Days out: the test app, after the screen review

14 screens, in the order you'd see them

An iPhone app that plans a day out in London around how you want it to feel, not a list of famous sights.
You answer a few quick questions and react to some places you know. It plans a day with a map, and you rate each stop after you've been. More questions, all optional, come after the first plan.
These are screenshots from a test build with sample data. Nothing is live yet.

Your feedback (about 10 minutes)

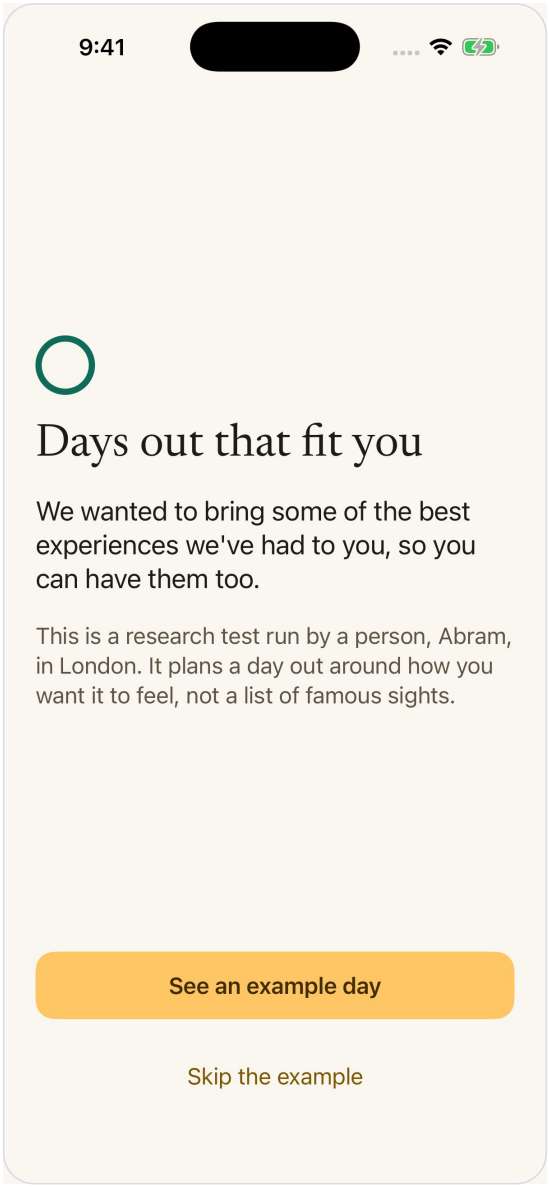

1. Is there a screen that would make you stop or give up? Which one?
2. Is anything confusing or unclear? Give the screen number.
3. Is there anything you'd change, add or remove?
4. Would you want to try it for a real day out? Why, or why not?

Reply to Abram with the screen numbers. Short answers are best, and honest ones help most, including "this is boring".

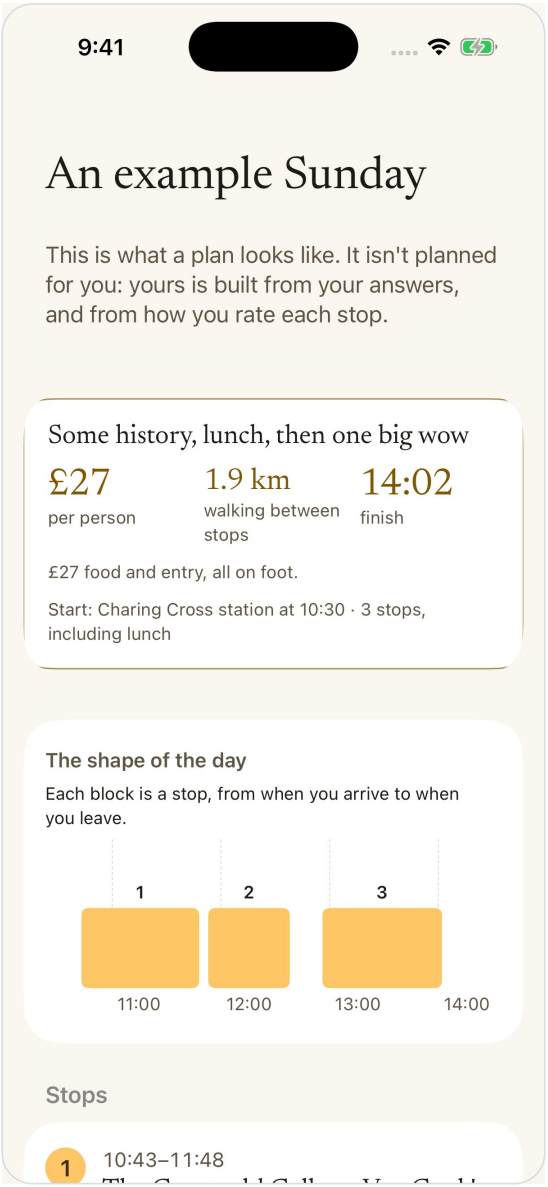

1a Welcome: the logo

On first opening, the icon's ring draws itself, then settles above the title (about 1.3 s; a tap skips it).

1b Welcome

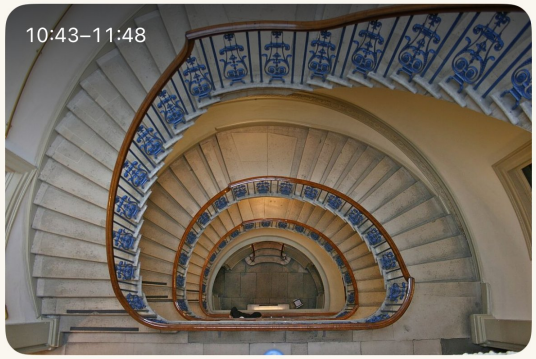

Who runs this, and why.

2a An example day

What a plan looks like, before any question: how the day should feel, cost and the stops. Not planned for you.

Before we start

- A research test run by Abram, one person in London. Nothing is sold.
- A few quick questions and some London places, then your day plan.
- We keep your answers to plan your days and to test the idea. No name, email or phone number.
- Skip any question and stop any time. Settings → Delete my data removes everything.

3 Before we start

A short summary, the two required choices in a box, and the details folded away.

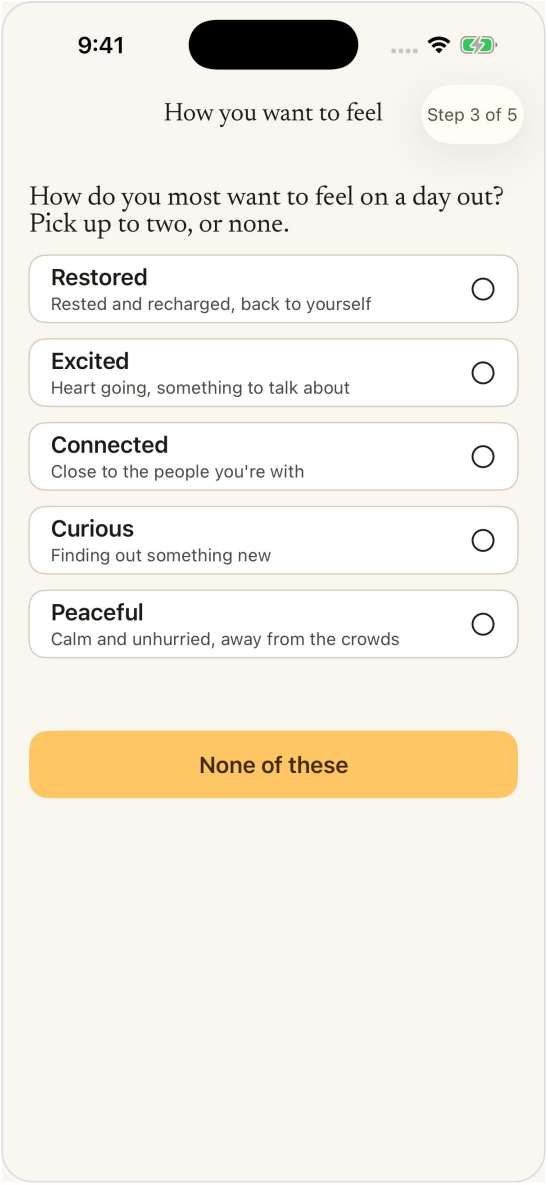

3b Where you're based

London, elsewhere in the UK, or visiting from abroad, and a town or city if they like. Never nationality.

4 A great moment

Abram asks it in a small video tile (placeholder until recorded). "Tell it instead" to speak, or type, or skip.

5 How you want to feel

Restored, excited, connected, curious or peaceful: pick up to two, or none.

Step 4 of 5

1 of 8

Got it: views from above.

What kinds of places do you enjoy?

- 3 stops, relaxed
- Busy at 2 stops
- £60 per person
- About 3 km walking

7 This or that

"There are no wrong answers." Two made-up days: pick one, or "No preference". A pattern is named once it holds 3 times.

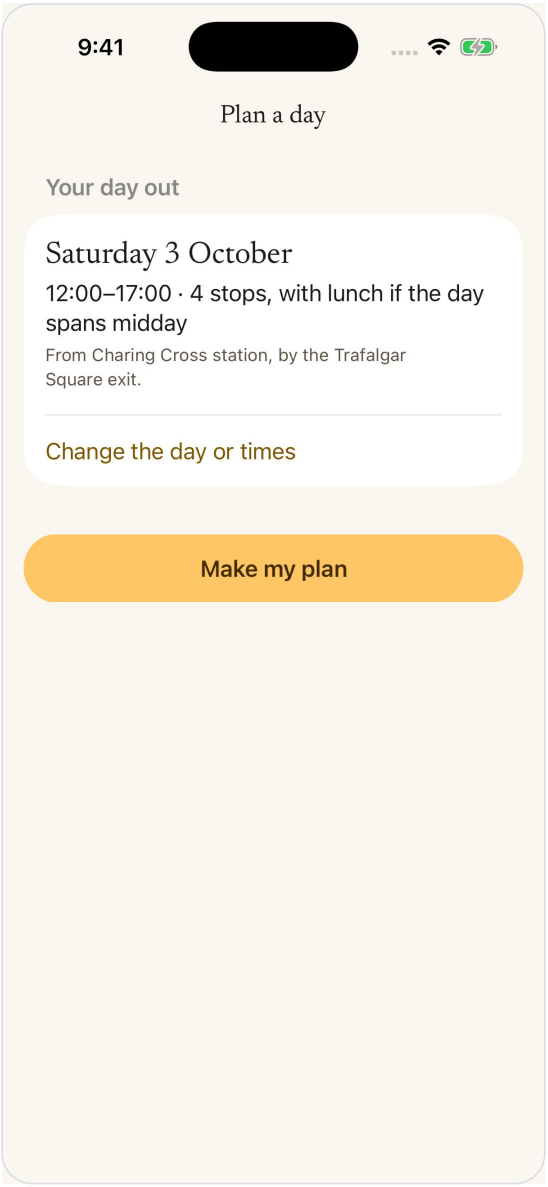

7b So far, I've learned…

Abram's thank-you tile, then your own answers in plain words. No scores. Looks right, or Change something.

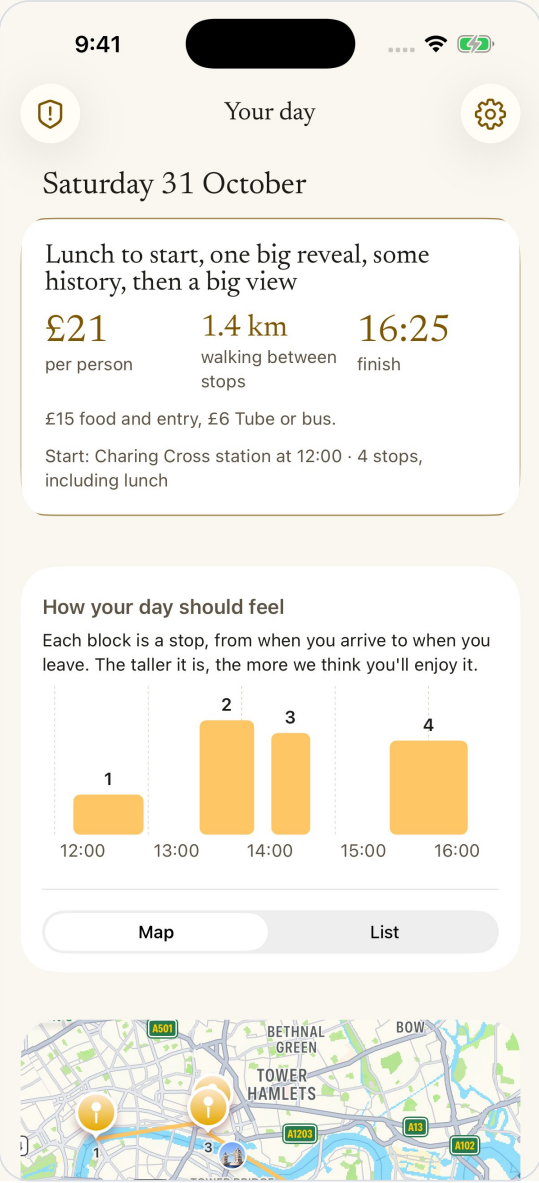

7c So far: changing something

Tap any line that isn't right. It's stored, and that answer stops counting.

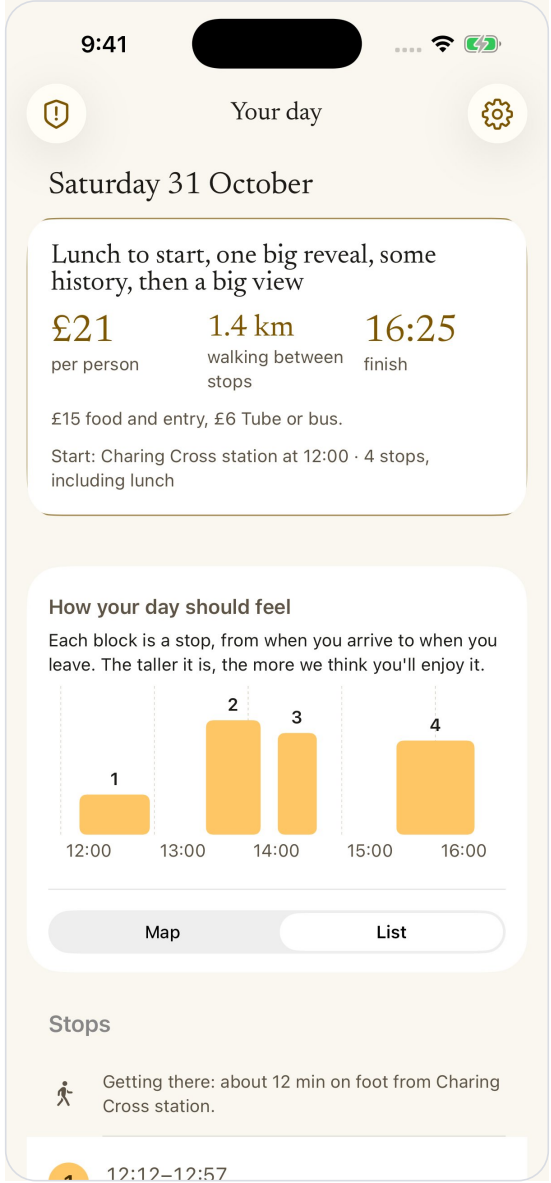

8 Plan a day

Next Saturday, 12:00–17:00, already filled in: one tap makes the plan. The day and times can change.

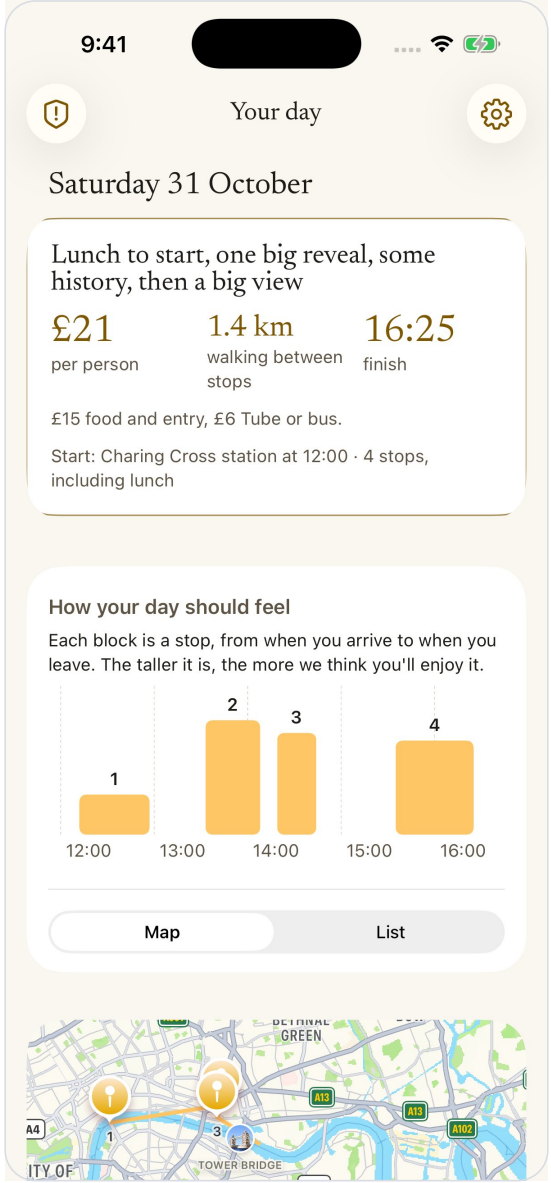

9a Your day

How the day should feel in one line, then cost, walking and finish, the day's shape, the map and the stops.

9b Your day, as a list

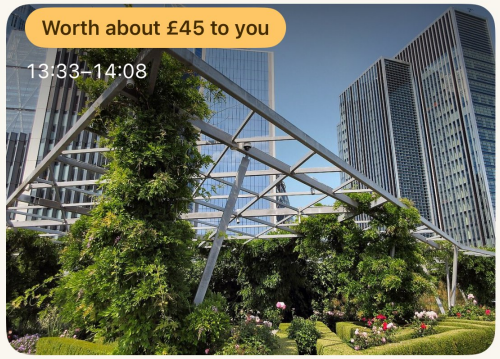

The same plan without the map, with the travel between stops. "Regenerate plan" is further down.

9c Your day: the reveal, part-way

Instead of a spinner: the feeling line, the summary, then the route draws and each stop appears (2.6 s, once).
