Days out: the first version of the app

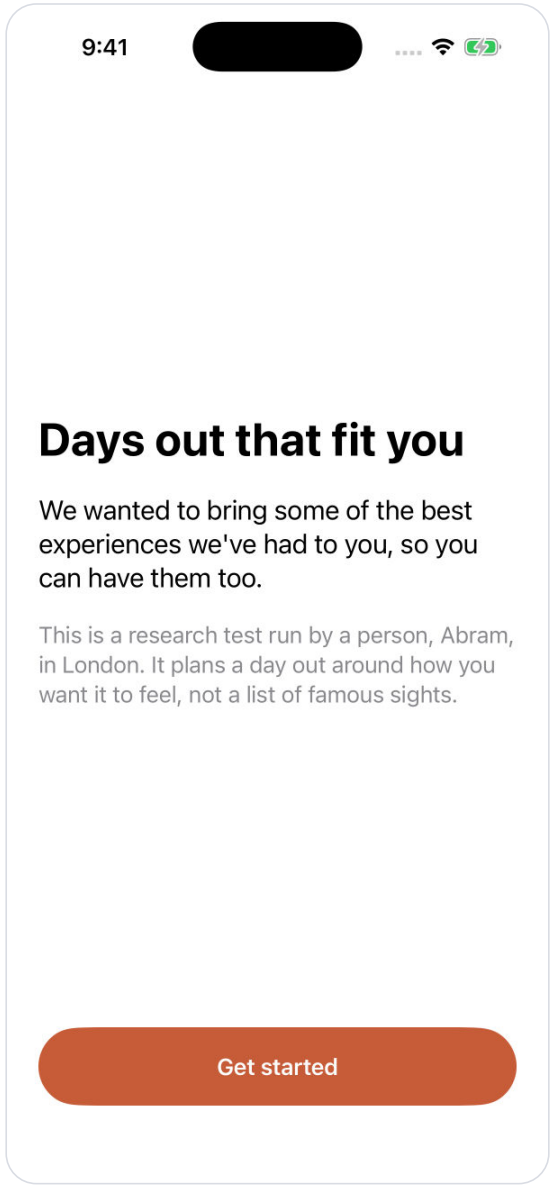

15 screens, in the order you'd see them

An iPhone app that plans a day out in London around how you want it to feel, not a list of famous sights.
You answer a few questions and react to some places you know. It plans a day with a map, and you rate each stop.
These are screenshots from a test build with sample data. Nothing is live yet.

Your feedback (about 10 minutes)

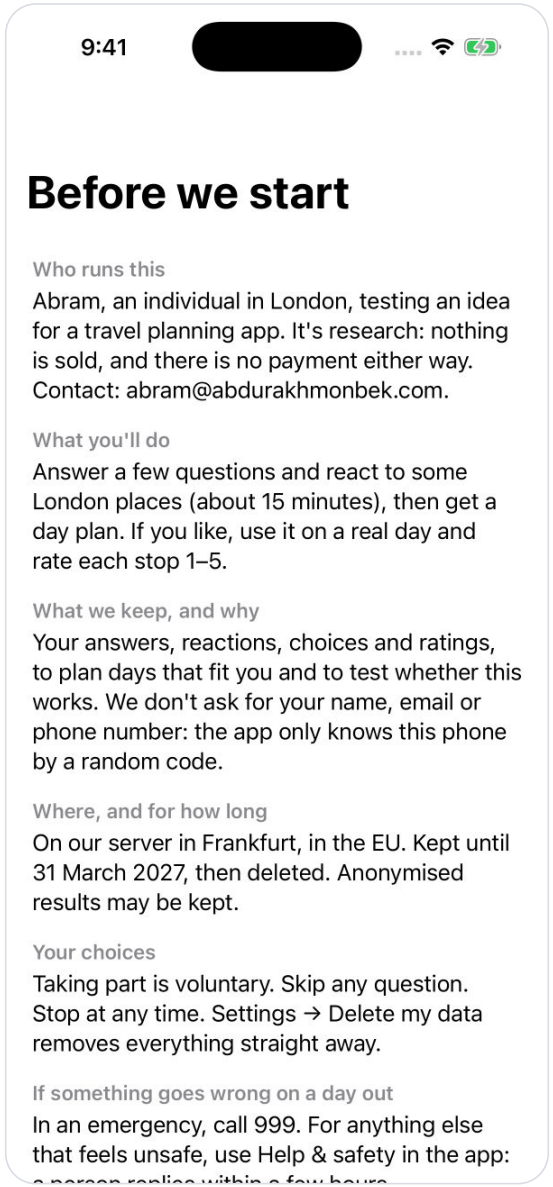

1. Is there a screen that would make you stop or give up? Which one?
2. Is anything confusing or unclear? Give the screen number.
3. Is there anything you'd change, add or remove?
4. Would you want to try it for a real day out? Why, or why not?

Reply to Abram with the screen numbers. Short answers are best, and honest ones help most, including "this is boring".

Shot card

Waterloo Bridge at sunset, both ways

Where to stand
The middle of the bridge, at the railing; then cross the road to the other side

Which way to face
West (upriver) first; then cross over and face east (downriver)

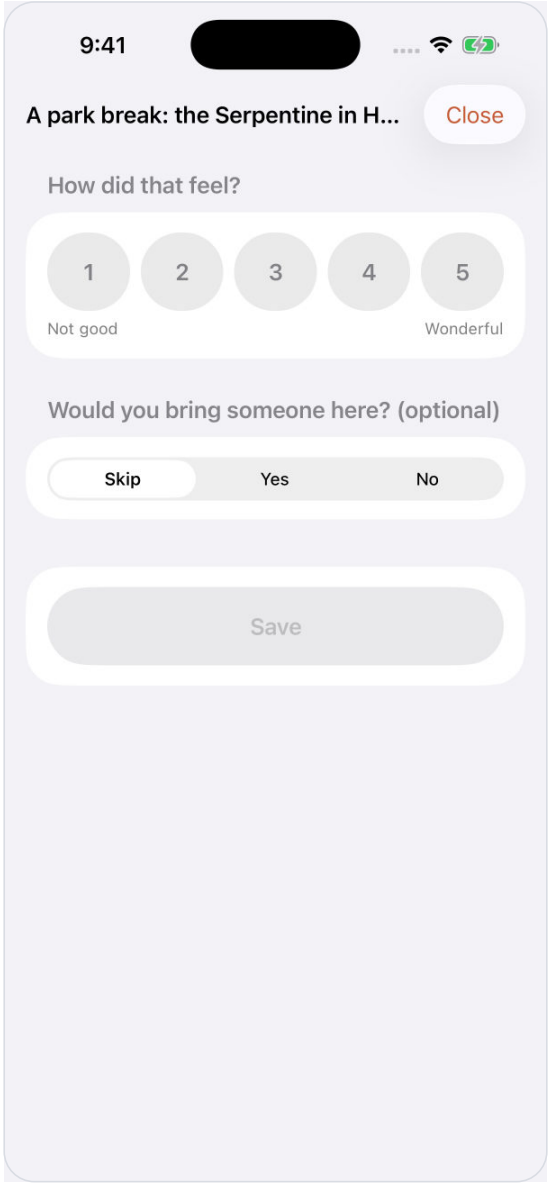

What to frame
West: the river leading to Parliament, with the London Eye in the shot. East: St Paul's dome with the City's towers behind it

When
The 20 minutes either side of sunset: around 4:30pm after the clocks go back on 25 Oct, around 6pm in mid-October

What spoils it
Stepping into the road for the shot; stay on the pavement
