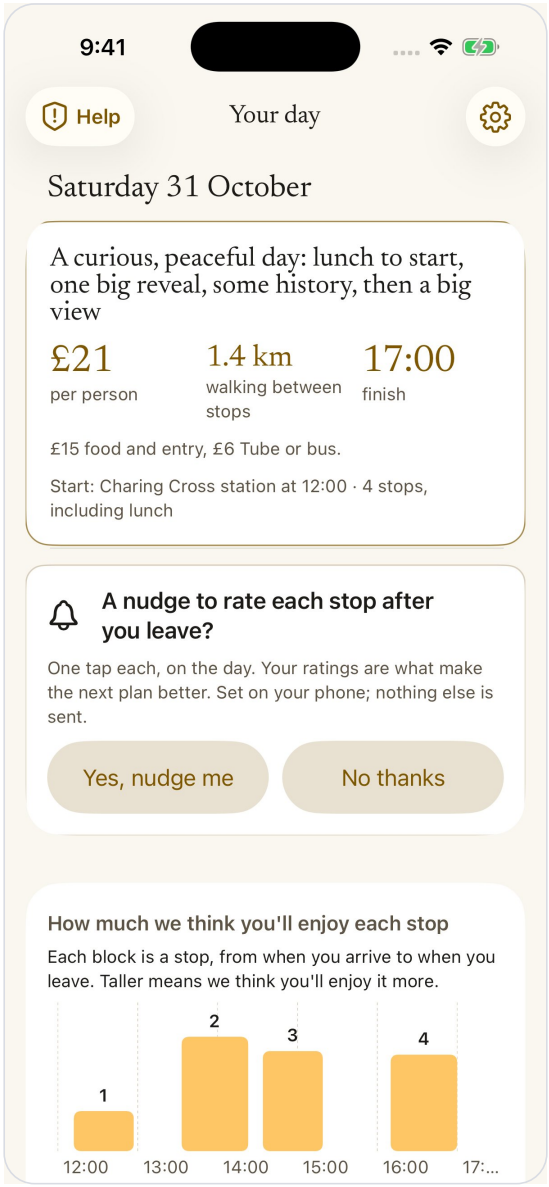

7c So far: changing something

"Not right" on any line (Undo to take it back). It's stored, and that answer stops counting.

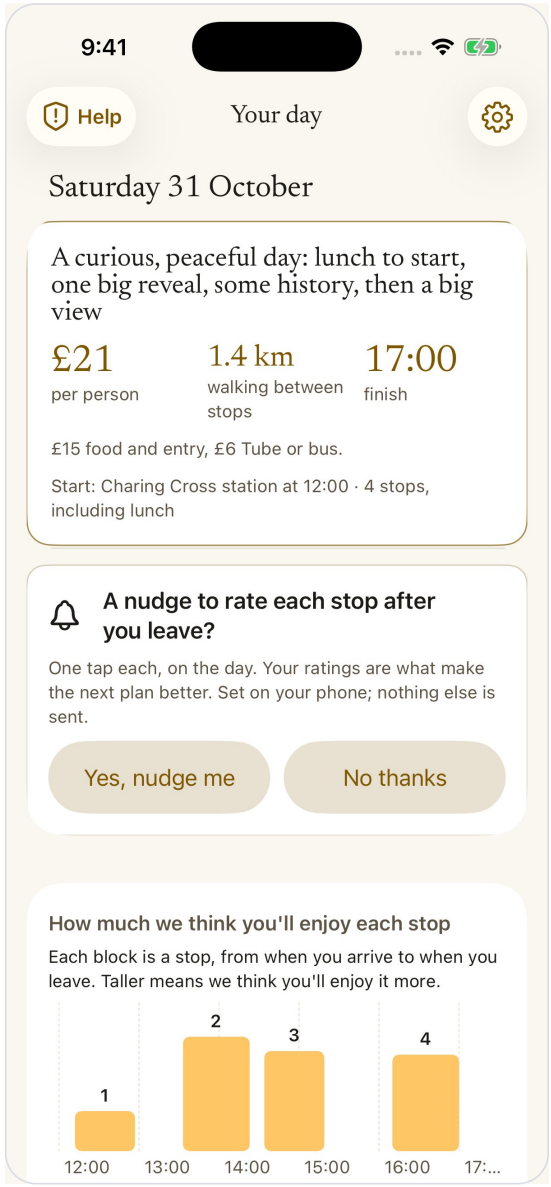

8 Plan a day

Next Saturday, 12:00–17:00, already filled in, or Today / Tomorrow. One tap makes the plan.

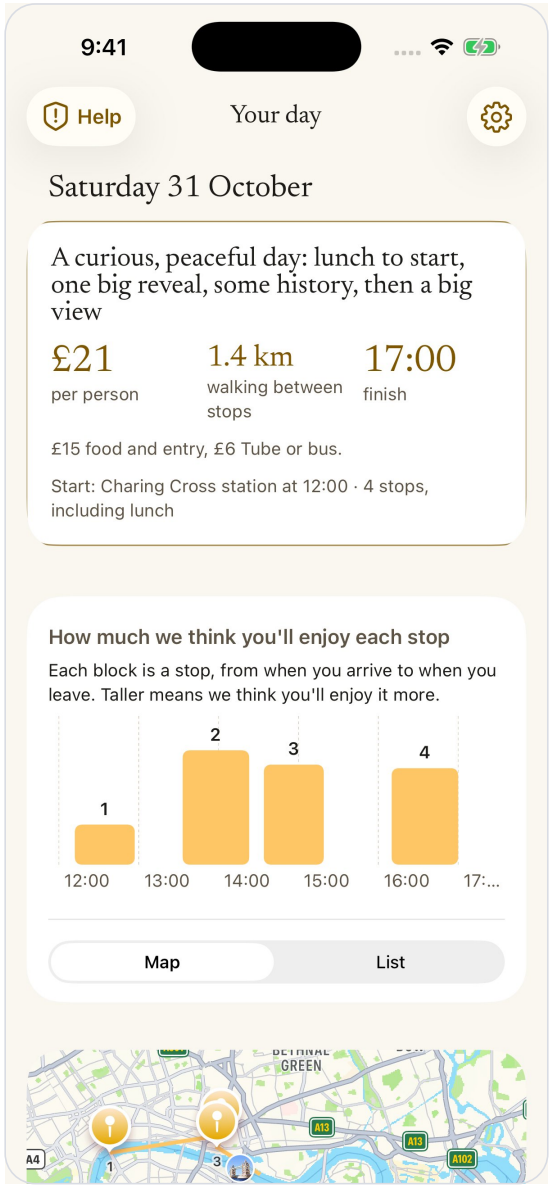

9a Your day

The day in your own feeling words when the stops carry them, the numbers, a one-time ask about rating reminders.

9b Your day, as a list

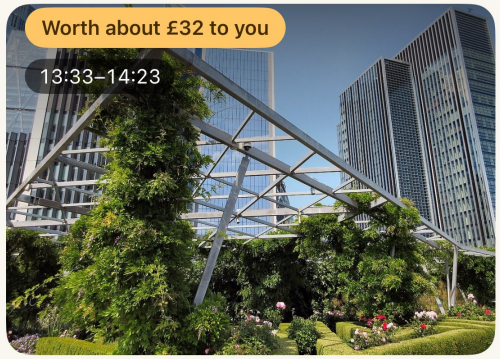

The same plan without the map, with the travel between stops. "Regenerate plan" is further down.

9c Your day: the reveal, part-way

Instead of a spinner: the feeling line, the summary, then the route draws and each stop appears (2.6 s, once).

12b One question at a time

Tap an answer and the next question comes. Skip any, stop any time.

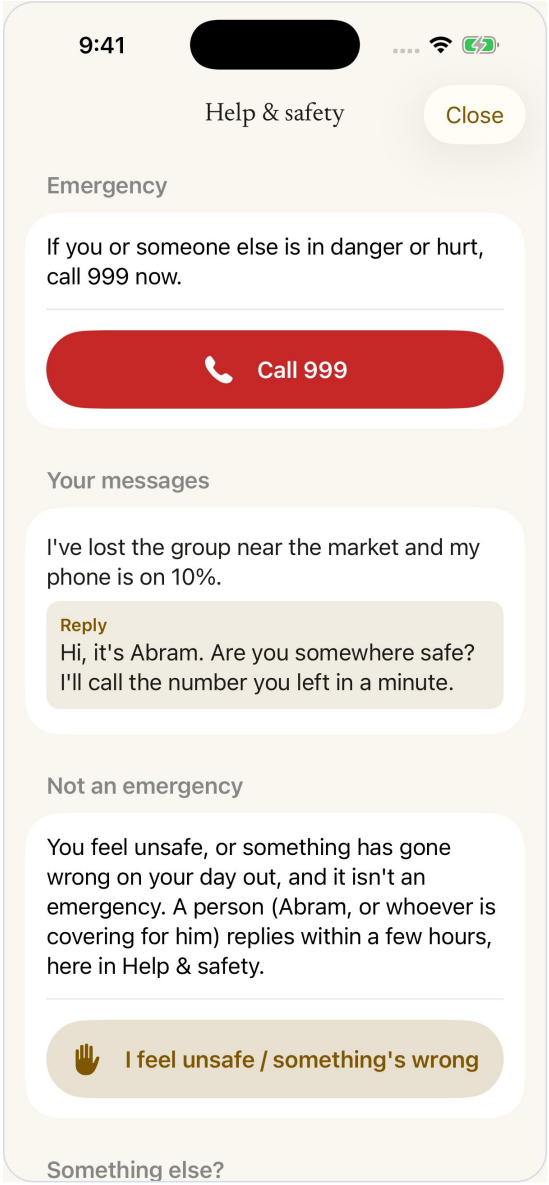

13a Help & safety

Emergency: call 999, kept separate from "I feel unsafe / something's wrong".

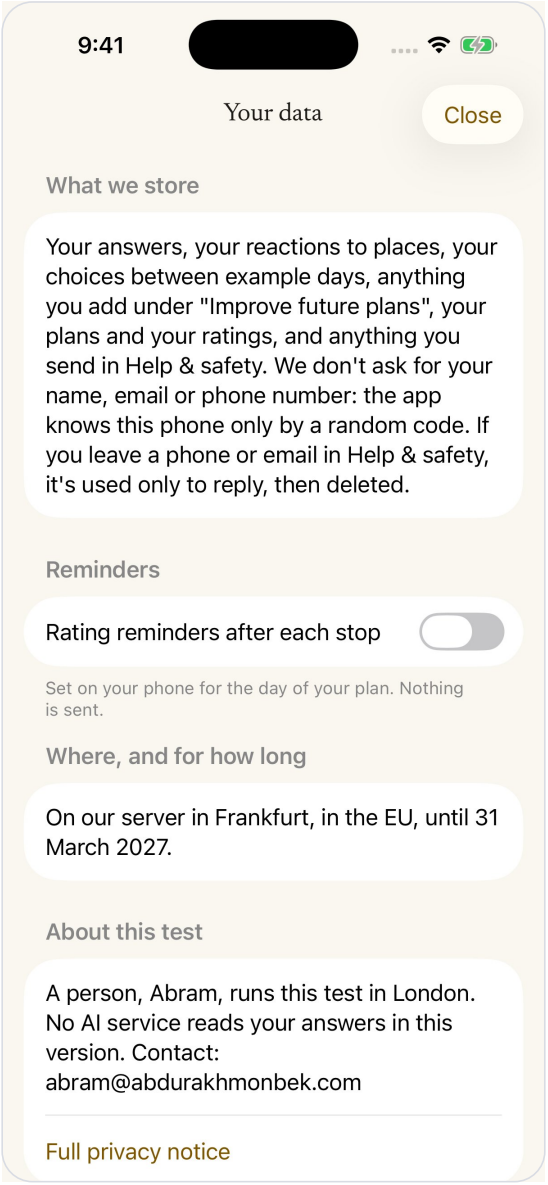

13b Help & safety: telling a person

A message to Abram (or whoever covers), and a phone or email if you want, used only to reply. 999 stays on screen.
