ODYS: every screen, iPhone and Android

A design, UI and UX review pack for AI models and people (19 October 2026)

What ODYS is

A test app that plans a day out in London around how a person wants to feel (restored, excited, connected, curious, peaceful), not around famous sights. The unit is a 'moment': a specific experience at a place and time, often including how you arrive. People answer a few questions and react to places they know; the app plans a day with real Tube times and the forecast, and they rate each stop 1-5 after they've been. Trips add flights and places to stay, found in the app and booked on the provider's own site.

Who it's for now: friends, then strangers in London, testing whether a personal plan beats a generic one. One founder, about 7.5 hours a week. Design language: dark always, amber light, the Newsreader serif, an arch motif, quiet motion.

These are screenshots from test builds with sample data (CI, 19 Oct). The iPhone pages come first (58 pictures), then Android (46). The same number means the same screen on both.

What we'd like from you

1. Flow: where would a first-time user hesitate or give up? There are 14 questions before the first plan.
2. Clarity: anything confusing, ambiguous or too long? Quote the words.
3. Visual design: hierarchy, typography, spacing, contrast on the dark theme, consistency between screens and platforms.
4. Accessibility: legibility, tap targets, large text, colour contrast, motion.
5. Trust: do safety, privacy and 'we earn nothing from these links' come across? Anything that feels pushy or creepy?
6. Platform fit: does each app feel native (iOS Human Interface Guidelines, Android Material)?
7. Your top 10 changes, as a table: Screen number | Problem | Why it matters | Suggested fix | Severity (high, medium, low).

The flows, and the screens in each

First run

1a Welcome: the arch lighting up, 1b Welcome, 2a An example day, 2b An example day: one full card, 2c A hello from Abram, 3 Before we start

Onboarding, up to the first plan

3b Where you're based, 4 A great moment, 5 How you want to feel, 6 Places you've been, 6b Kinds of places (visitors), 7 This or that, 7b So far, I've learned…, 7c So far: changing something

The plan and the day out

8 Plan a day, 9a Your day, 9b Your day: the stops, 9c Your day: the reveal, part-way, 9d Your day, on the map, 10 A stop, 10a A stop: the way in, 10b Now (new), 10c Now: the day done (new), 11 Rating, 11a Rating: thank you, 11b Share card

Improve future plans (optional, after the first plan)

12a Improve future plans, 12b One question at a time

Help, safety and your data

13a Help & safety, 13b Help & safety: just sent, 13c Help & safety: a reply, 14a Your data, 14b Delete my data

Build 2: Tests A and B inside the app

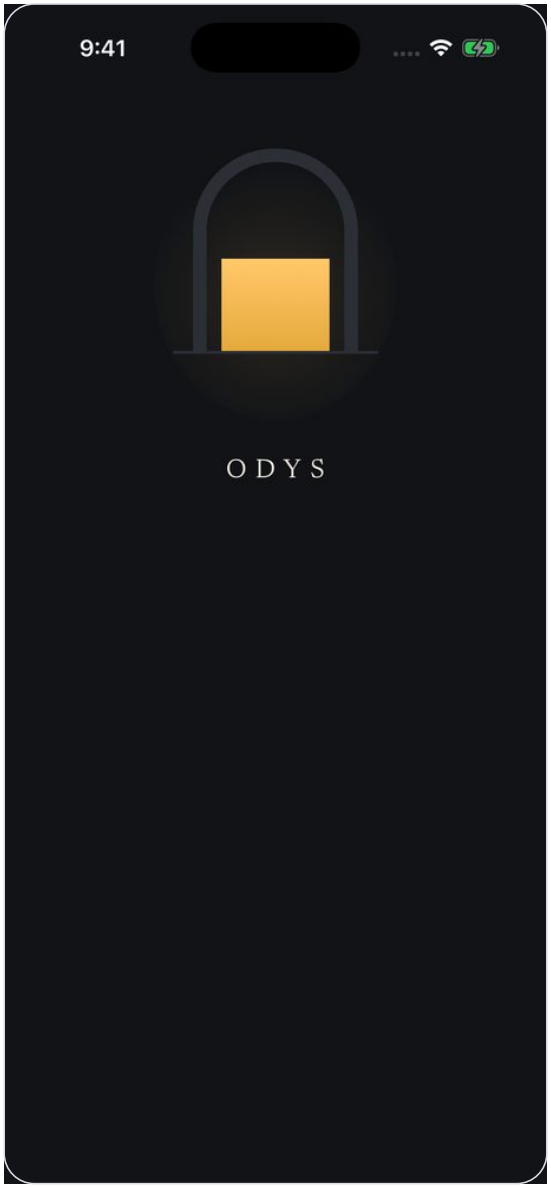

15 Three quick questions, 16 Before your plans, 17a Plan 1 or Plan 2?, 17b Plan 1 or Plan 2: choosing, 18 Which was yours

Trips (Abram's ODYS Trips design)

19 Where to next?, 20 Where are you going?, 21 When are you going? (new), 22 Getting there, 22a Your days, 23 How should the trip feel?, 24 The trip, 25 The first day, 25a The last day, 25b Change this day (new), 26 Flights, 27 Flight filters, 28 A flight: where to book, 28a Going to a booking site, 28b Back from the booking site, 29 Places to stay, 30 Places to stay, on the map, 31 Stay filters, 32 A place to stay, 33 You

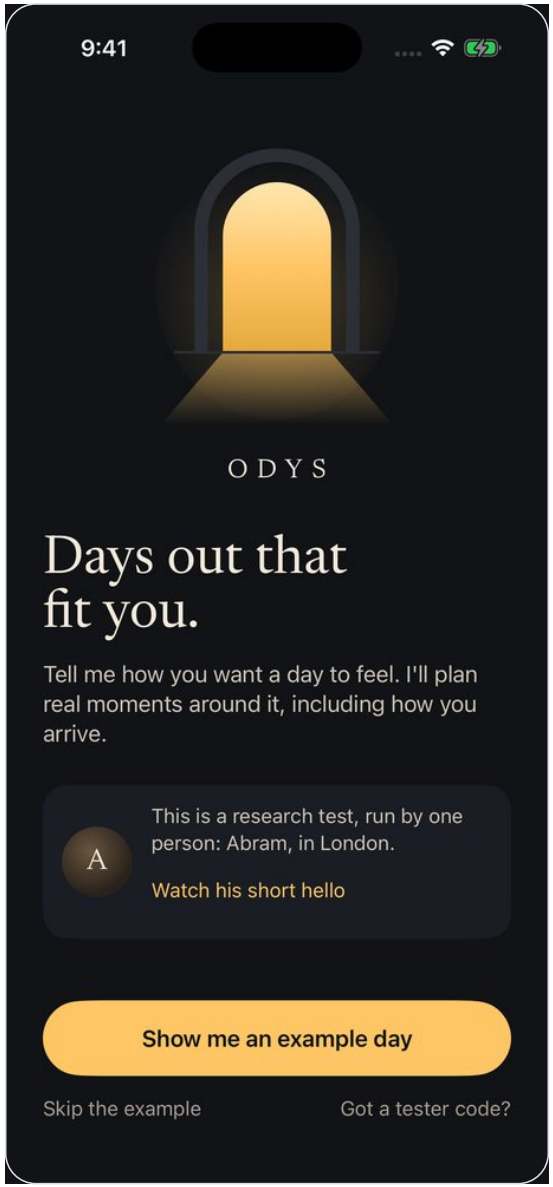

iPhone

58 pictures of 33 screens, in the order a person sees them. Sample data from a test build.

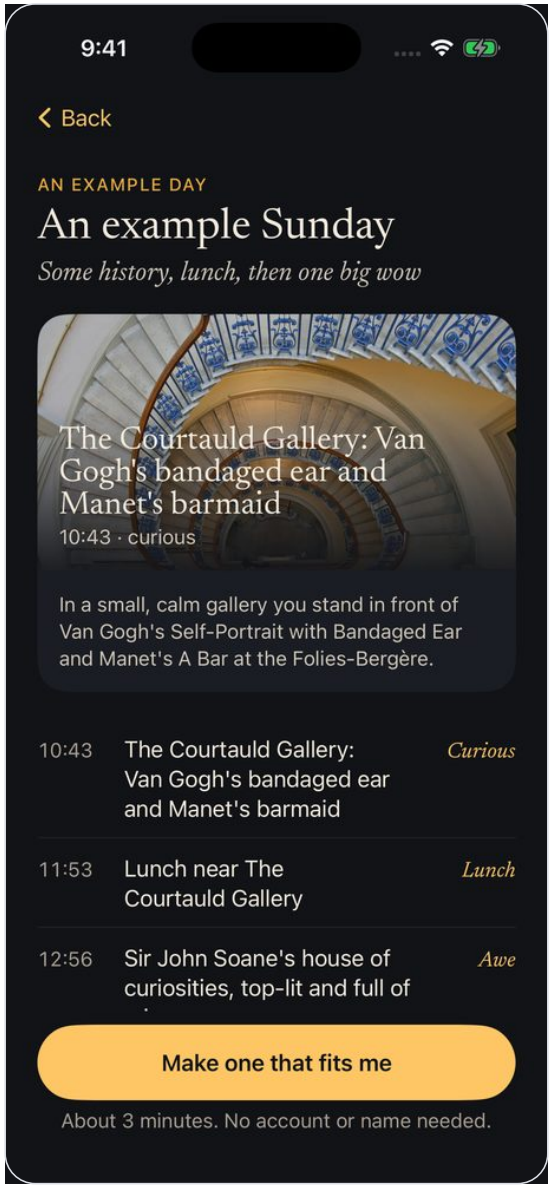

1a Welcome: the arch lighting up

On first opening, light rises in the arch and spills out in front (about a second; a tap skips it).

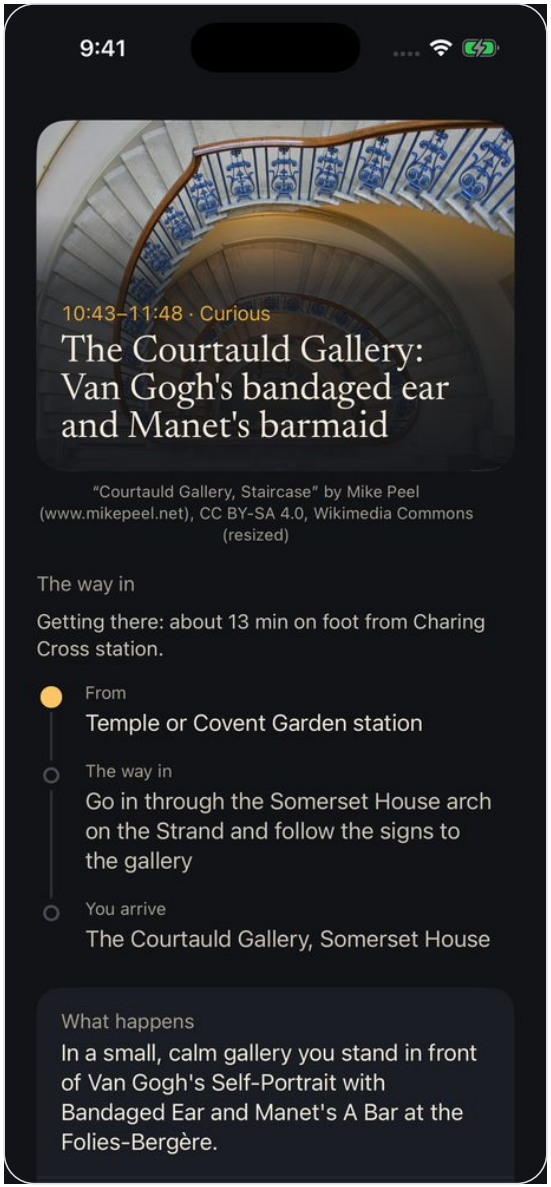

1b Welcome

ODYS: days out that fit you, and who runs this test.

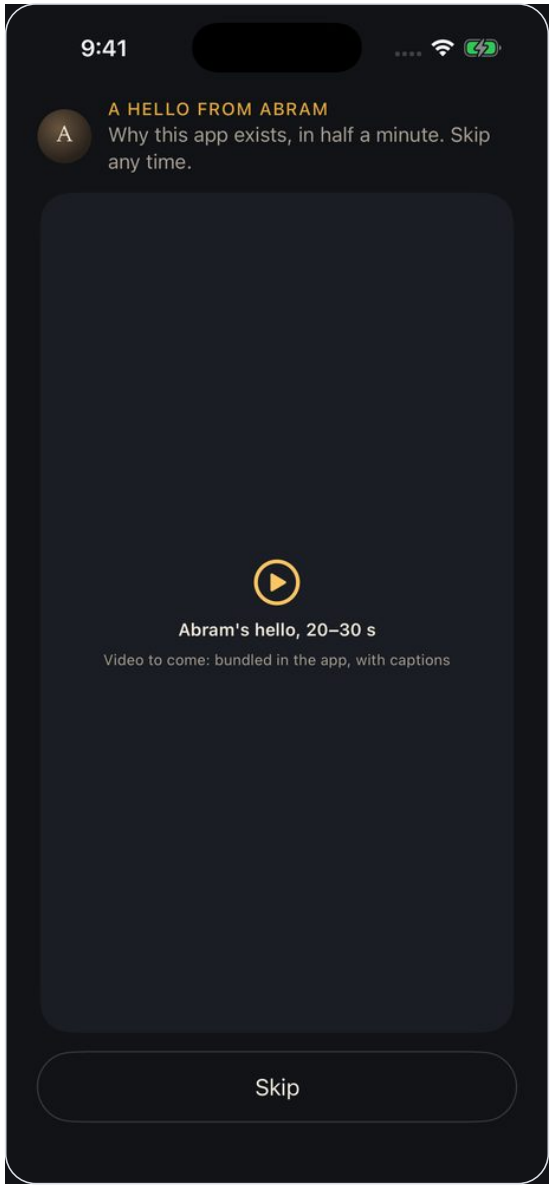

2a An example day

What a plan looks like, before any question: one stop as a picture, then the day. Not planned for you.

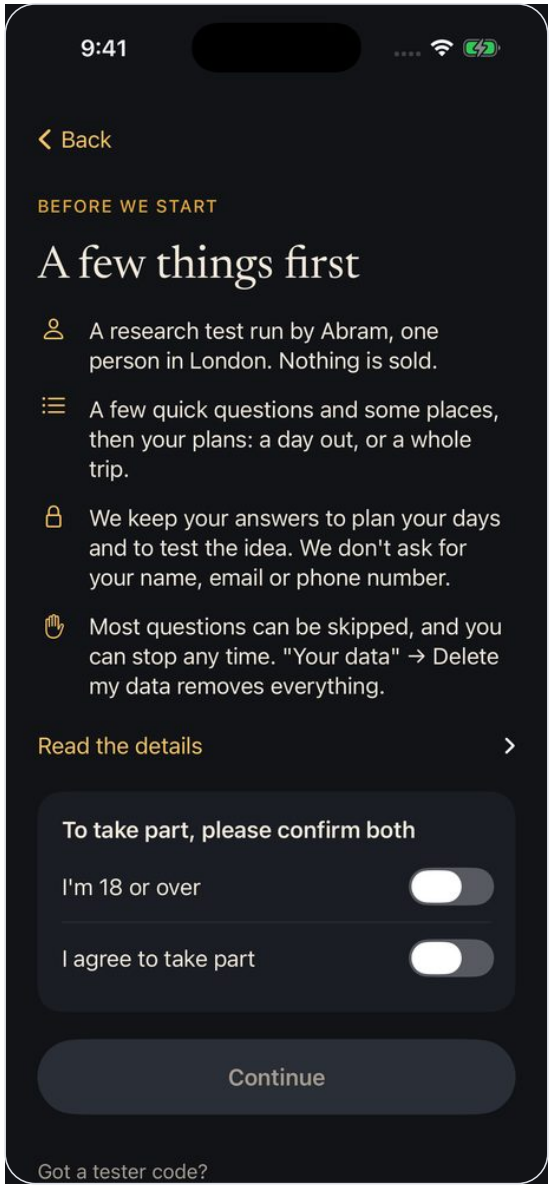

2b An example day: one full card

Further down the same screen: one stop's full card, so the special parts show before any question.

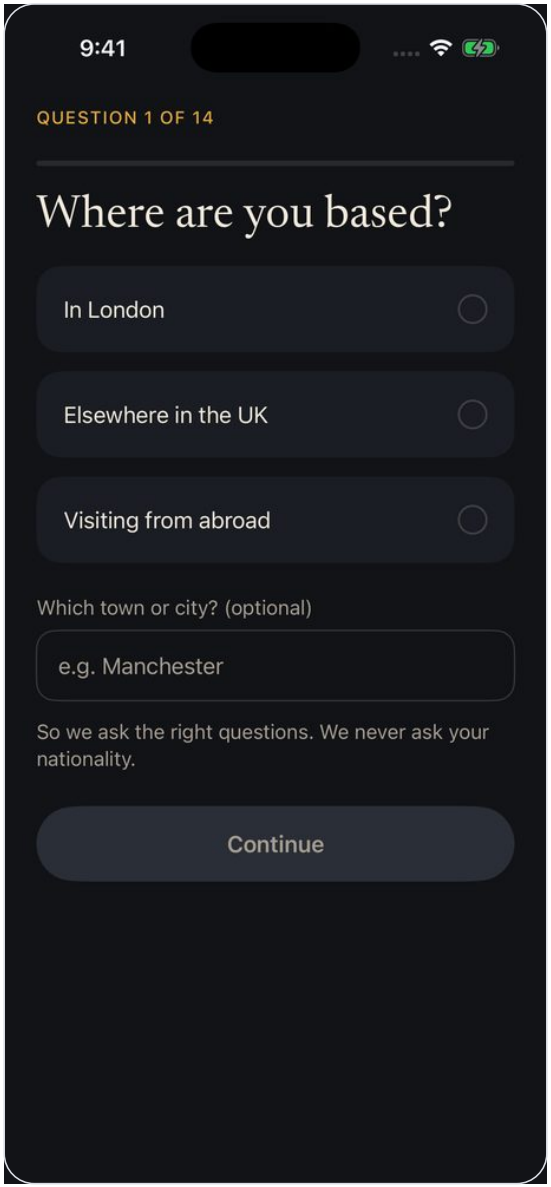

2c A hello from Abram

A 20–30 s video, bundled in the app, with captions. Skip, or Continue when it ends. (Placeholder until it's recorded.)

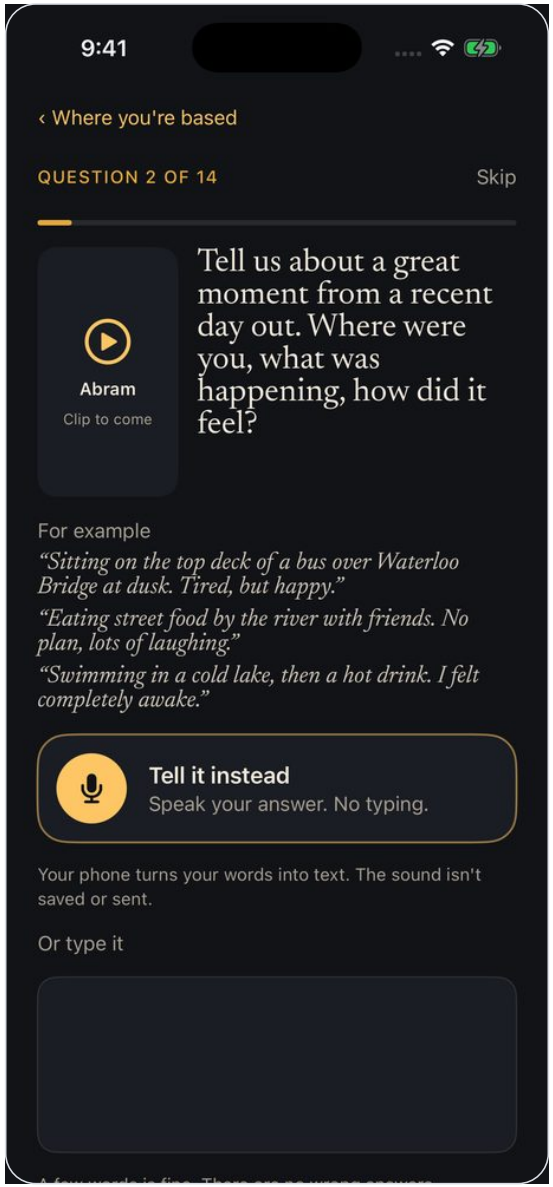

3 Before we start

A short summary, the two required choices in a box, and the details folded away.

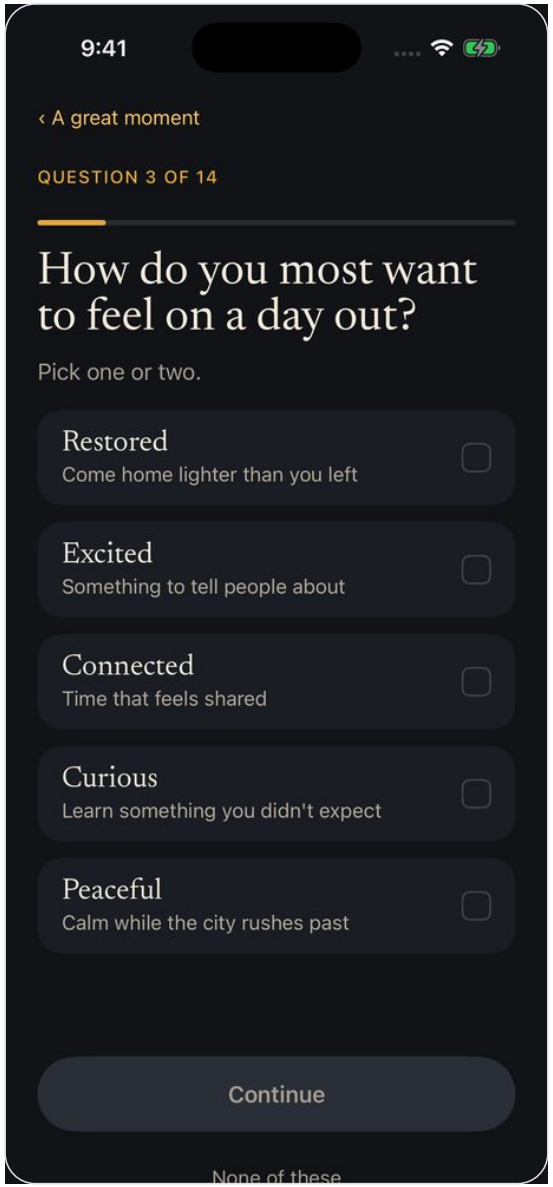

3b Where you're based

London, elsewhere in the UK, or visiting from abroad, and a town or city if they like. Never nationality.

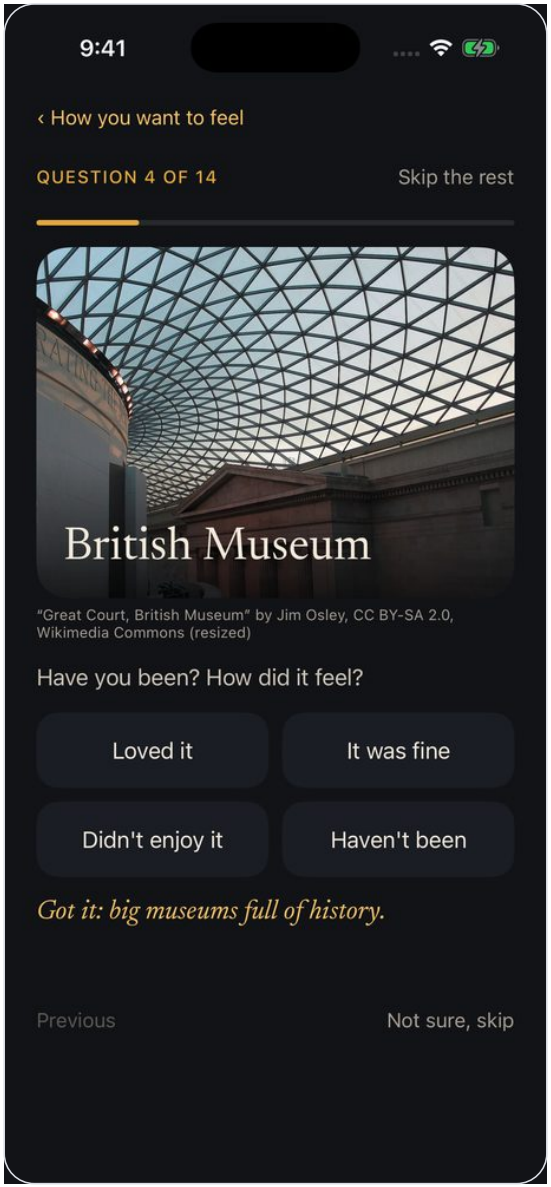

4 A great moment

Abram asks it in a small video tile (placeholder until recorded). "Tell it instead" to speak, or type, or skip.

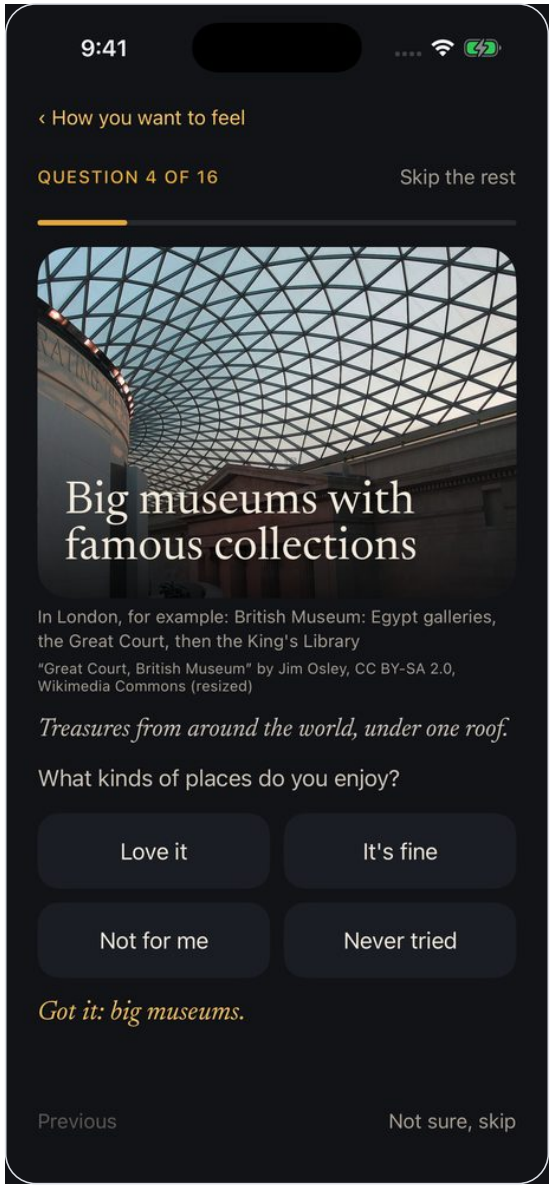

5 How you want to feel

Restored, excited, connected, curious or peaceful: pick one or two. "None of these" is a quiet link.

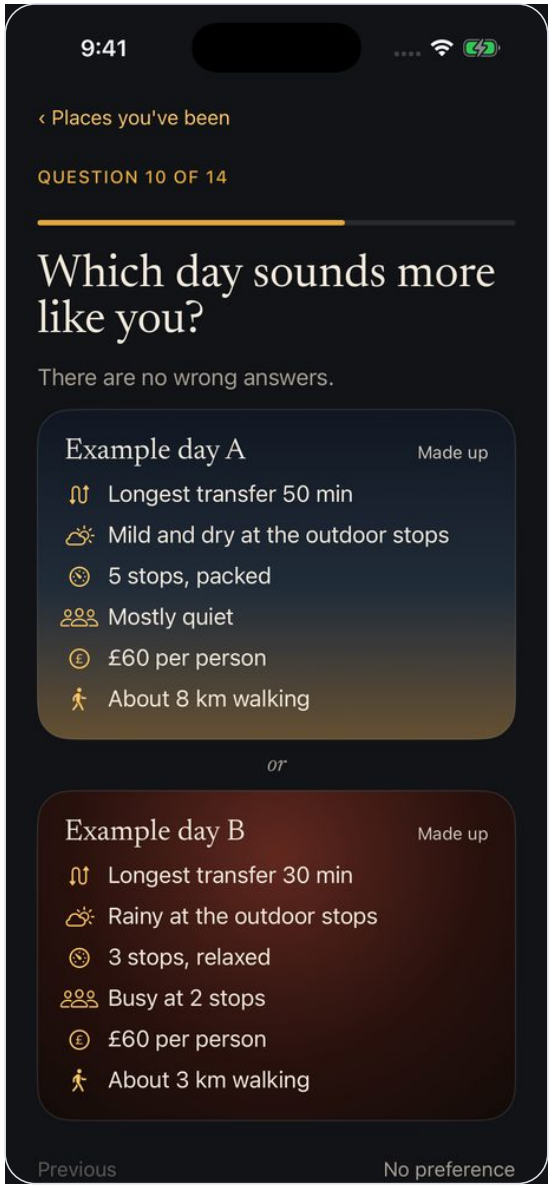

6 Places you've been

6 London places, one at a time, with a photo. A short line reacts to the answer ("Got it: …"), only from what was answered.

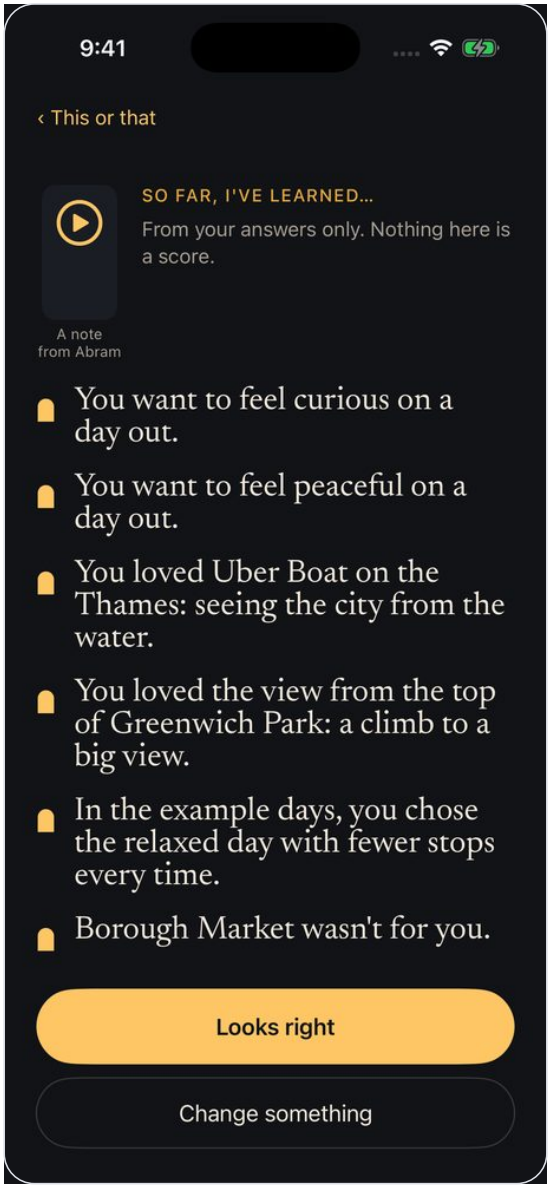

6b Kinds of places (visitors)

Visitors from abroad only, instead of 6: 8 kinds of places with a London example. "Never tried" asks if they'd like to.

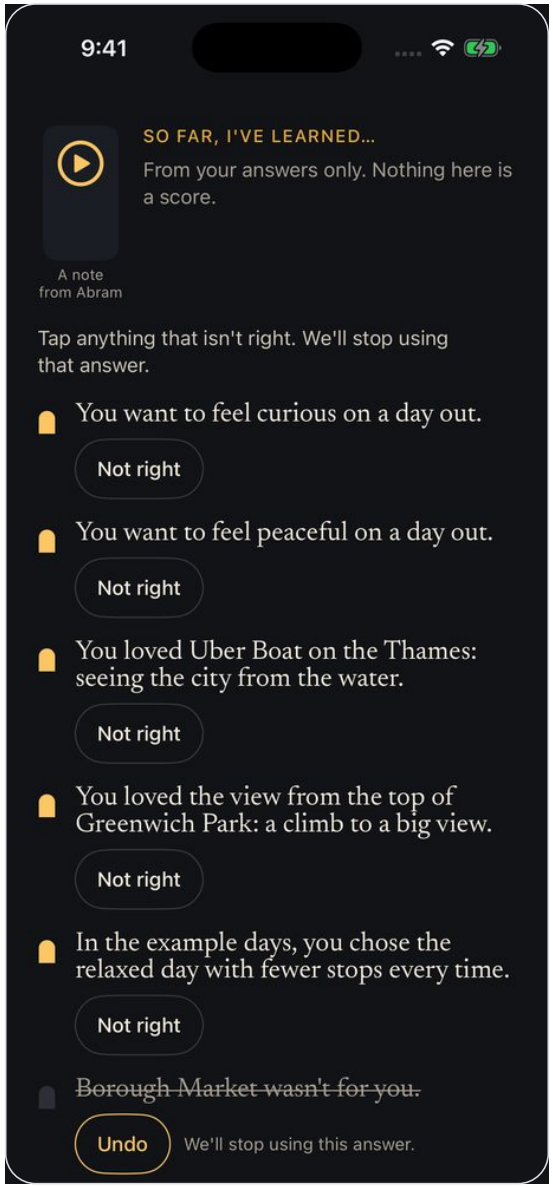

7 This or that

"There are no wrong answers." Two made-up days with all six details: pick one, or "No preference".

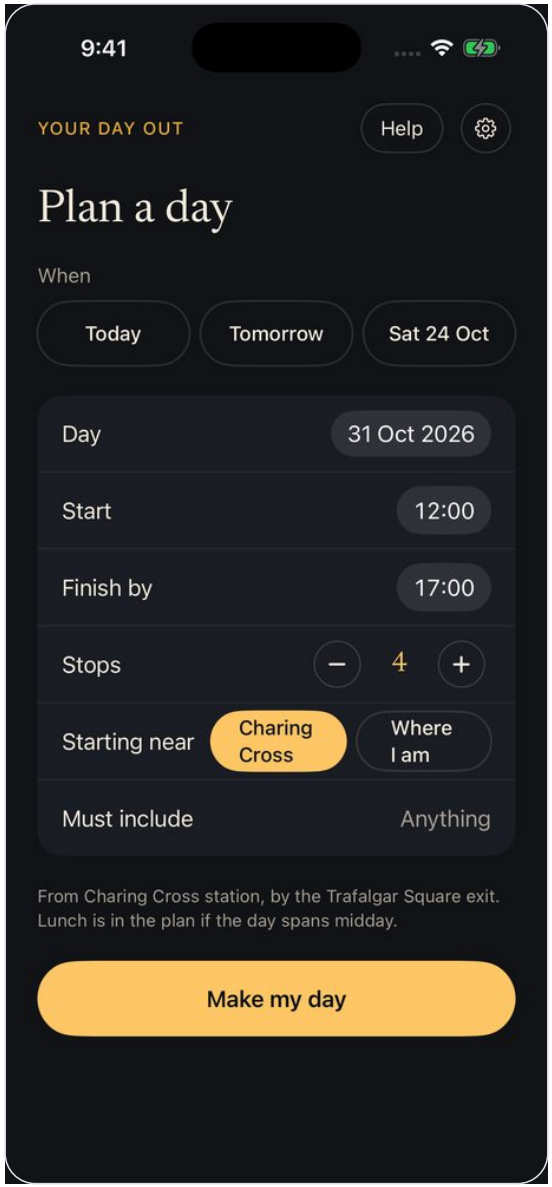

7b So far, I've learned…

Your own answers in plain words, no scores, with a small note from Abram. Looks right, or Change something.

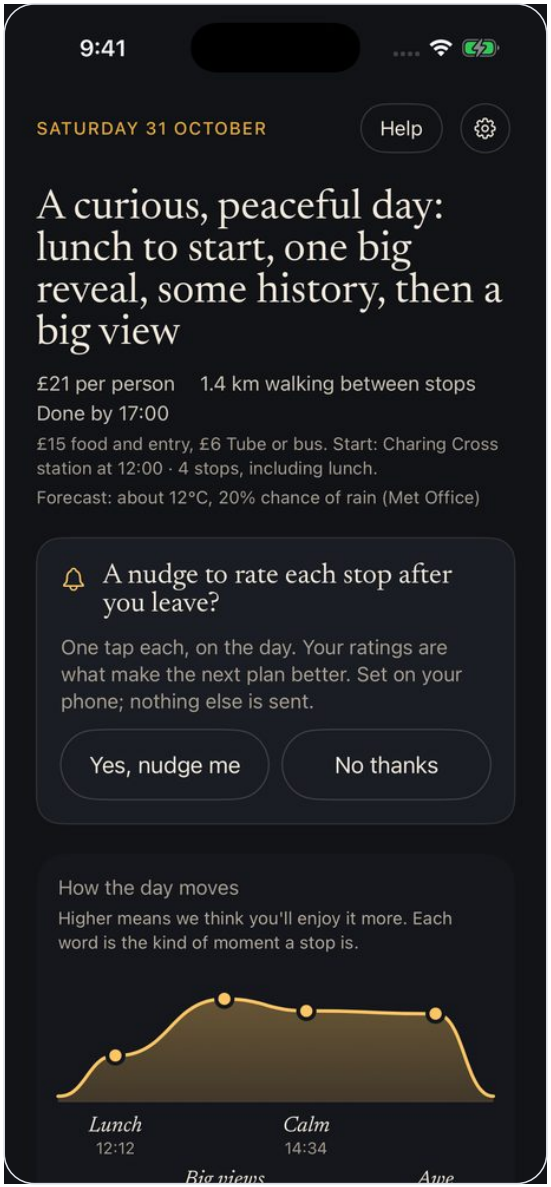

7c So far: changing something

"Not right" on any line (Undo to take it back). It's stored, and that answer stops counting.

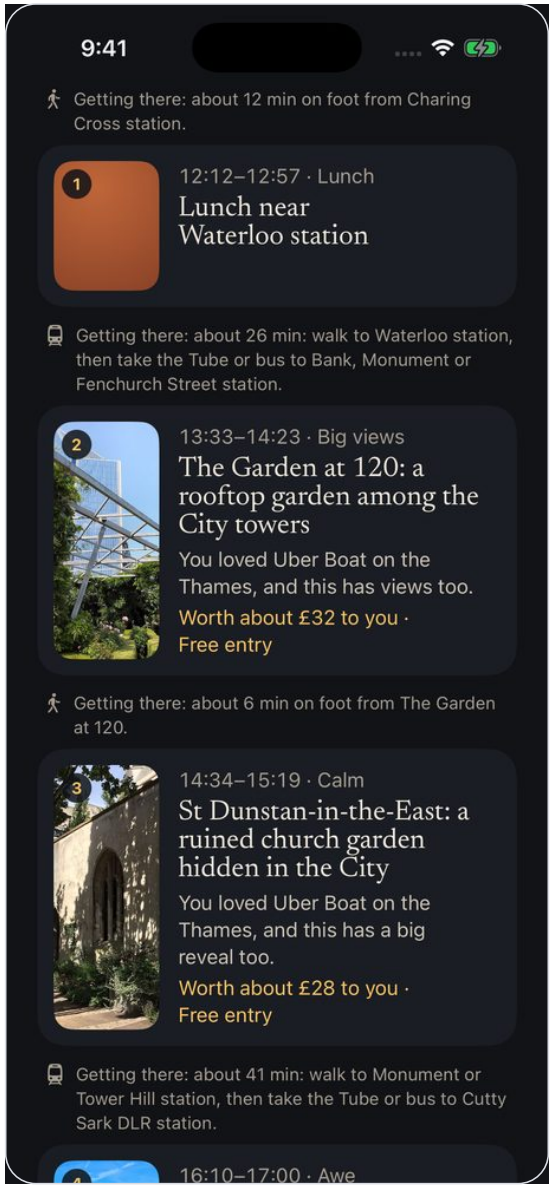

8 Plan a day

Next Saturday, 12:00–17:00, already filled in, or Today / Tomorrow. One tap makes the plan.

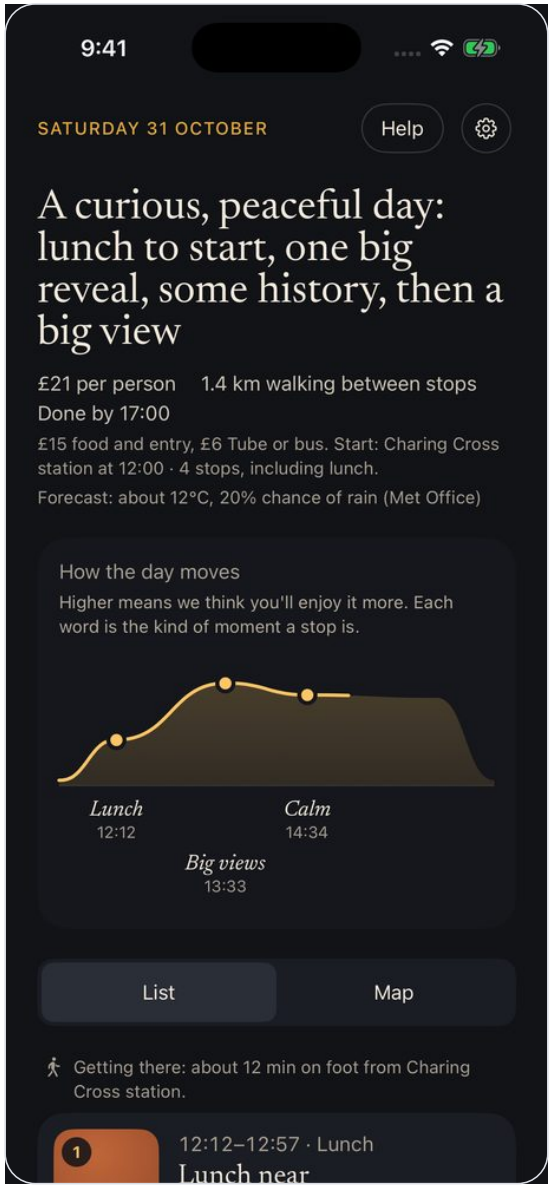

9a Your day

How the day should feel, the numbers, and "How the day moves": a word for each stop, higher where we think you'll enjoy it more.

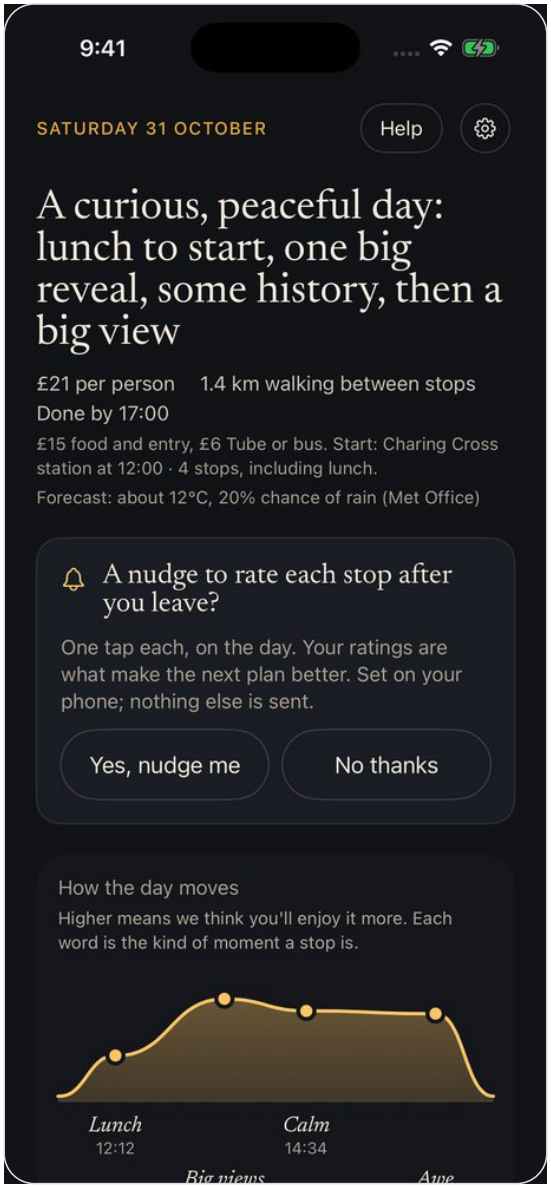

9b Your day: the stops

Further down: each stop with its photo, time, reason and worth to you, then "Start the day".

9c Your day: the reveal, part-way

Instead of a spinner: the headline settles, the curve draws and each stop appears (2.6 s, once).

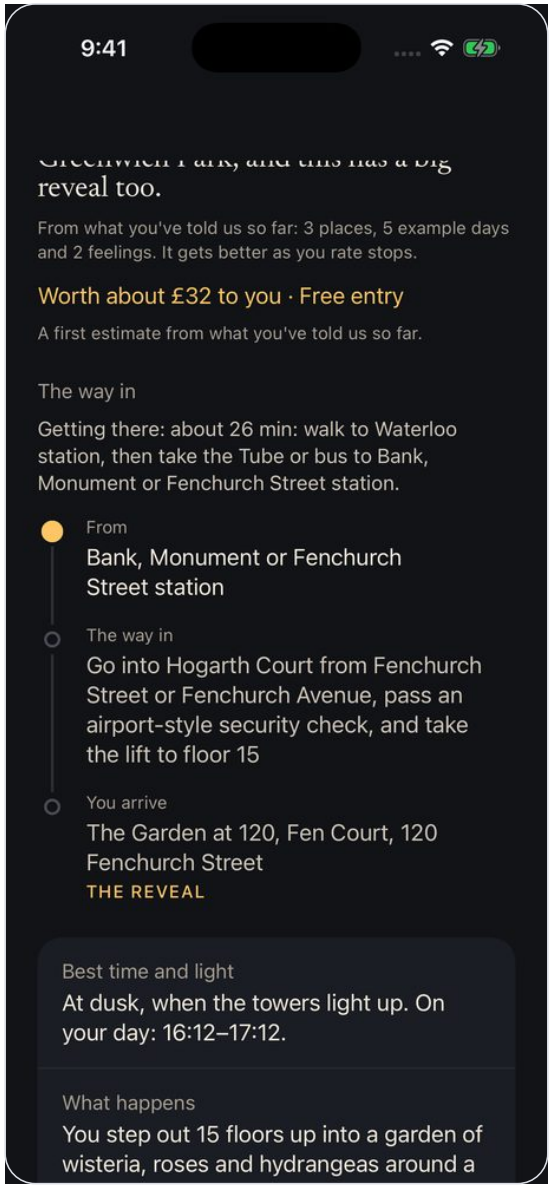

9d Your day, on the map

The same plan on a real map, with numbered pins.

10 A stop

The photo full-bleed, with the time, the kind of moment and the title; why we picked it and its worth to you.

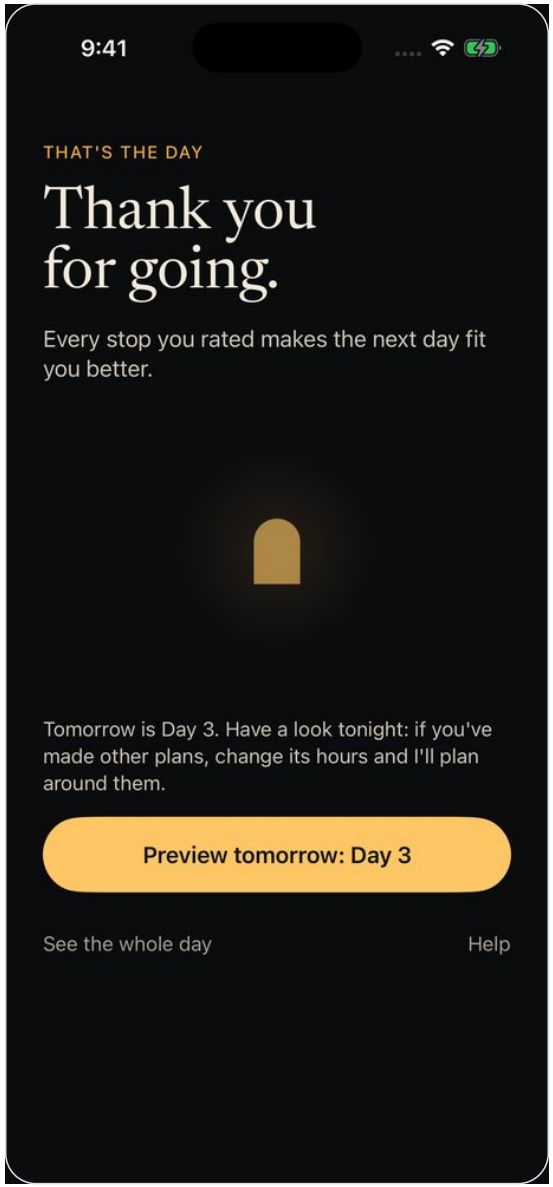

10a A stop: the way in

Further down: the way in as a path you can tap along, "The reveal" where the arrival is the moment, then the details.

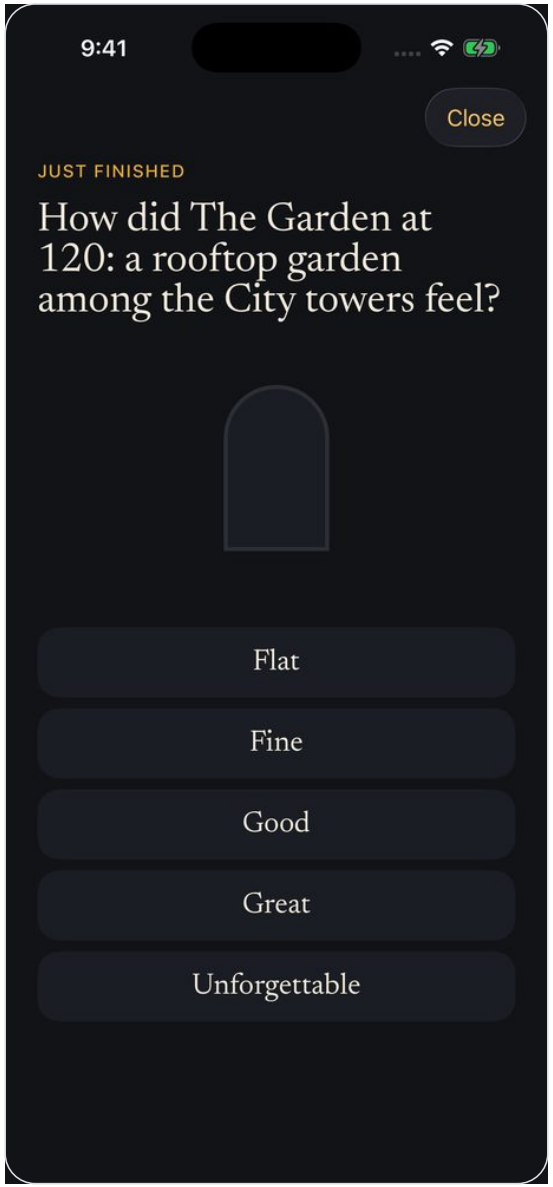

10b Now (new)

While you're out: the stop you're at, "I'll stay quiet until you need me", what's next, and "I'm done here".

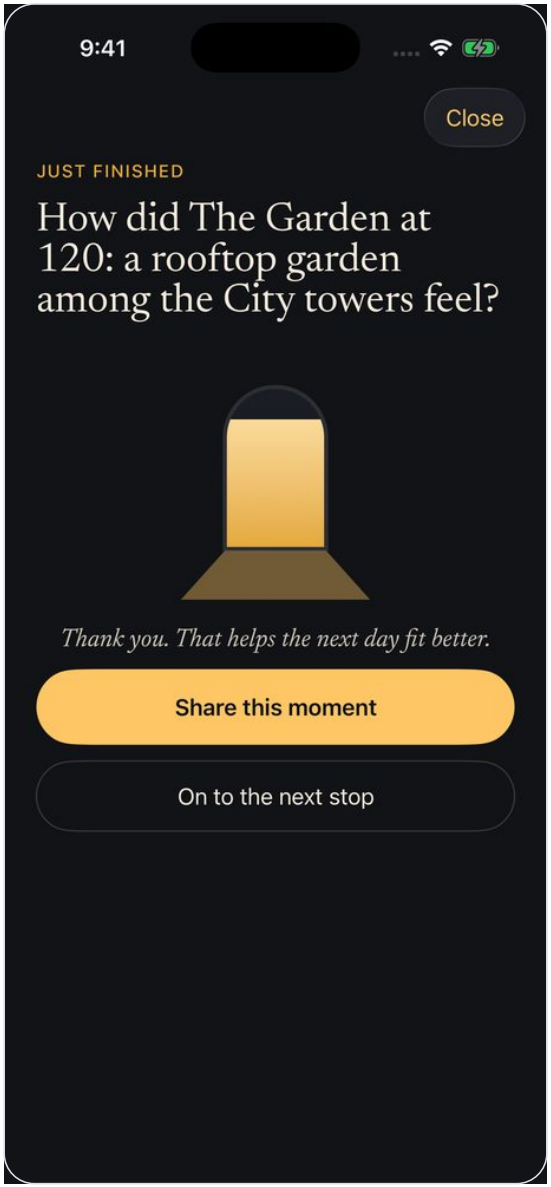

10c Now: the day done (new)

On a trip, after the last stop: "Preview tomorrow: Day 3", which opens tomorrow's page to look at tonight and change if plans have changed.

11 Rating

After the visit: Flat, Fine, Good, Great or Unforgettable. The arch fills with light to the word.

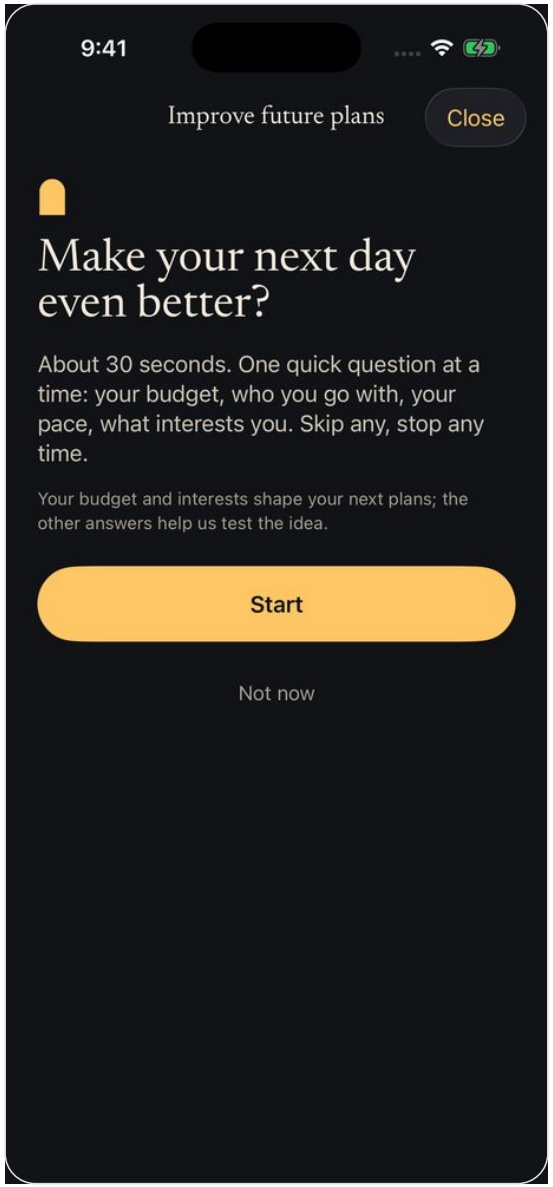

11a Rating: thank you

After saving: a thank-you, "Share this moment" and "On to the next stop".

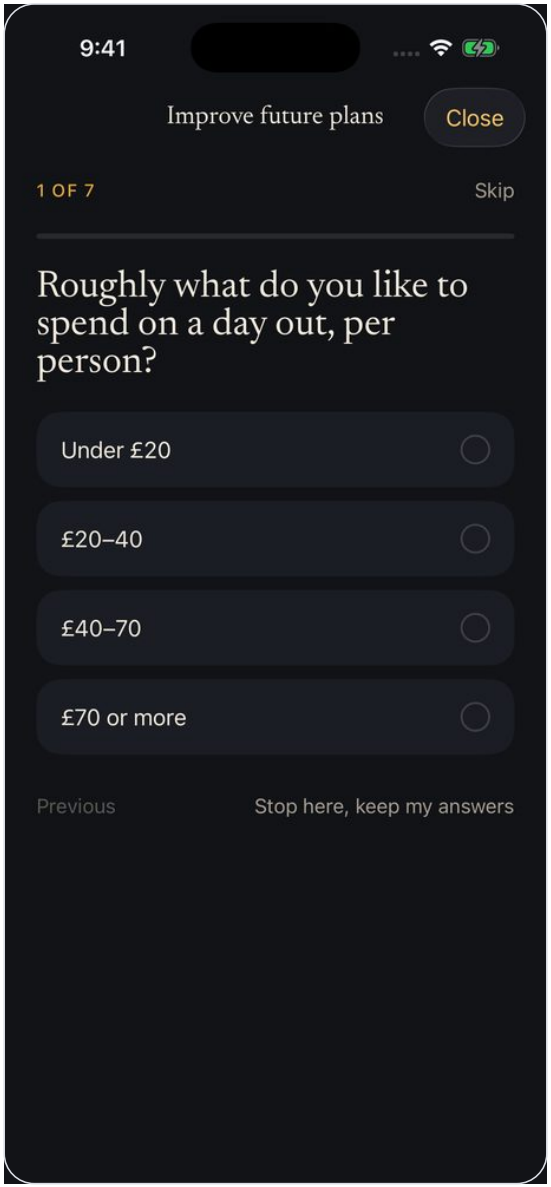

11b Share card

Your own rating and your own words, the photo, "Planned with ODYS". Never what we estimated it's worth. No rewards.

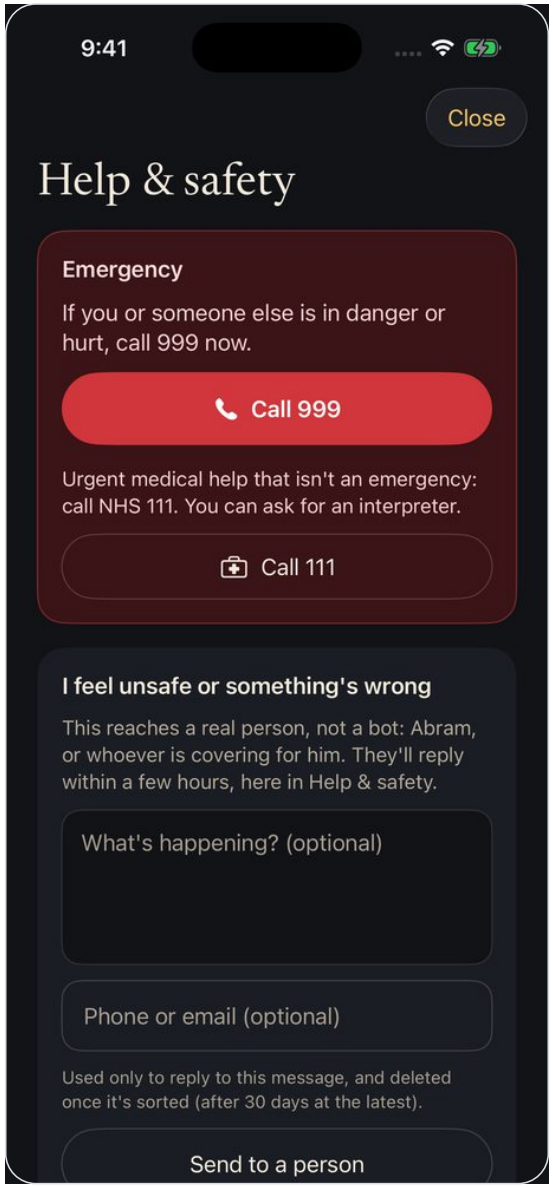

12a Improve future plans

"Make your next day even better?" Offered once a stop is rated; before that, a quiet link.

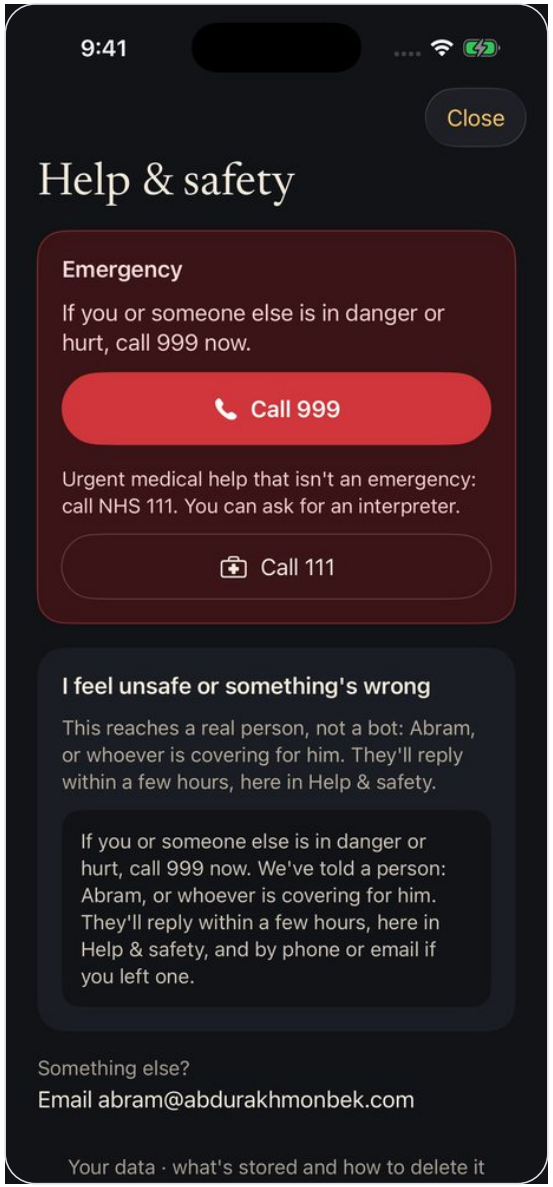

12b One question at a time

Tap an answer and the next question comes. Skip any, stop any time.

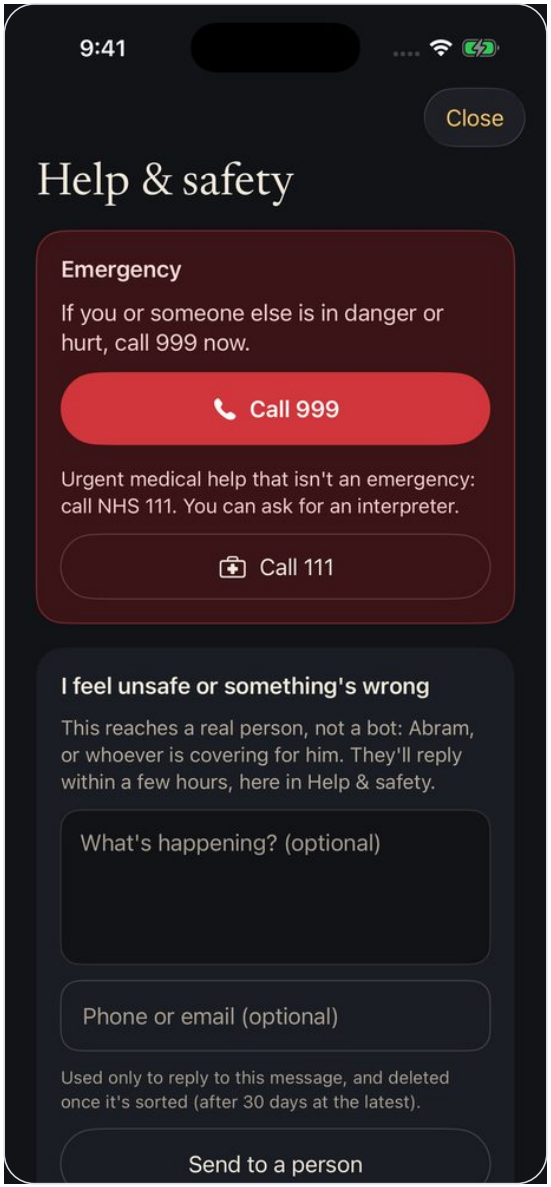

13a Help & safety

Emergency: call 999, kept separate from "I feel unsafe or something's wrong", which reaches a person.

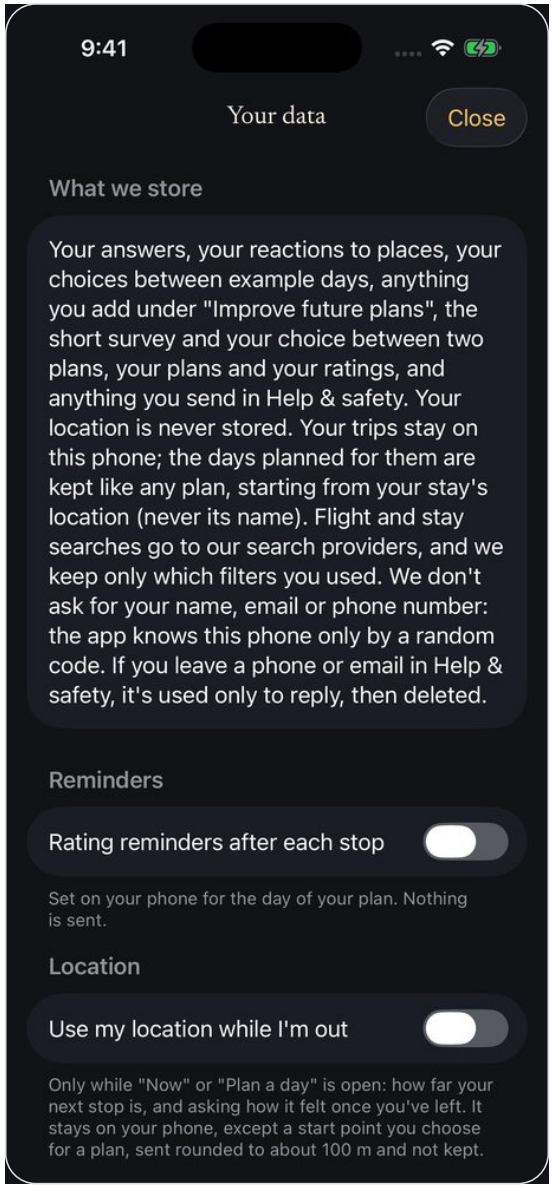

13b Help & safety: just sent

The automatic answer: 999 first, then who replies (Abram, or whoever covers) and that it's within a few hours.

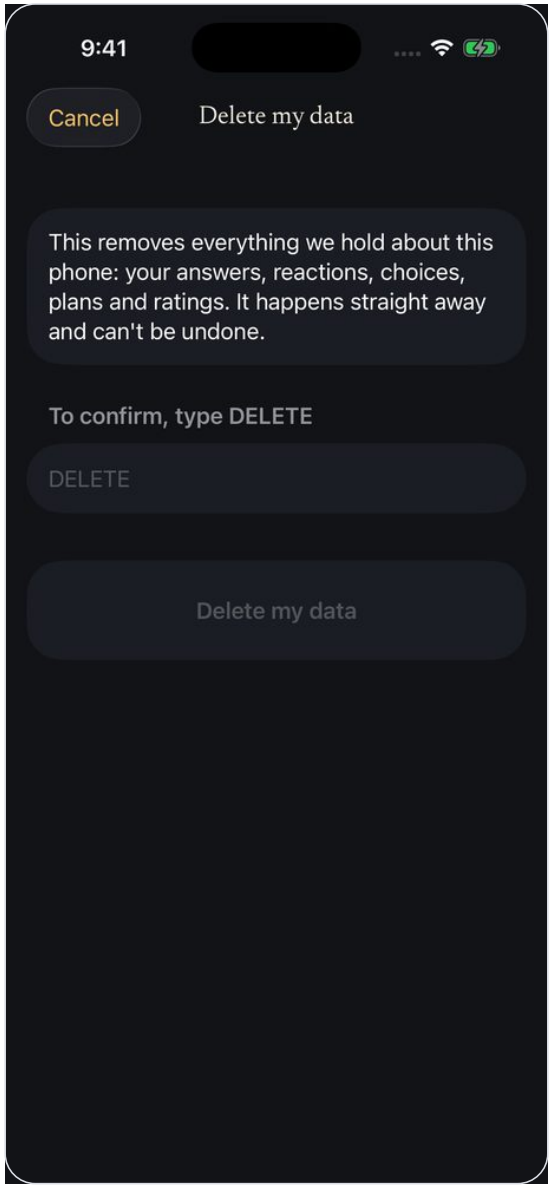

13c Help & safety: a reply

The reply shows here, under your message, and Help gets a dot. Replies come within a few hours.

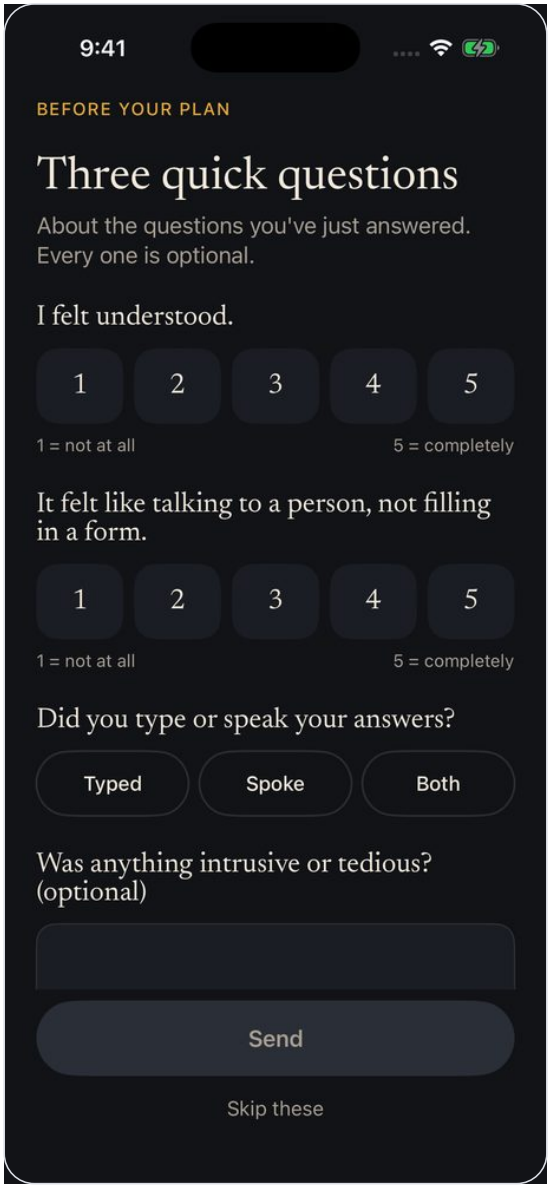

14a Your data

What's stored, where and for how long; rating reminders on or off.

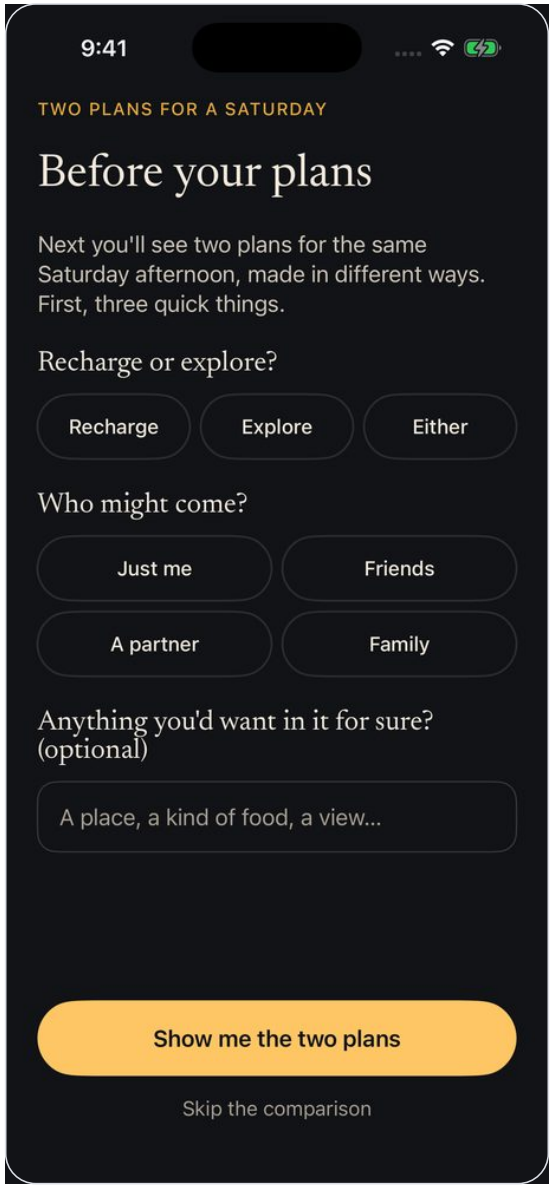

14b Delete my data

Type DELETE to confirm. It can't be undone.

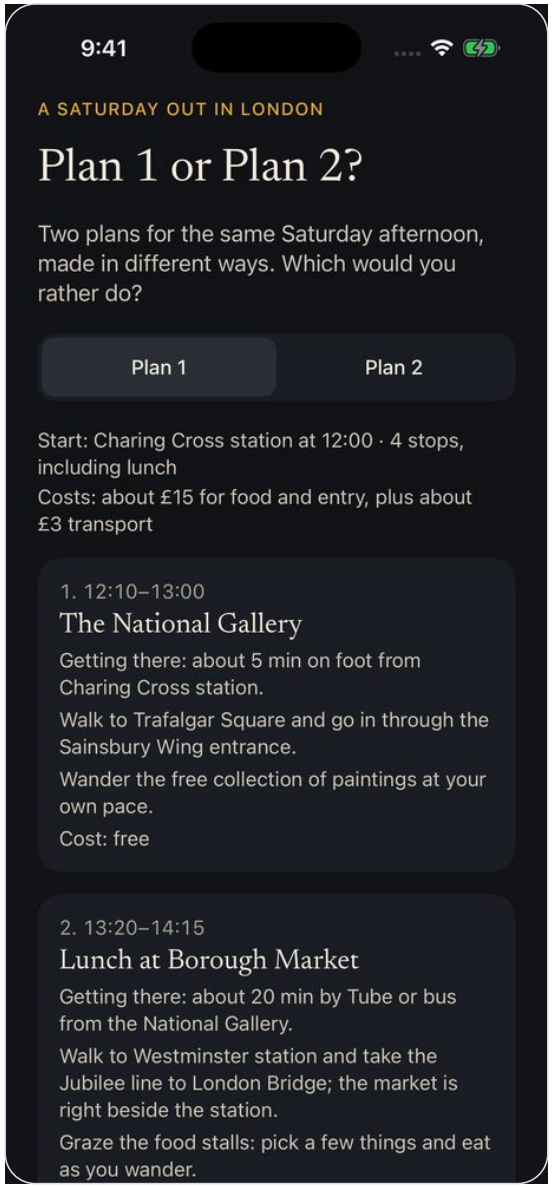

15 Three quick questions

After "So far": I felt understood, it felt like talking to a person, typed or spoke, anything intrusive. All optional.

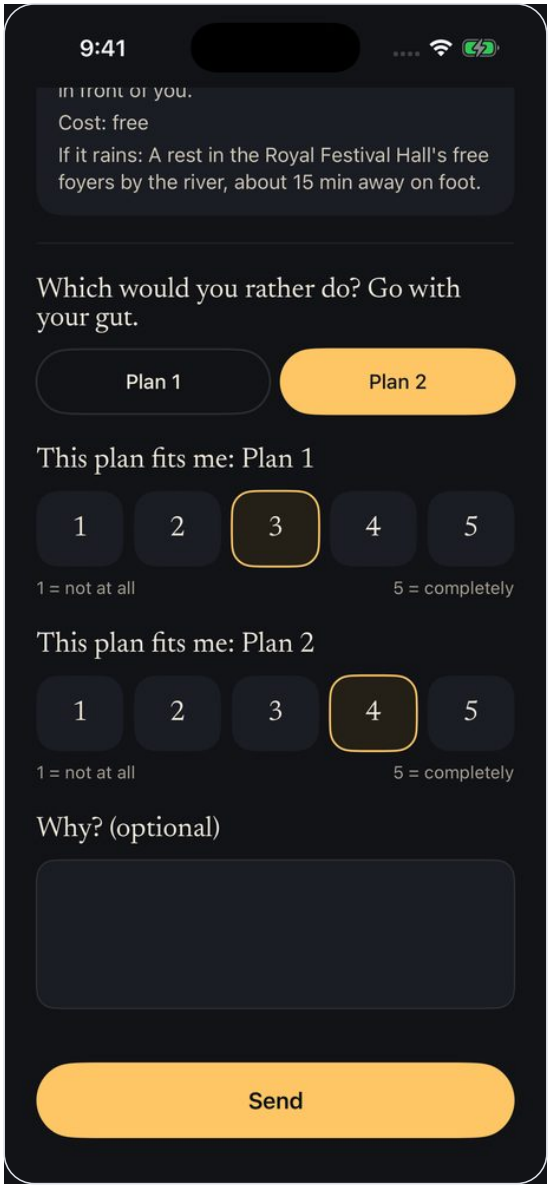

16 Before your plans

Recharge or explore, who might come, anything for sure. Stored with both plans; it changes neither.

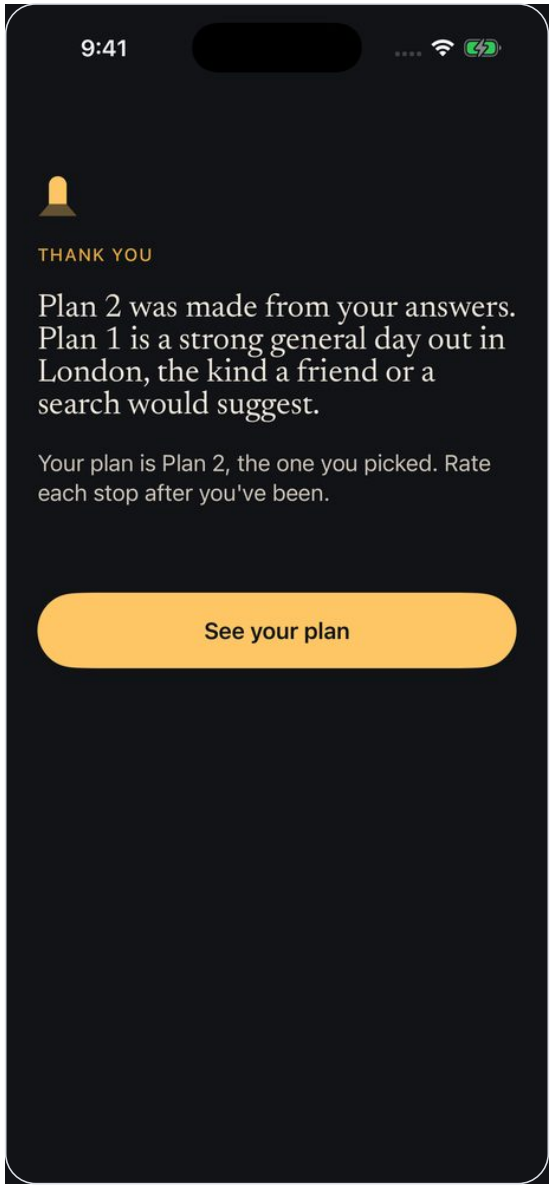

17a Plan 1 or Plan 2?

Two plans for the same Saturday in the same text format: no photos, map or reasons, so nothing gives one away.

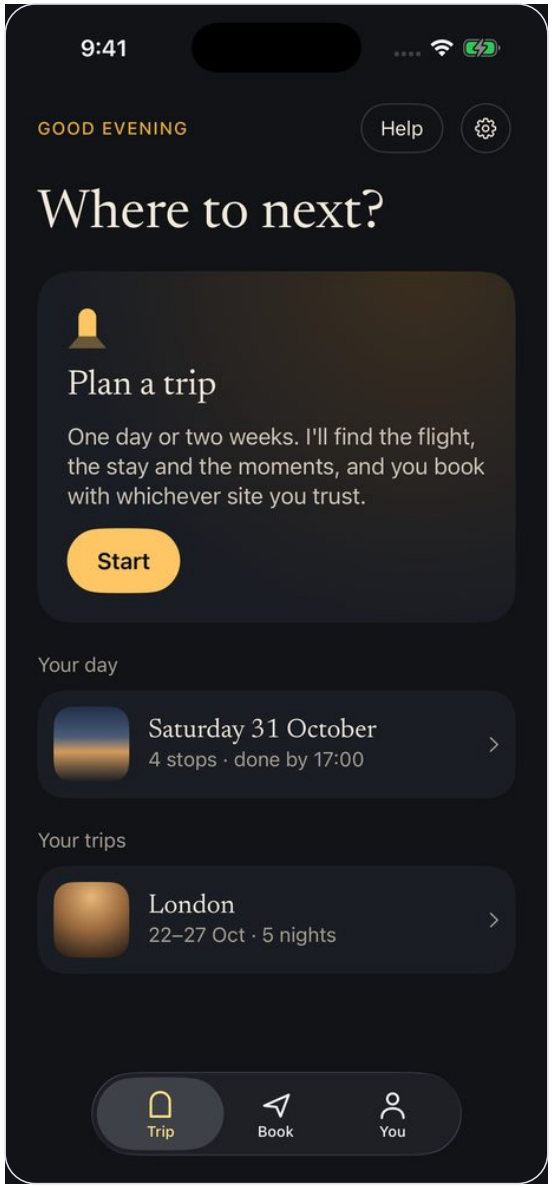

17b Plan 1 or Plan 2: choosing

After reading both: which you'd rather do (a gut choice), "This plan fits me" for each, and why.

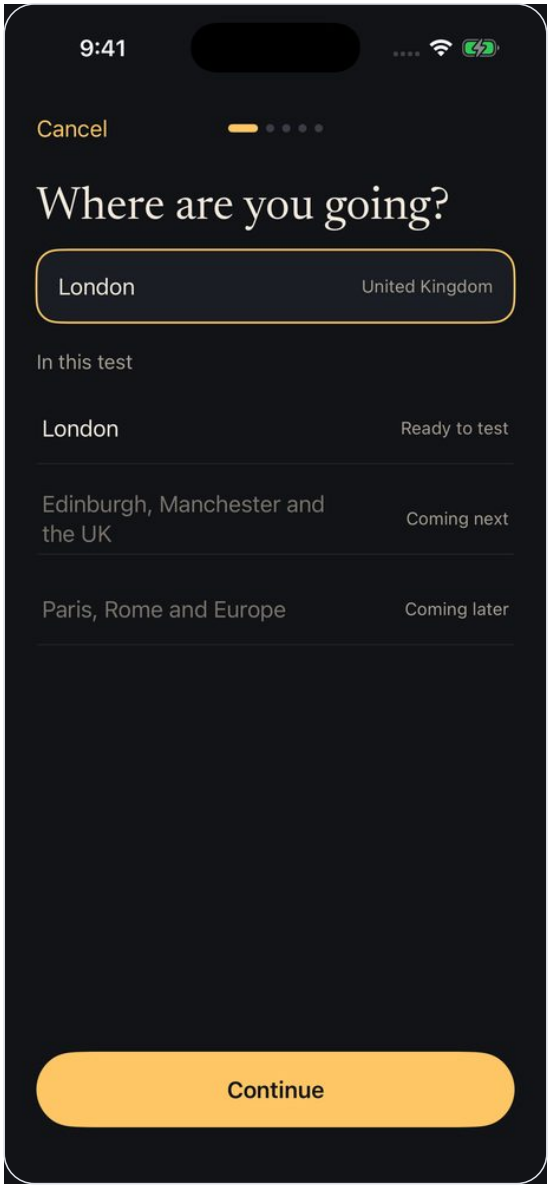

18 Which was yours

Which plan was made from your answers. The one you chose becomes your day, rated stop by stop.

19 Where to next?

Plan a trip, your day and your trips; three tabs: Trip, Book and You.

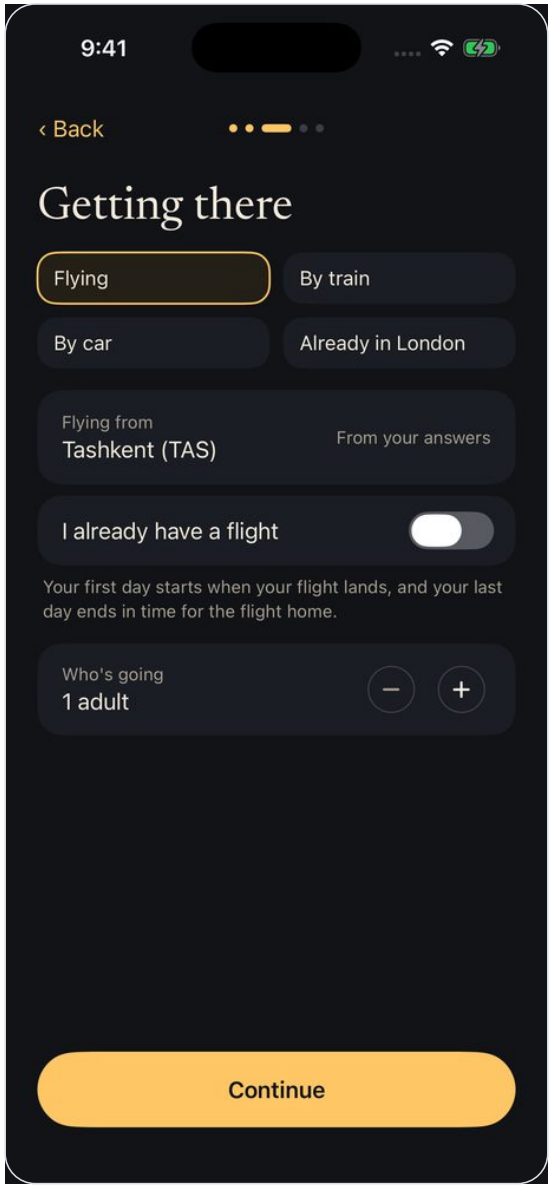

20 Where are you going?

London is ready; UK cities come next, then Europe.

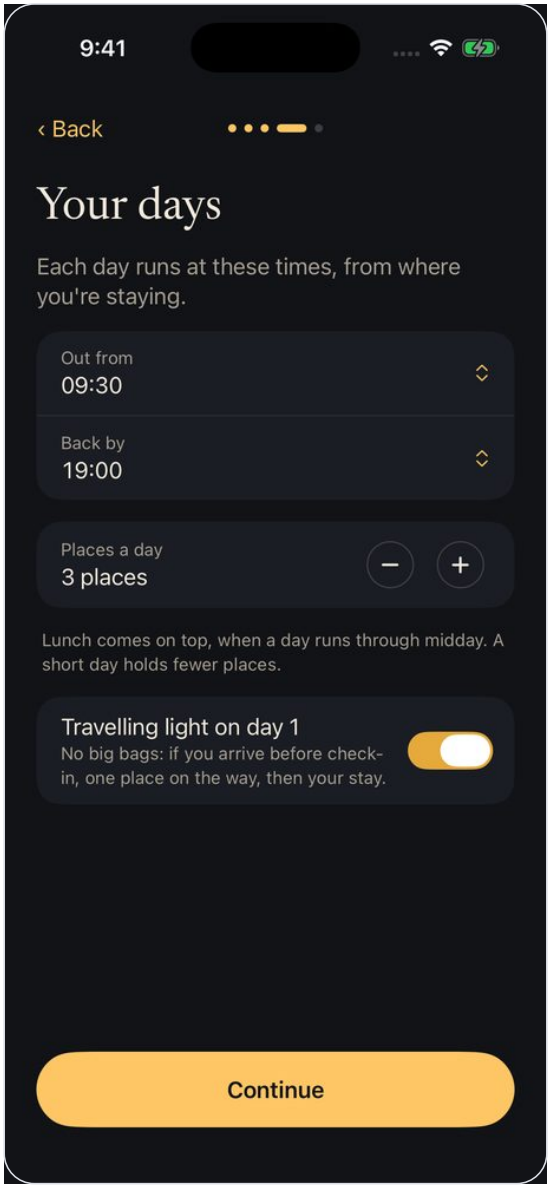

21 When are you going? (new)

A calendar, as in the booking apps: the first tap is the first day, a later tap the last day, the same day twice a day out. Up to 30 nights.

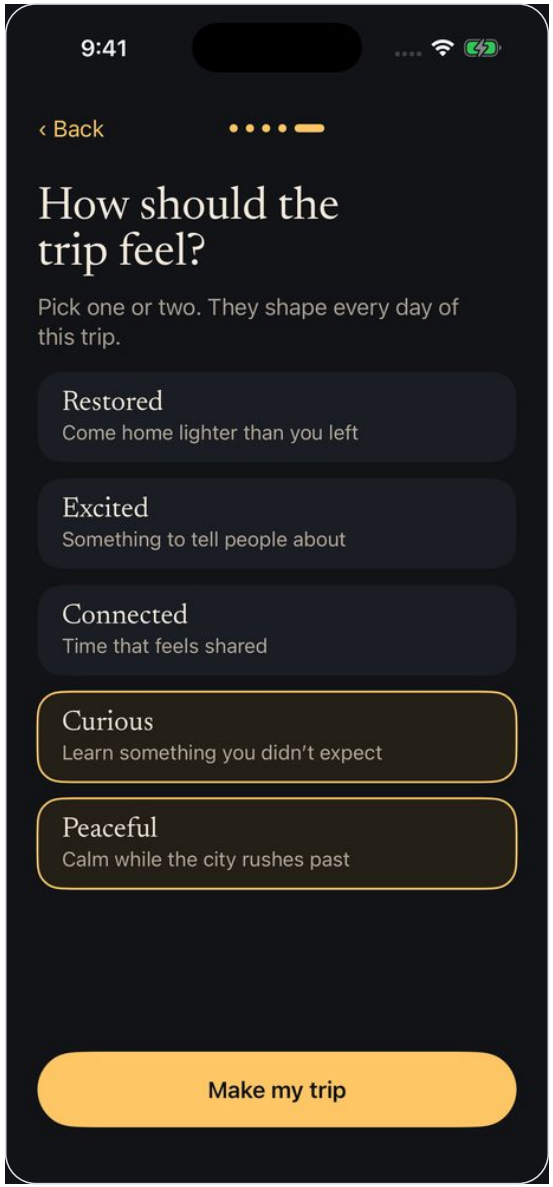

22 Getting there

Flying, by train, by car or already in London (D122); the airport from the town or city you gave (never nationality), and who's going.

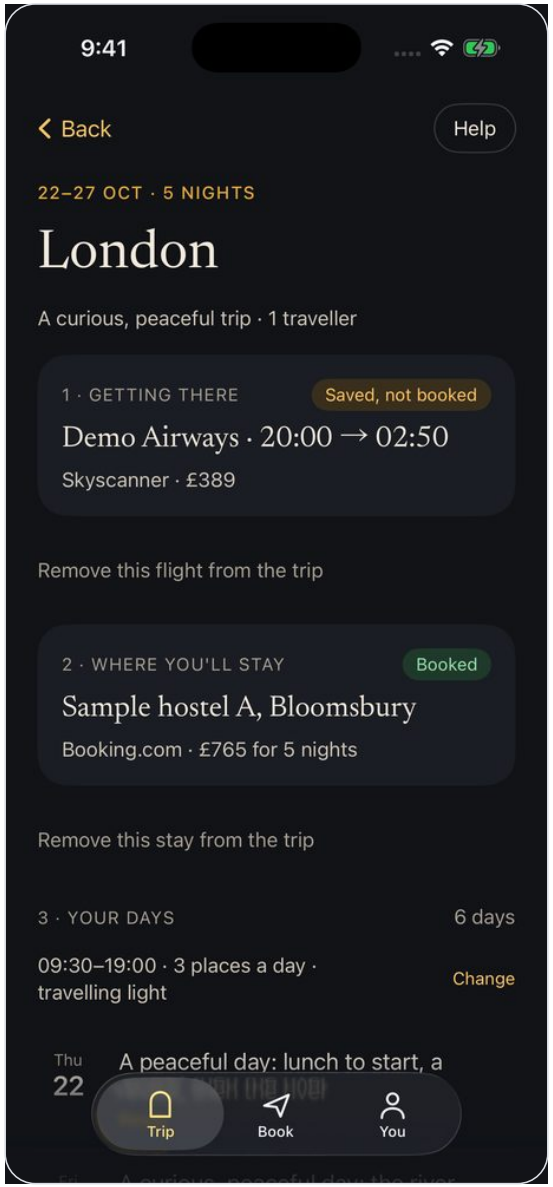

22a Your days

D122: out from and back by, places a day (lunch on top), and travelling light on day 1.

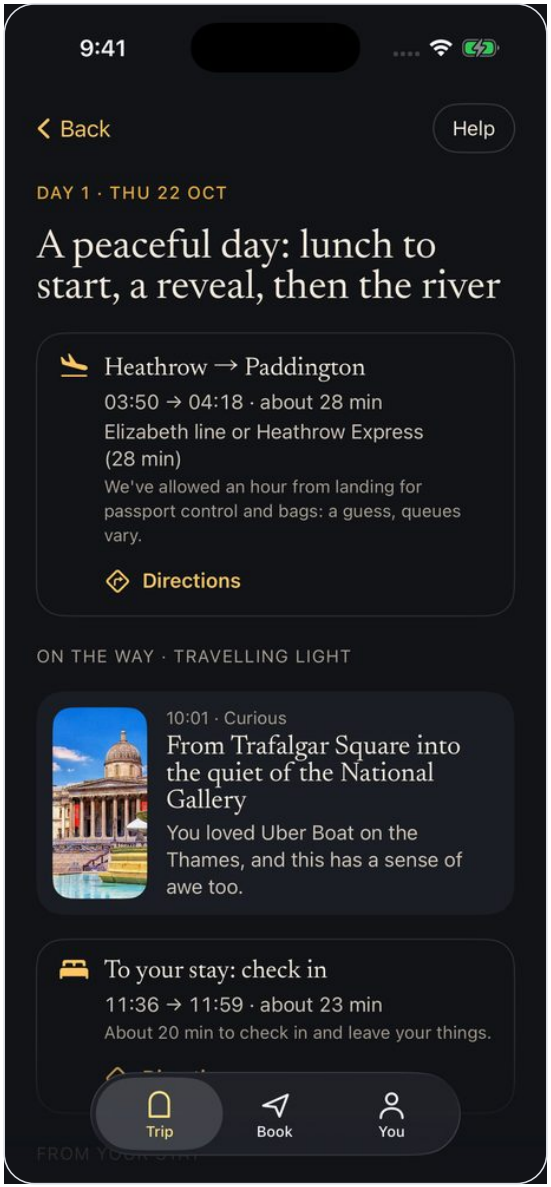

23 How should the trip feel?

One or two feelings; they shape every day of this trip.

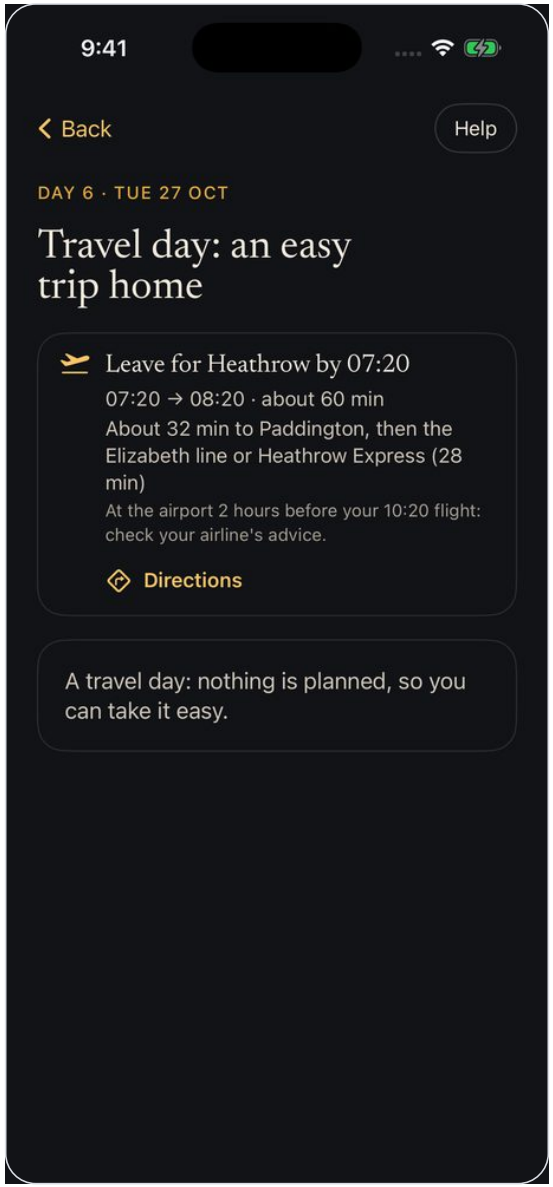

24 The trip

A checklist in the order you'd do it, each with its status, then your days and a running total of real numbers only.

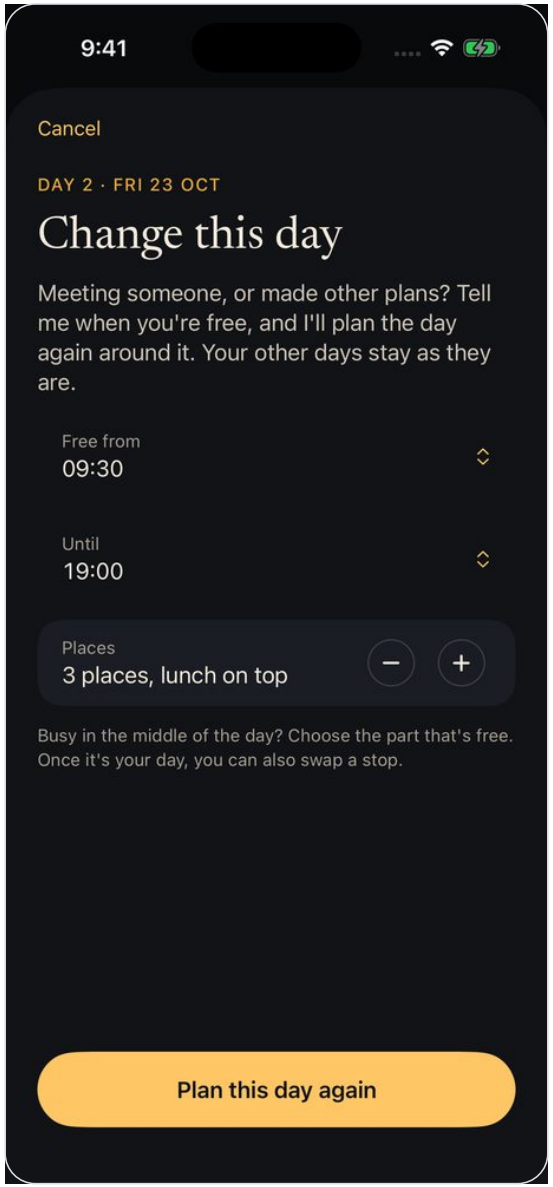

25 The first day

D122: from the airport ("Heathrow → Paddington", with Directions), one place on the way when travelling light, the stay, then the day. No moment twice in a trip.

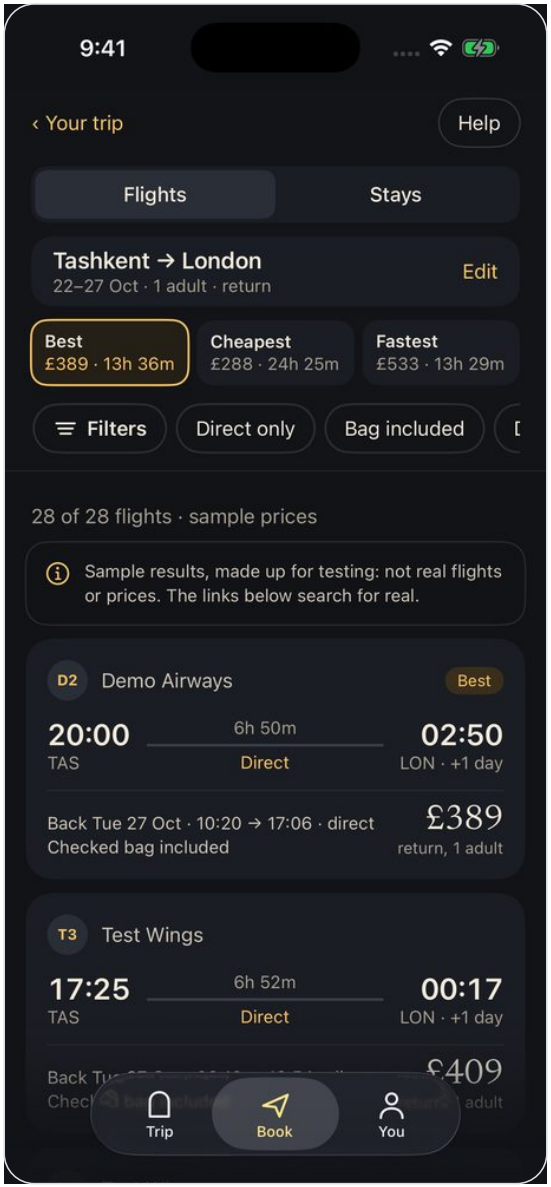

25a The last day

D122: the day, back to the stay for the bags, then "Leave for Heathrow by 17:20" with Directions in Apple Maps.

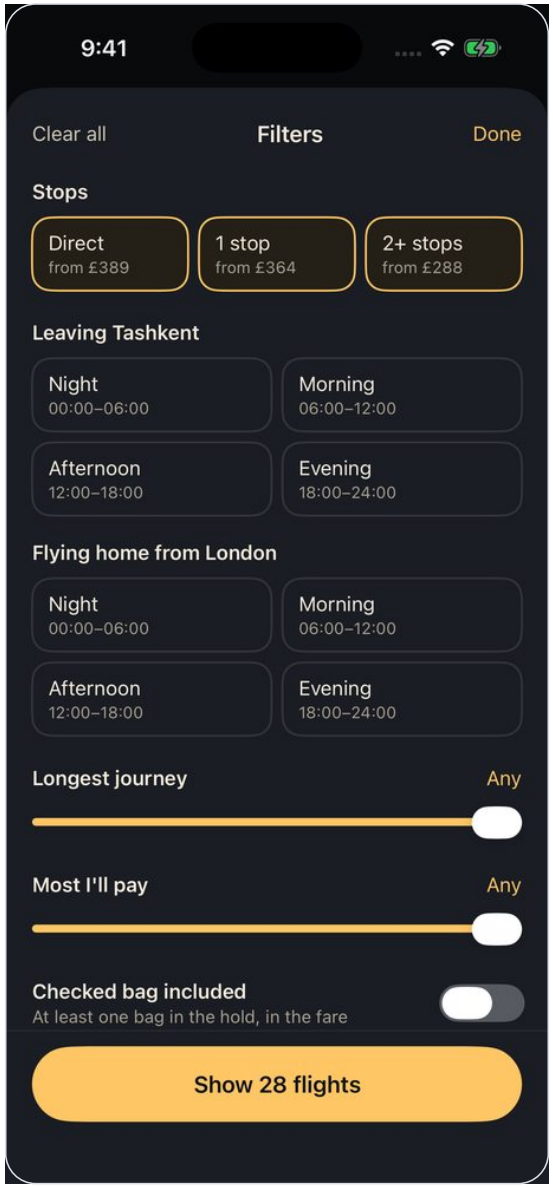

25b Change this day (new)

"Made other plans?" The hours they're free and their places, then the day planned again around them; the other days stay as they are.

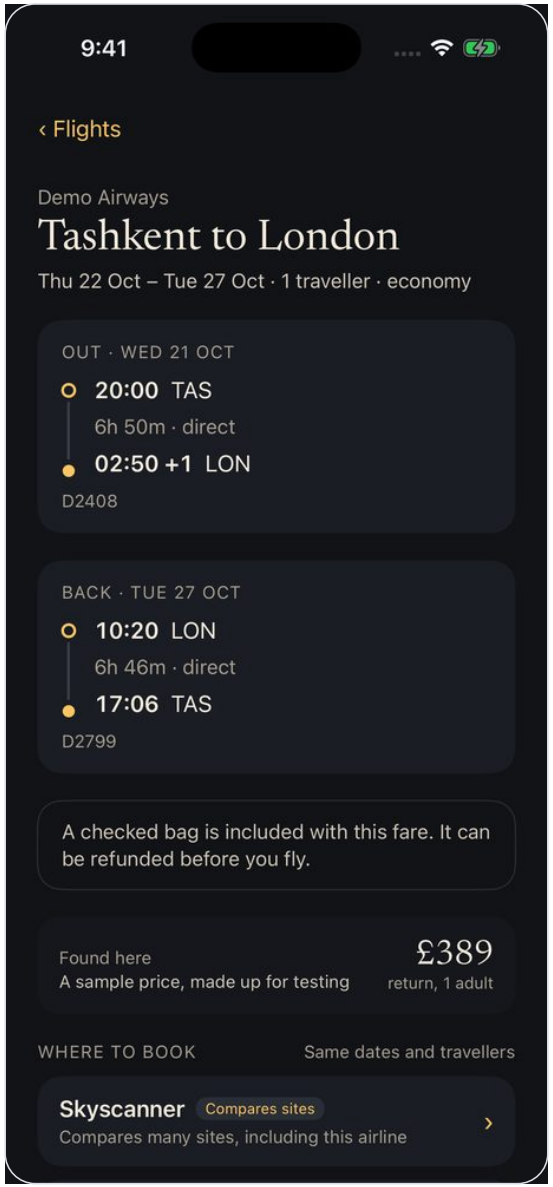

26 Flights

The search pinned at the top; Best, Cheapest and Fastest with their tops; one-tap chips. Sample prices until the keys are in.

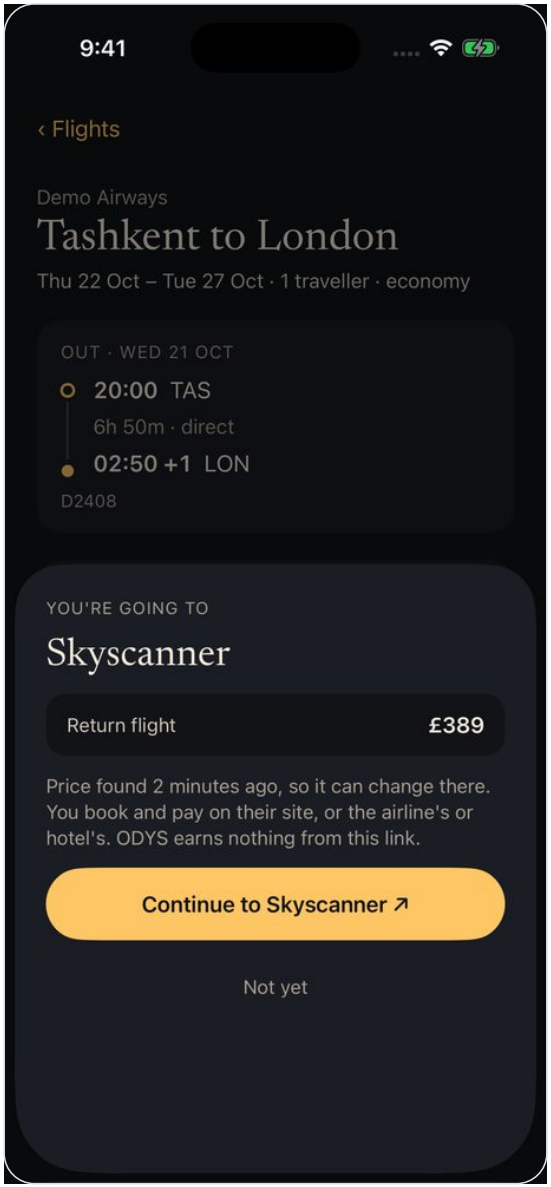

27 Flight filters

Stops, leaving times each way, longest journey, price, a checked bag and airlines, with a live "Show N flights".

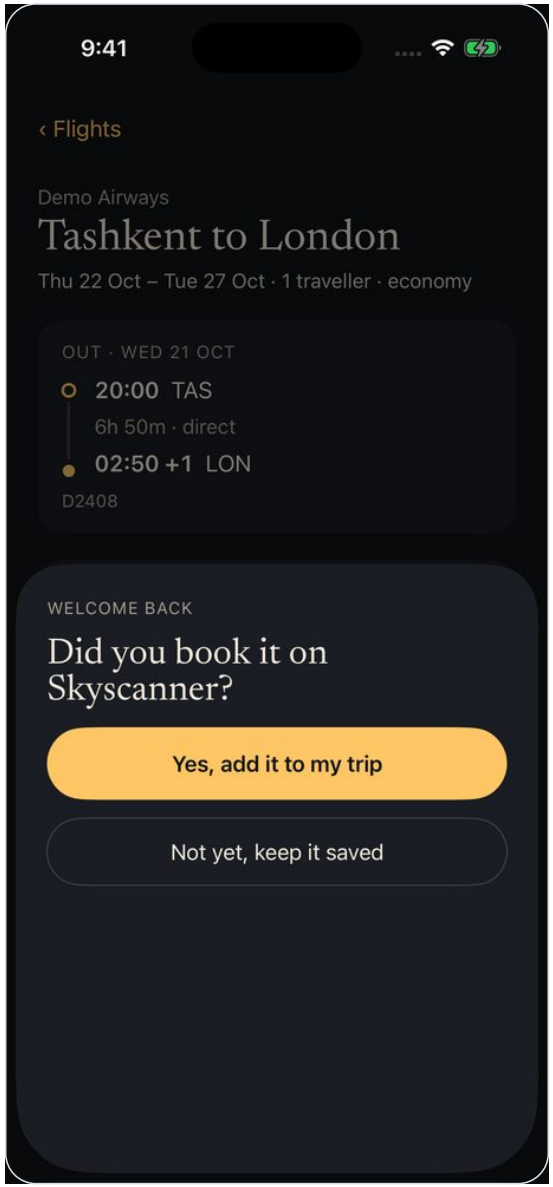

28 A flight: where to book

Both legs, the bags, the price found here and where to book. ODYS earns nothing from these links.

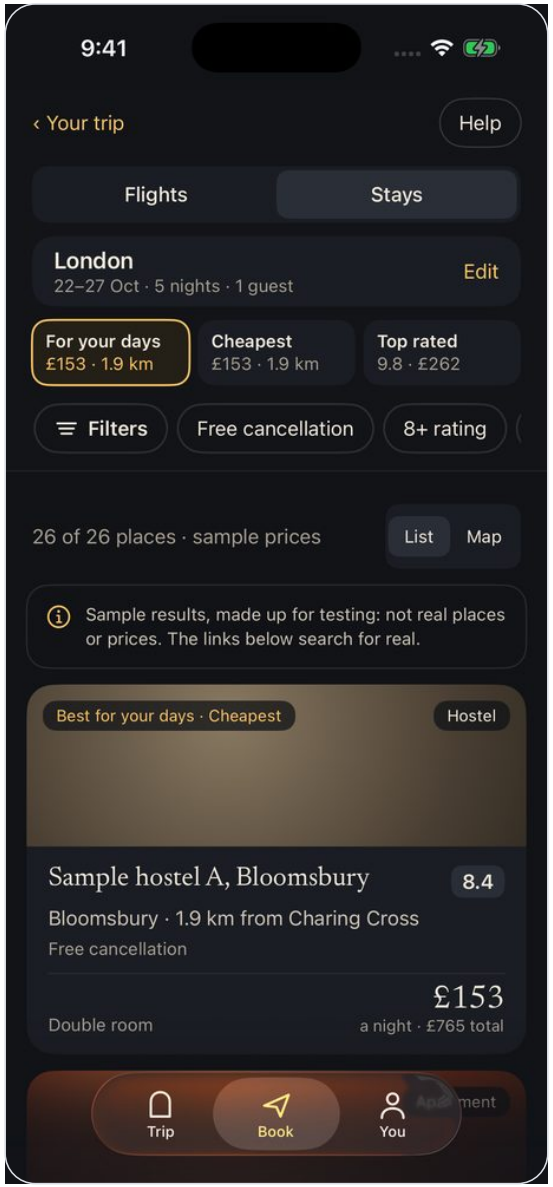

28a Going to a booking site

Where you're going, the price found and when, and that you pay them directly.

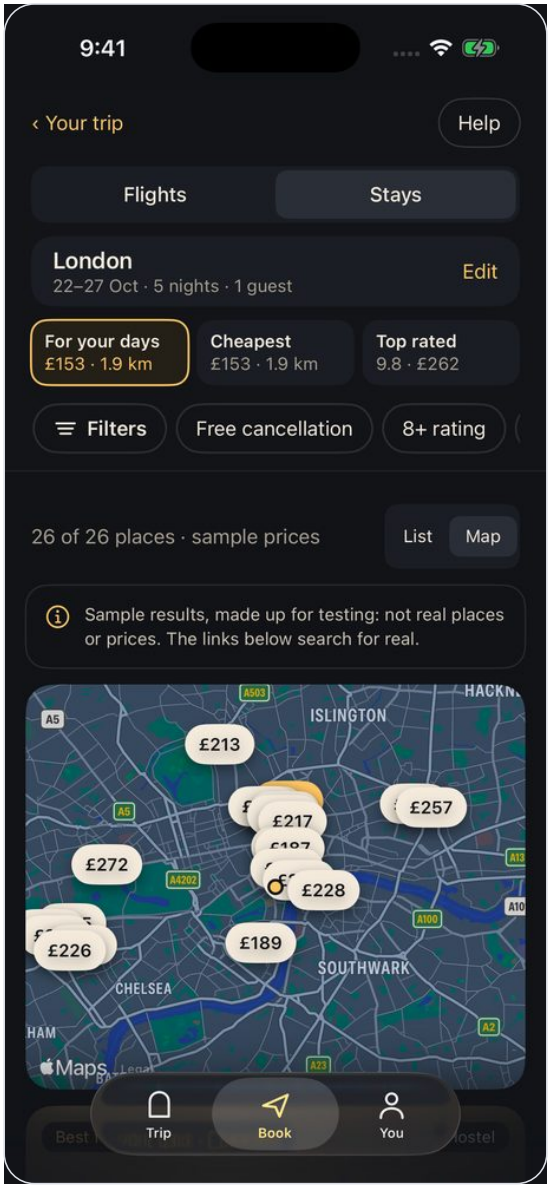

28b Back from the booking site

Did you book it? Yes adds it to the trip; Not yet keeps it saved.

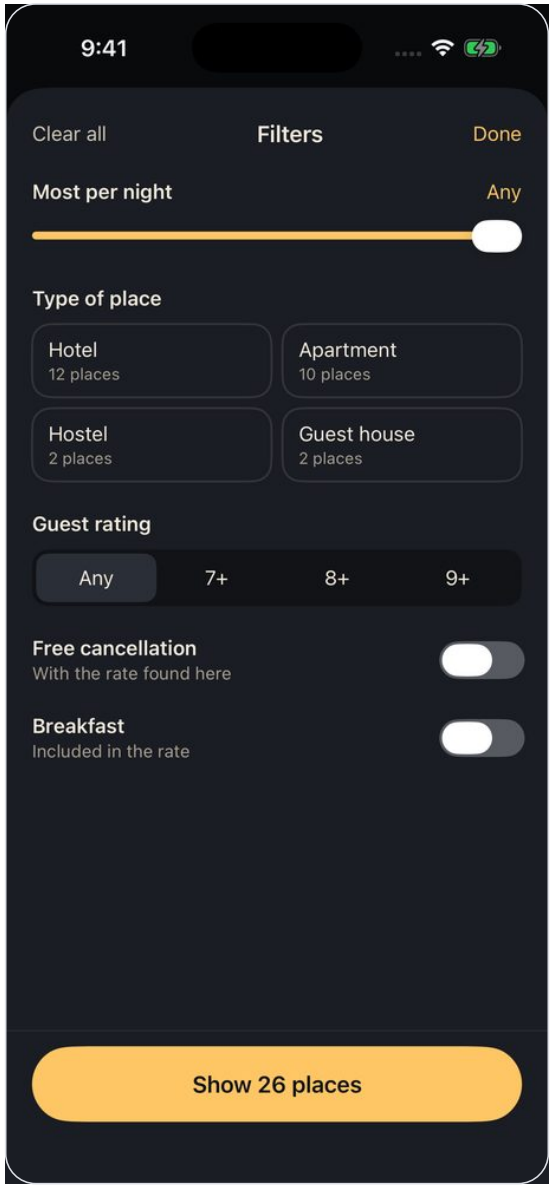

29 Places to stay

Hotels, flats and hostels: For your days, Cheapest, Top rated; distance from where your days start.

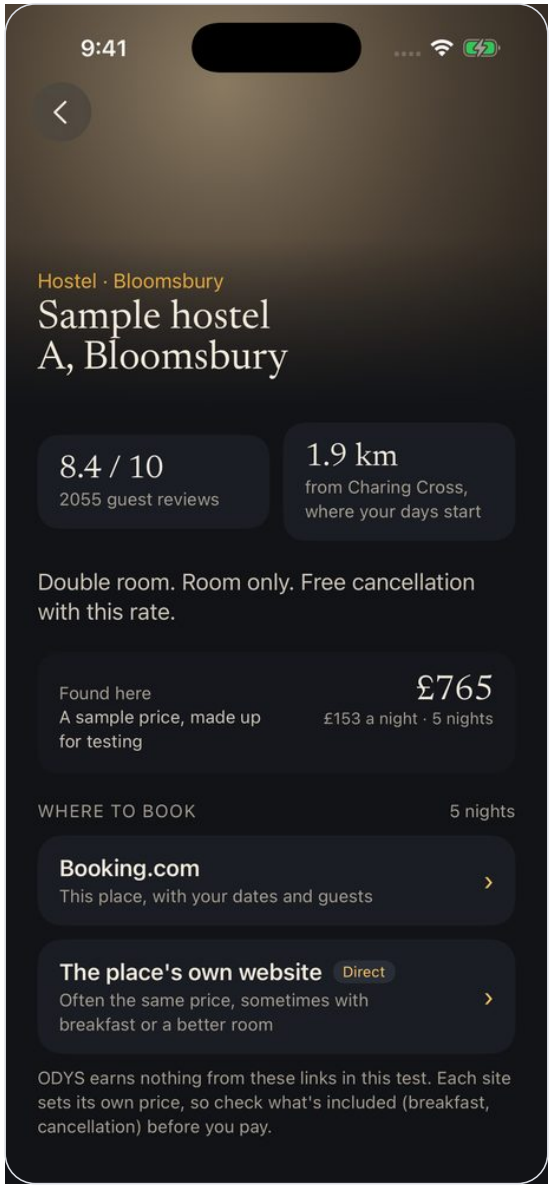

30 Places to stay, on the map

A real map with each place's price per night.

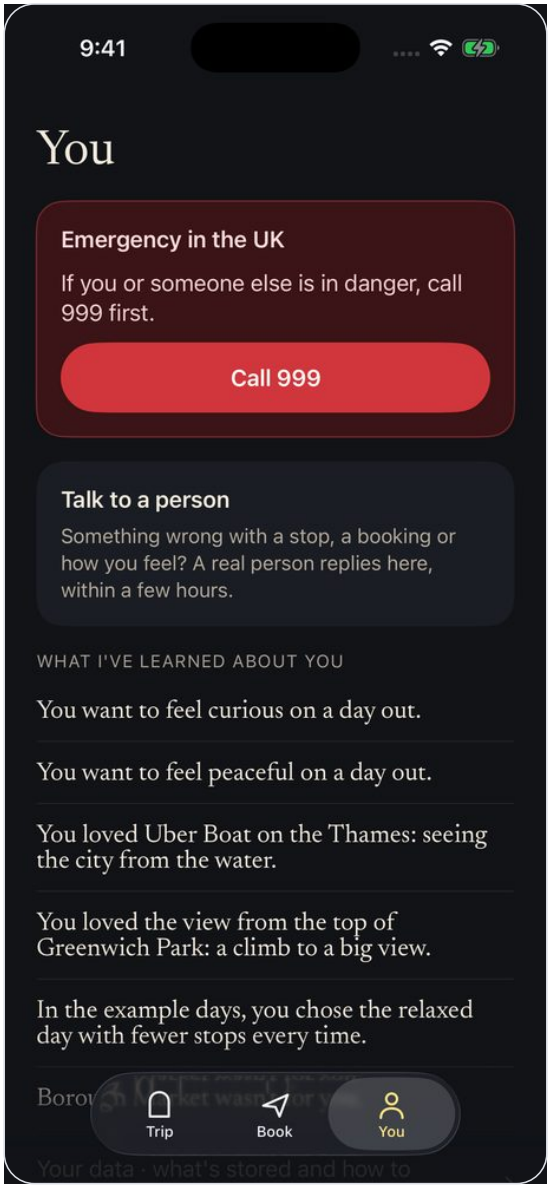

31 Stay filters

Most per night, type of place, guest rating, free cancellation and breakfast, with a live count.

32 A place to stay

The rating, the distance, the room and rate, the price found, and where to book.

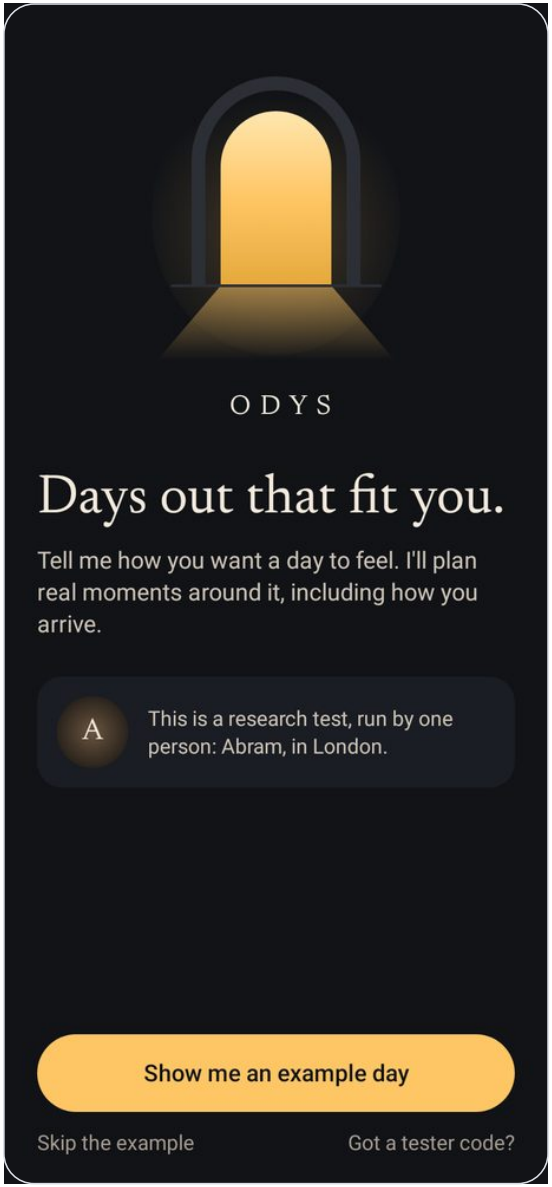

33 You

999 first, then a person; what the app has learned in plain words; your data.

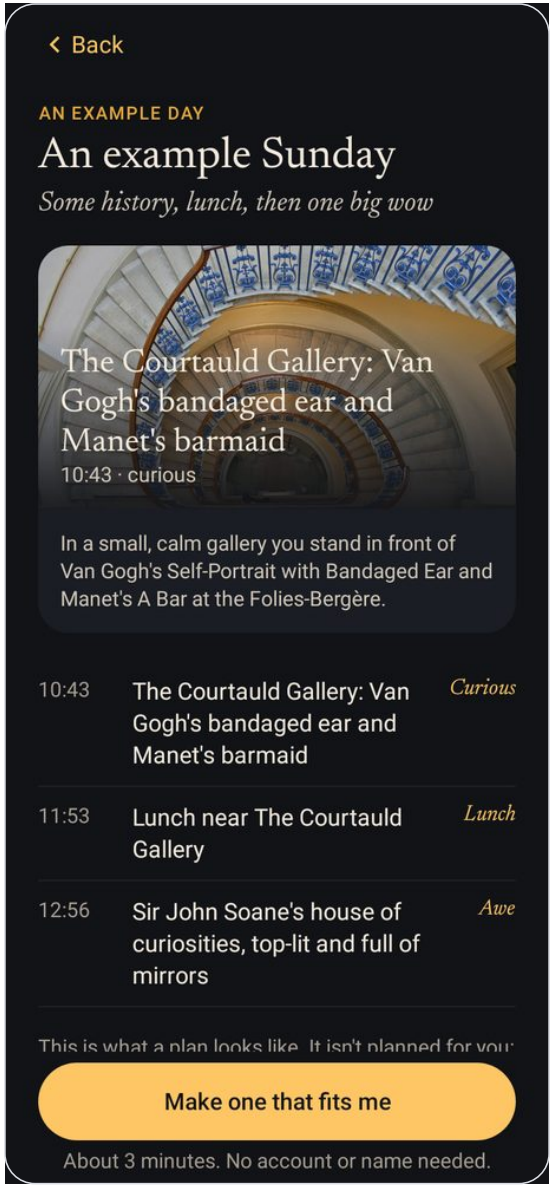

Android

46 pictures. Android differences: maps are OpenStreetMap tiles (the iPhone uses Apple Maps), directions open Google Maps, and Material system controls replace iOS ones. The words and order are the same.

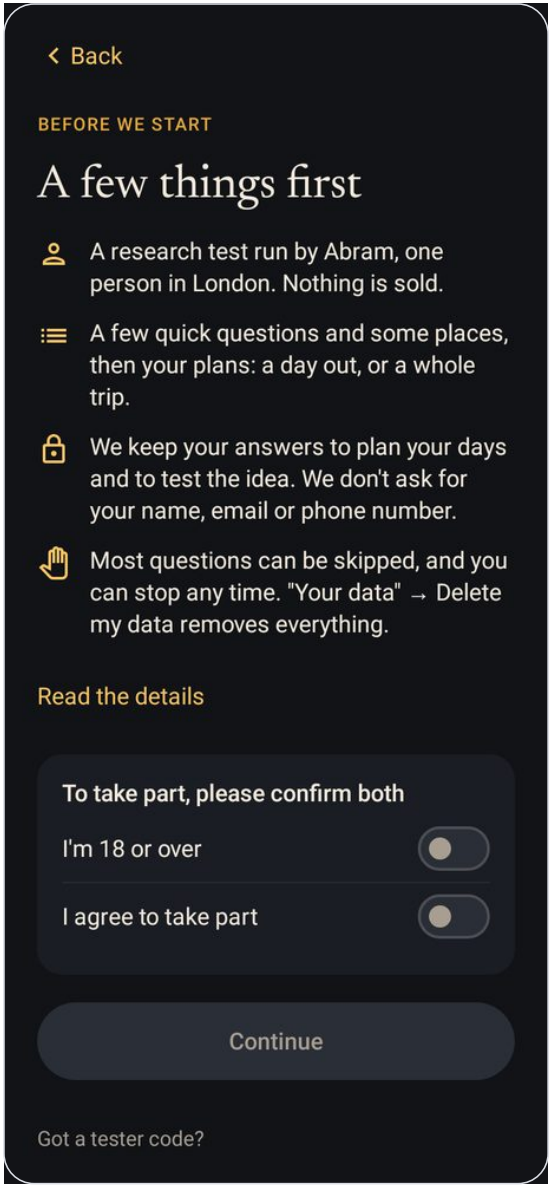

1b Welcome

ODYS: days out that fit you, and who runs this test.

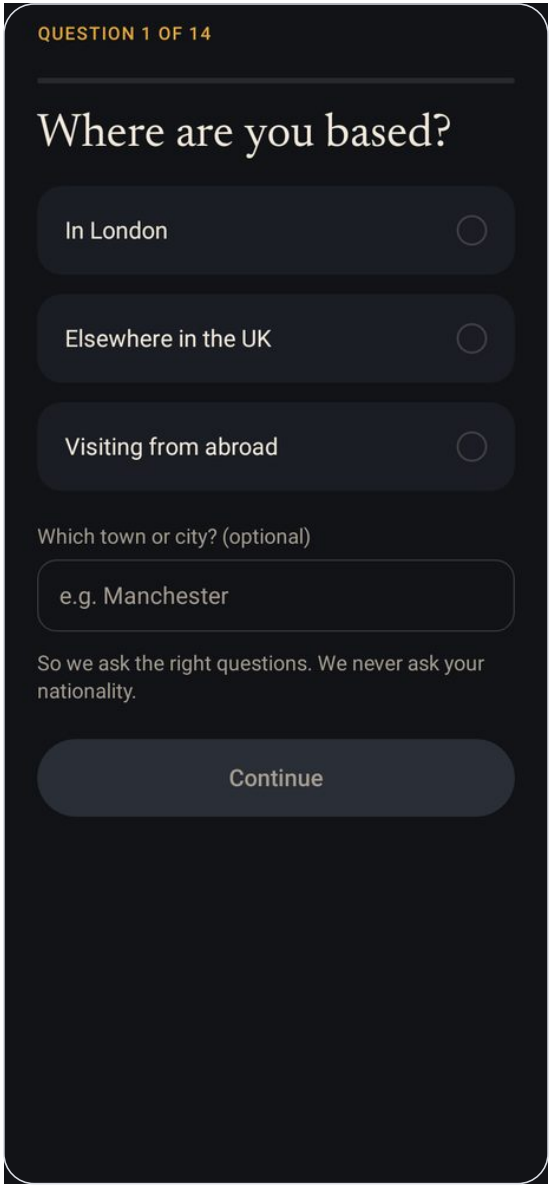

2a An example day

What a plan looks like, before any question: one stop as a picture, then the day. Not planned for you.

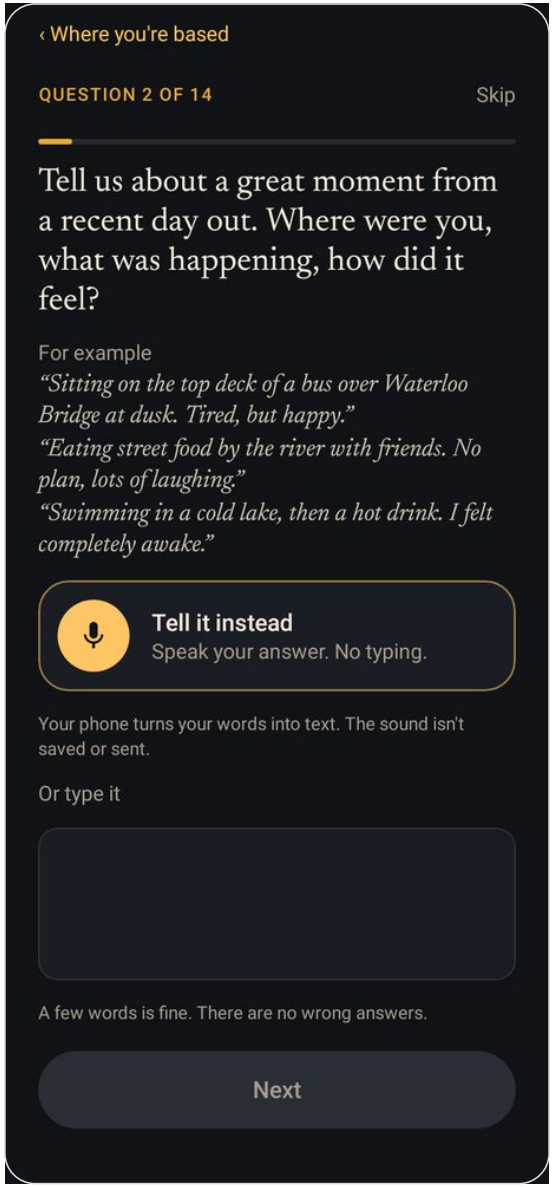

3 Before we start

A short summary, the two required choices in a box, and the details folded away.

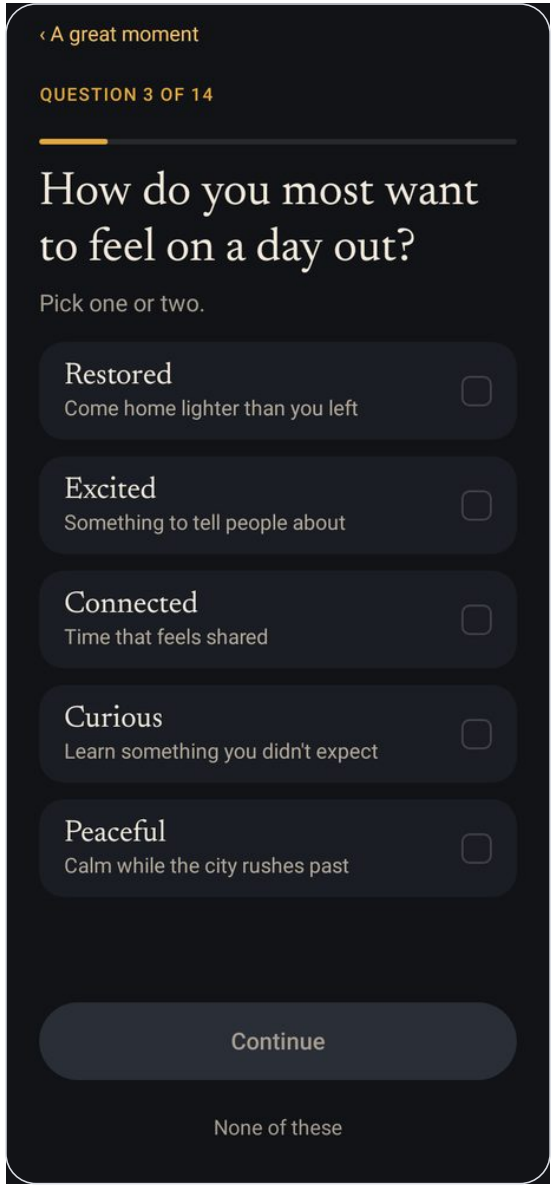

3b Where you're based

London, elsewhere in the UK, or visiting from abroad, and a town or city if they like. Never nationality.

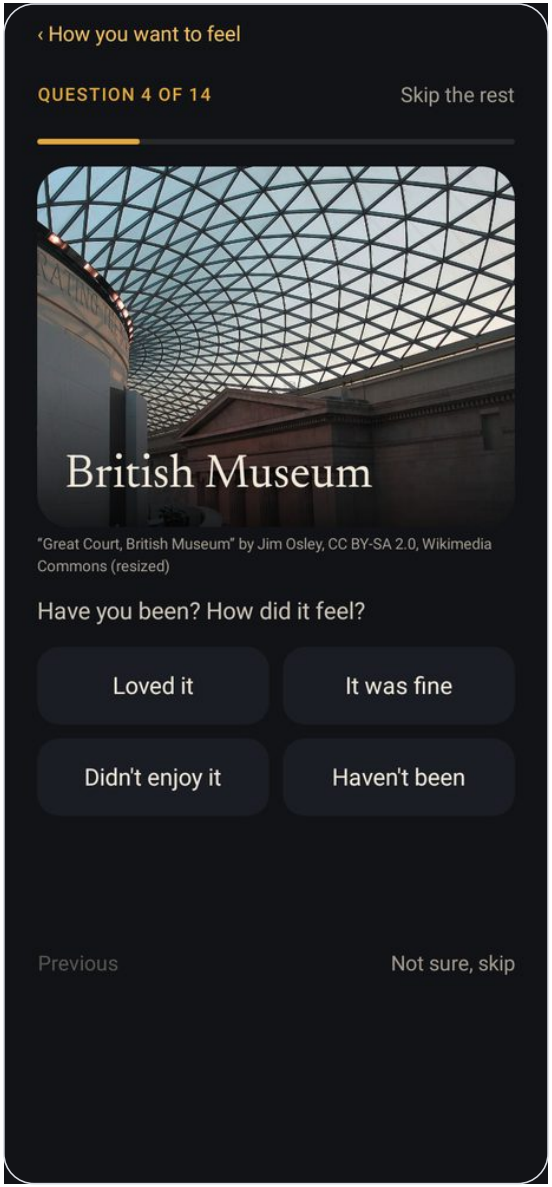

4 A great moment

Abram asks it in a small video tile (placeholder until recorded). "Tell it instead" to speak, or type, or skip.

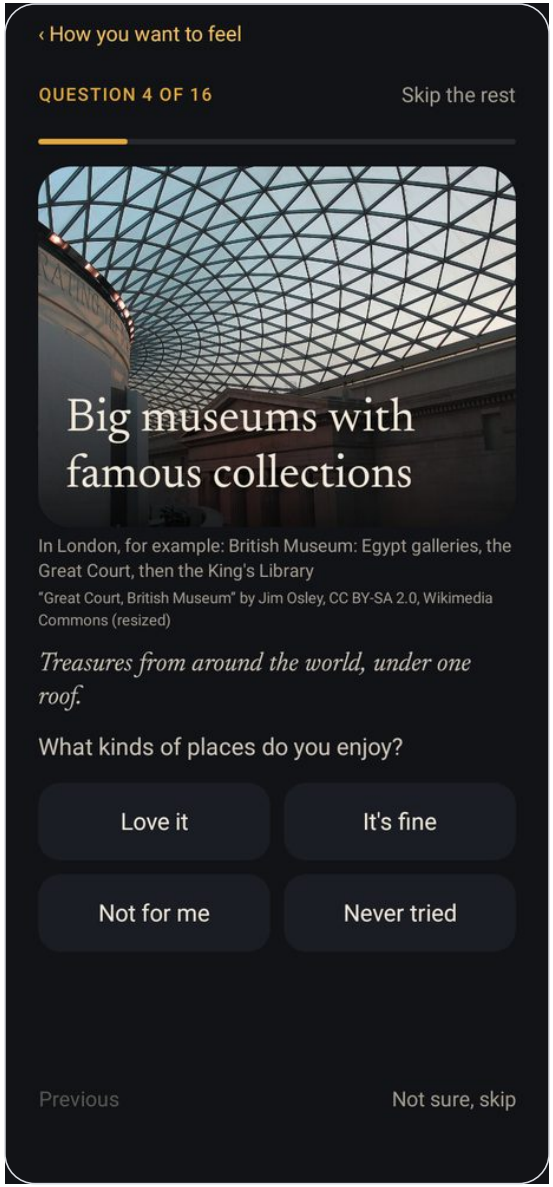

5 How you want to feel

Restored, excited, connected, curious or peaceful: pick one or two. "None of these" is a quiet link.

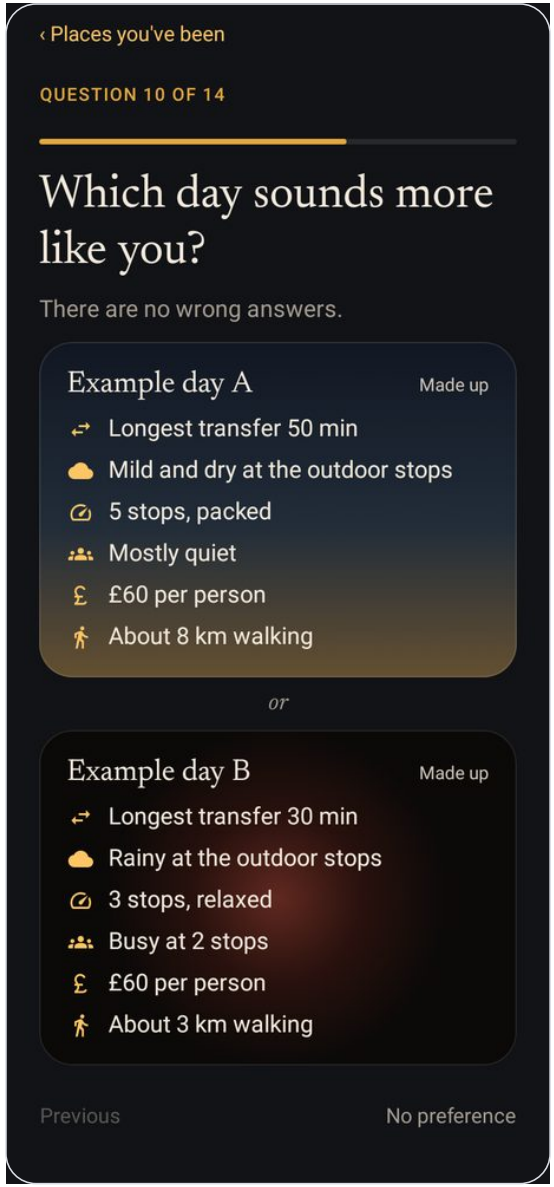

6 Places you've been

6 London places, one at a time, with a photo. A short line reacts to the answer ("Got it: …"), only from what was answered.

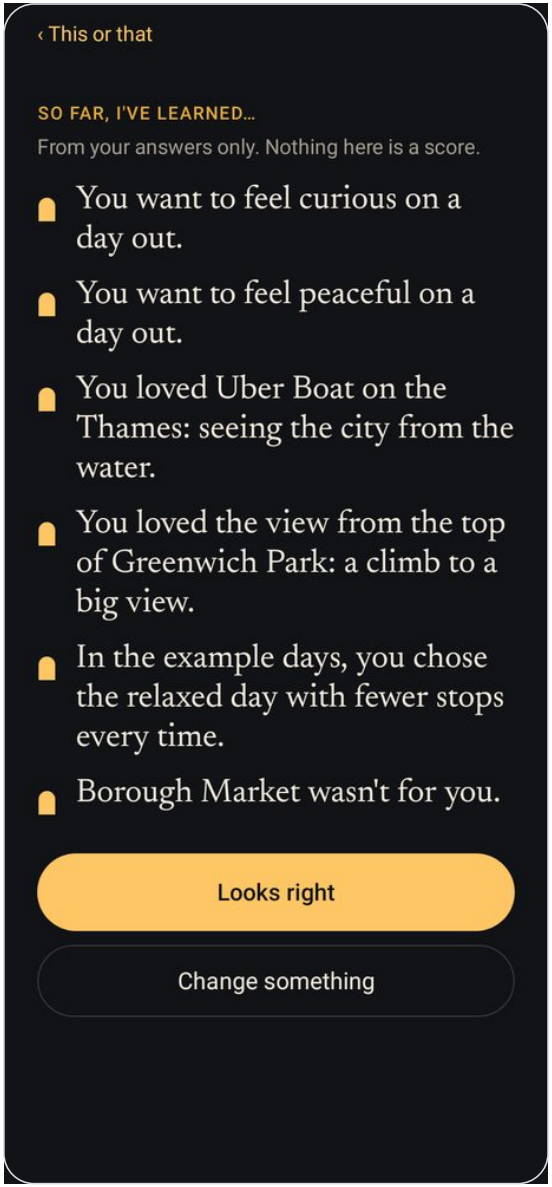

6b Kinds of places (visitors)

Visitors from abroad only, instead of 6: 8 kinds of places with a London example. "Never tried" asks if they'd like to.

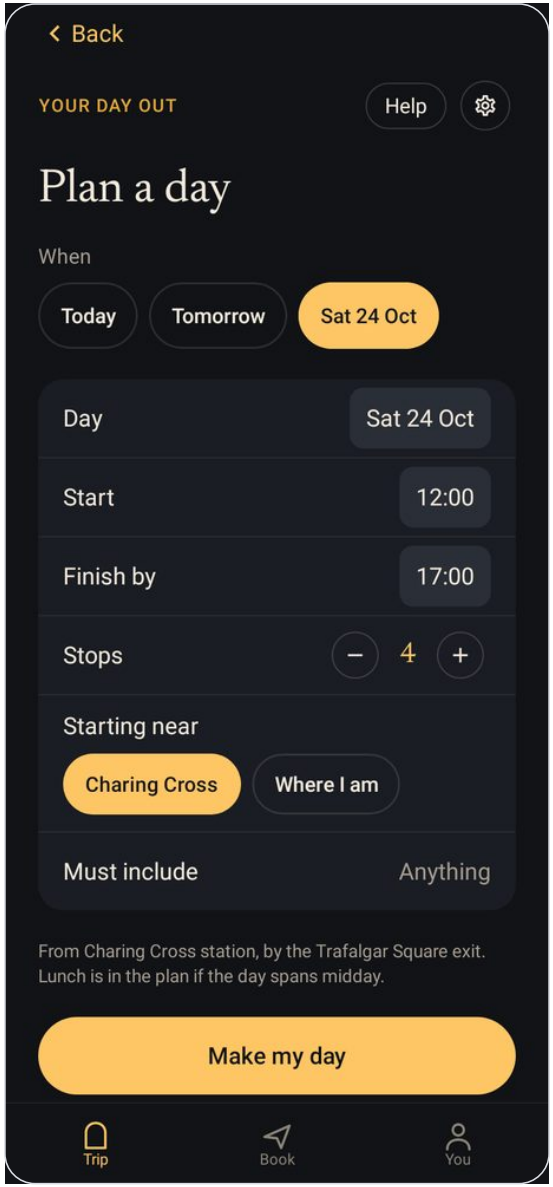

7 This or that

"There are no wrong answers." Two made-up days with all six details: pick one, or "No preference".

7b So far, I've learned…

Your own answers in plain words, no scores, with a small note from Abram. Looks right, or Change something.

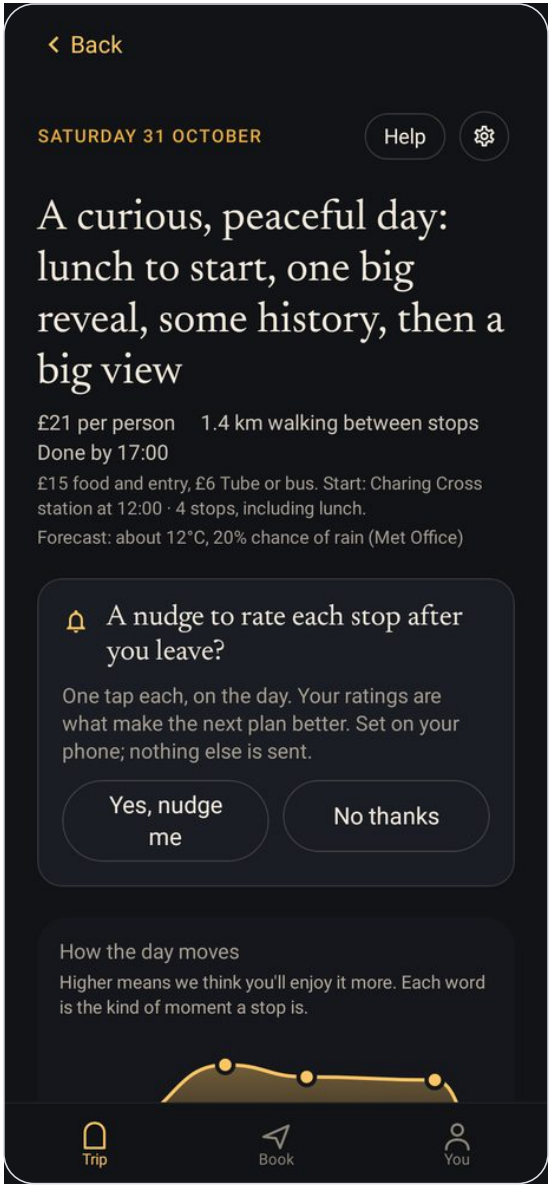

8 Plan a day

Next Saturday, 12:00–17:00, already filled in, or Today / Tomorrow. One tap makes the plan.

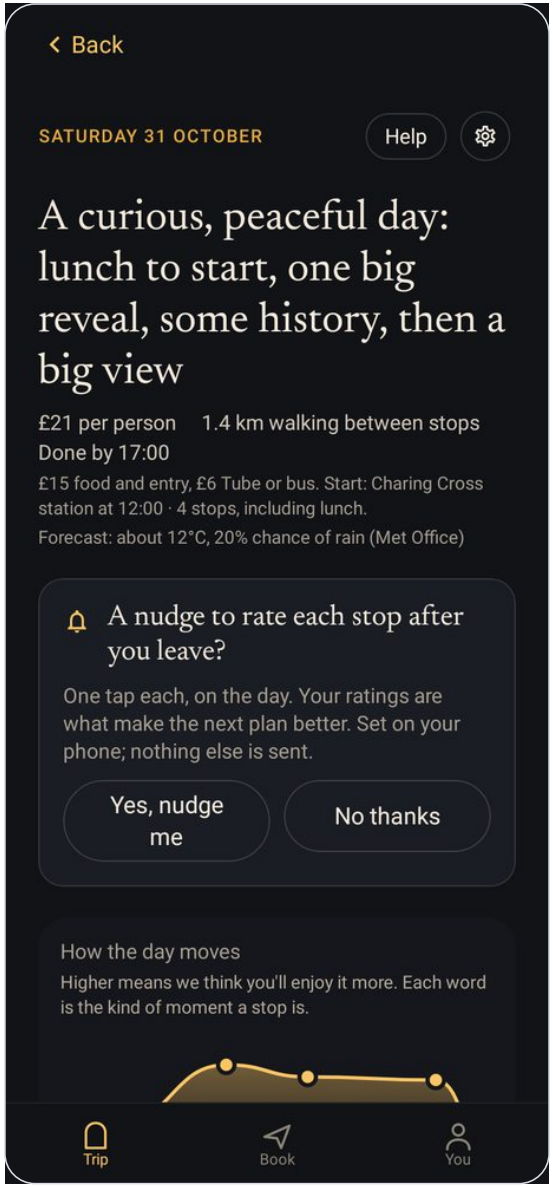

8b Must include a place

From Plan a day: pick one ready place the plan must keep (the iPhone has the same sheet).

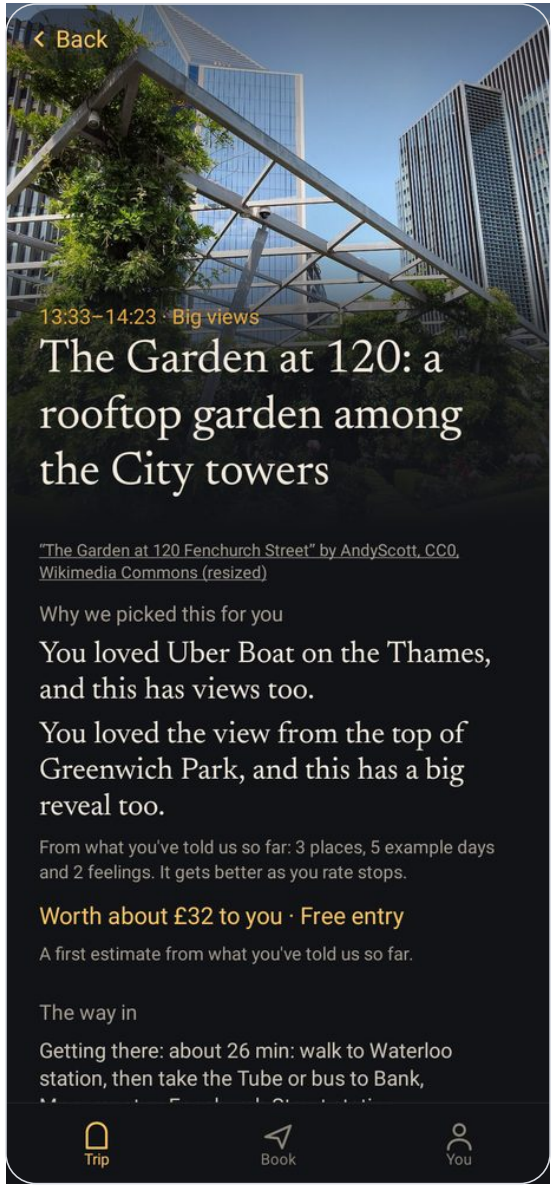

9a Your day

How the day should feel, the numbers, and "How the day moves": a word for each stop, higher where we think you'll enjoy it more.

9d Your day, on the map

The same plan on a real map, with numbered pins.

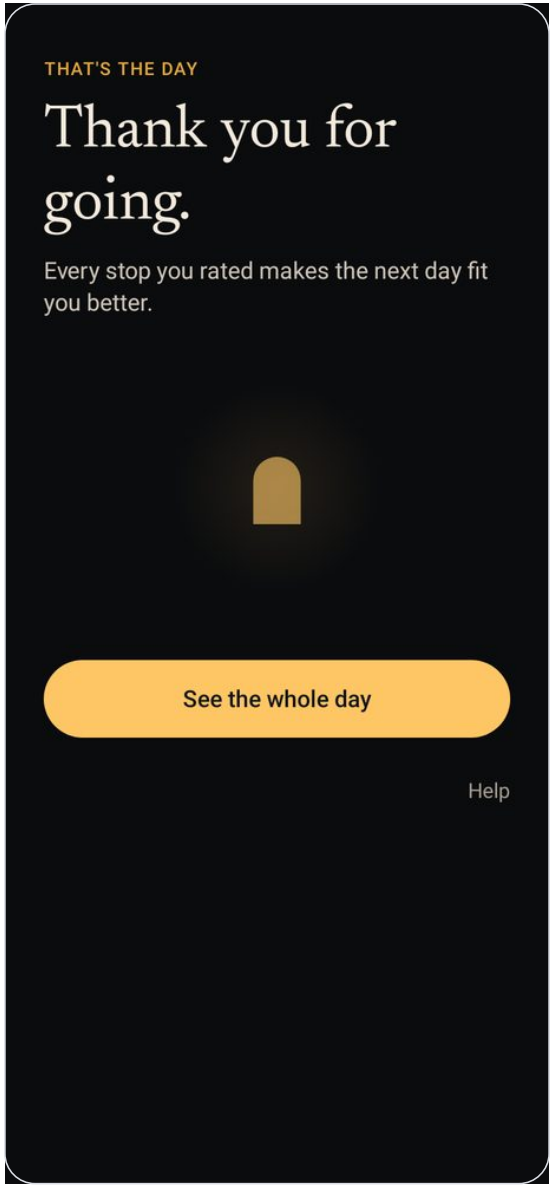

10 A stop

The photo full-bleed, with the time, the kind of moment and the title; why we picked it and its worth to you.

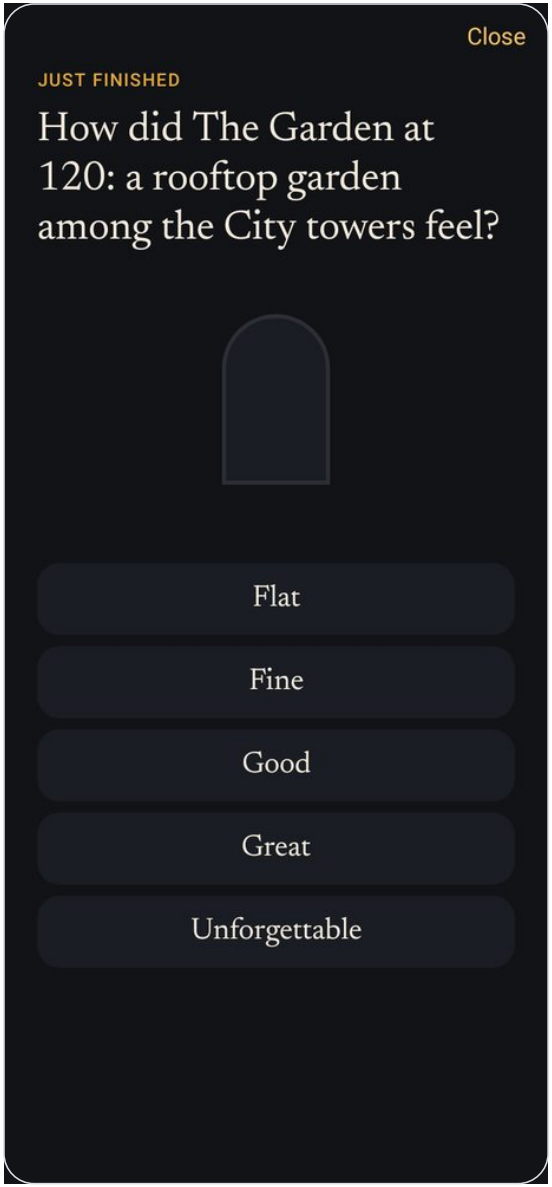

10b Now (new)

While you're out: the stop you're at, "I'll stay quiet until you need me", what's next, and "I'm done here".

10c Now: the day done (new)

On a trip, after the last stop: "Preview tomorrow: Day 3", which opens tomorrow's page to look at tonight and change if plans have changed.

11 Rating

After the visit: Flat, Fine, Good, Great or Unforgettable. The arch fills with light to the word.

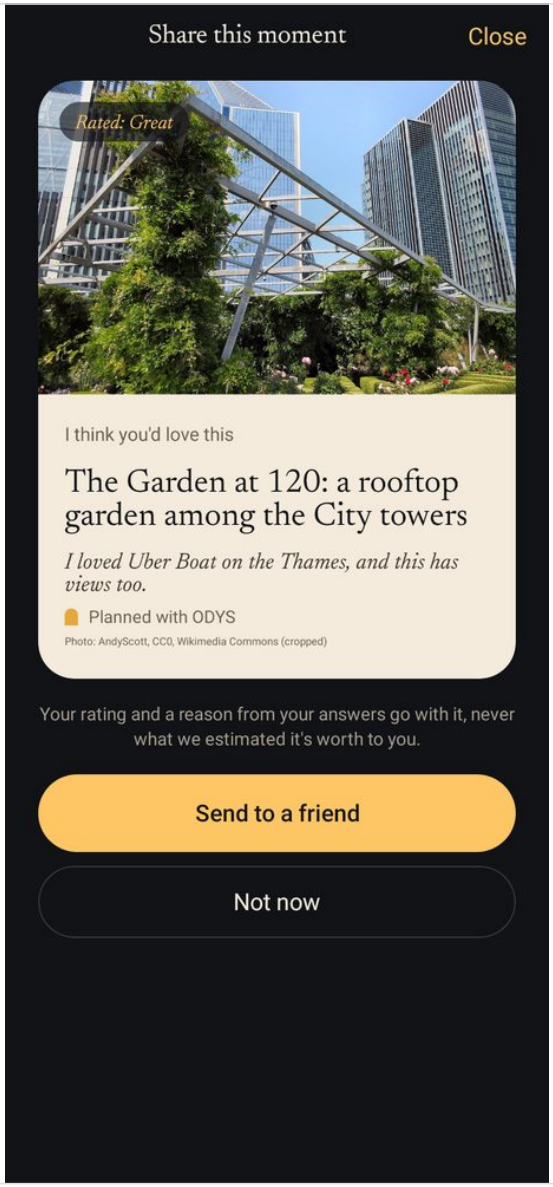

at 120: a rooftop
g the City towers

the Thames, and this has

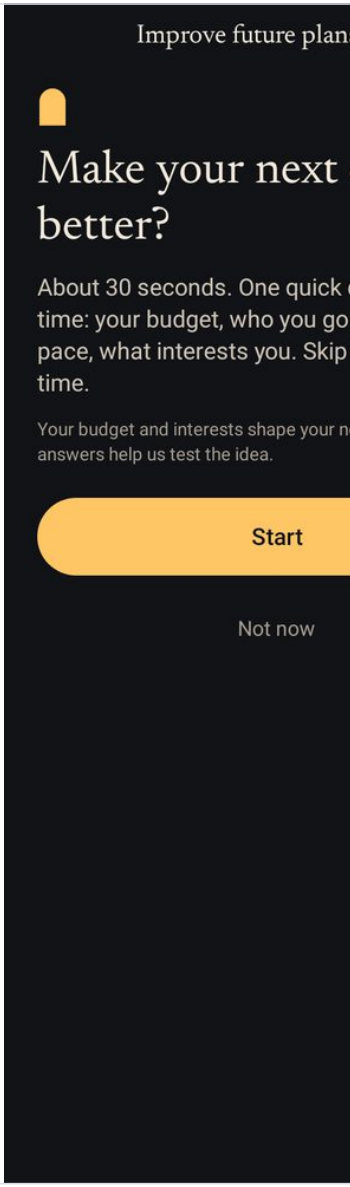

ommons (cropped)

the photo, "Planned with ODYS". Never what we

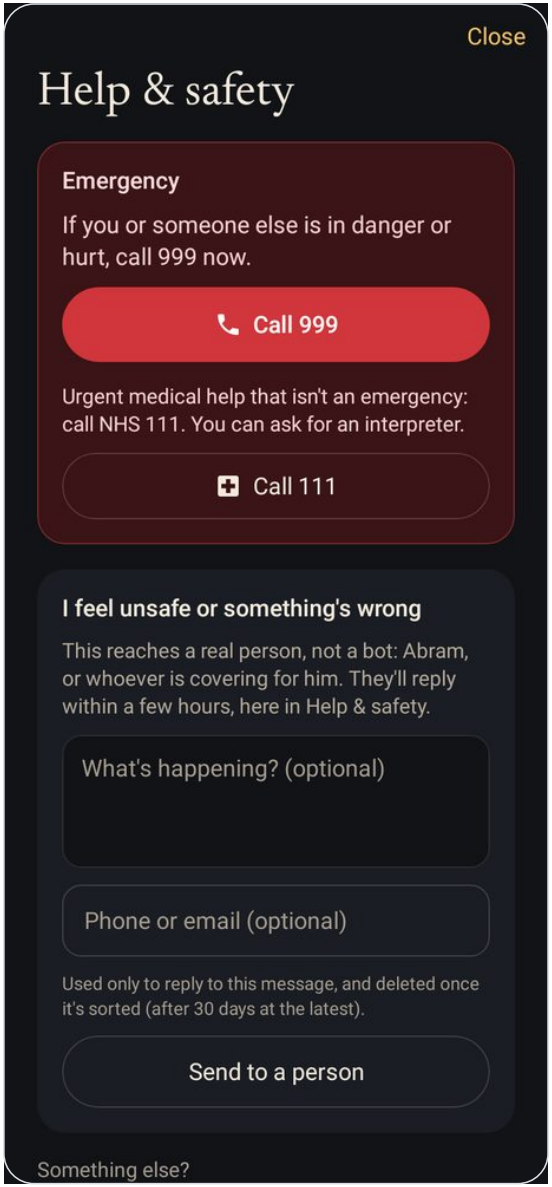

11c Share: the preview

The card as it will be sent, before Android's own share sheet opens.

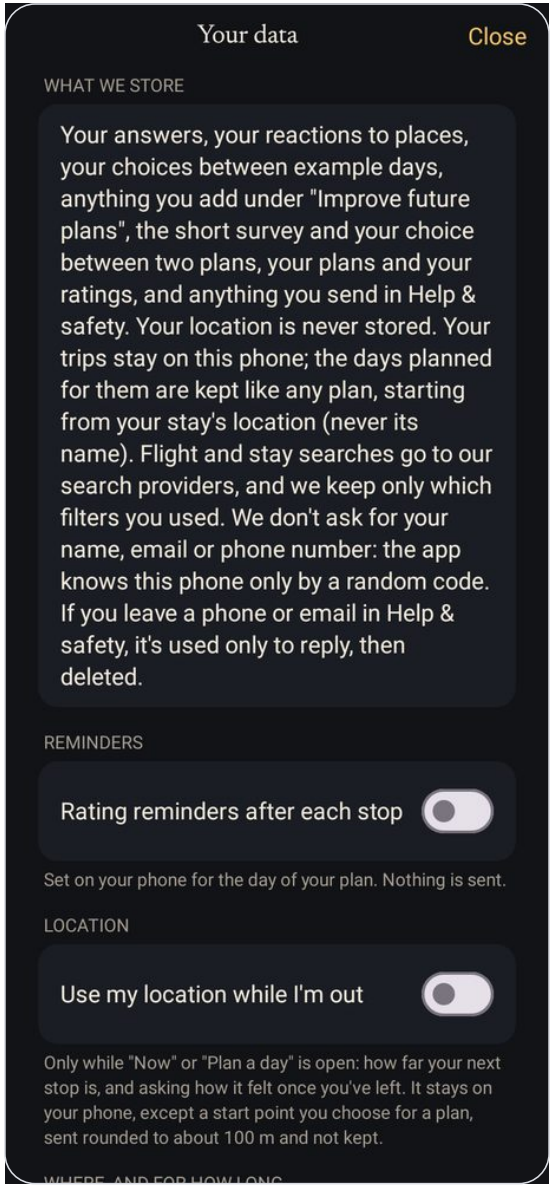

12a Improve future plans

"Make your next day even better?" Offered once a s

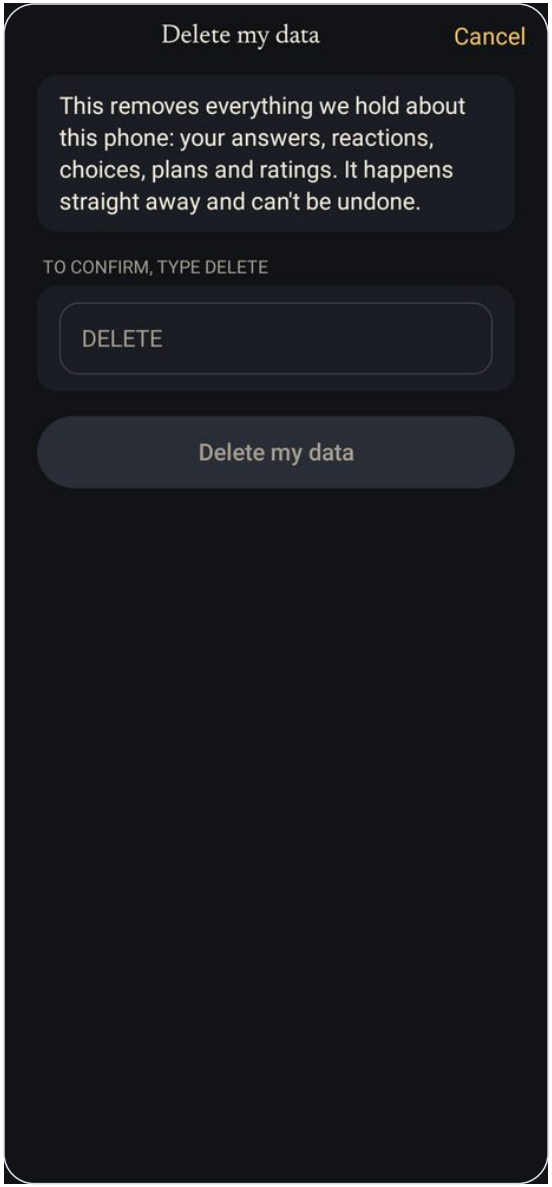

13a Help & safety

Emergency: call 999, kept separate from "I feel unsafe or something's wrong", which reaches a person.

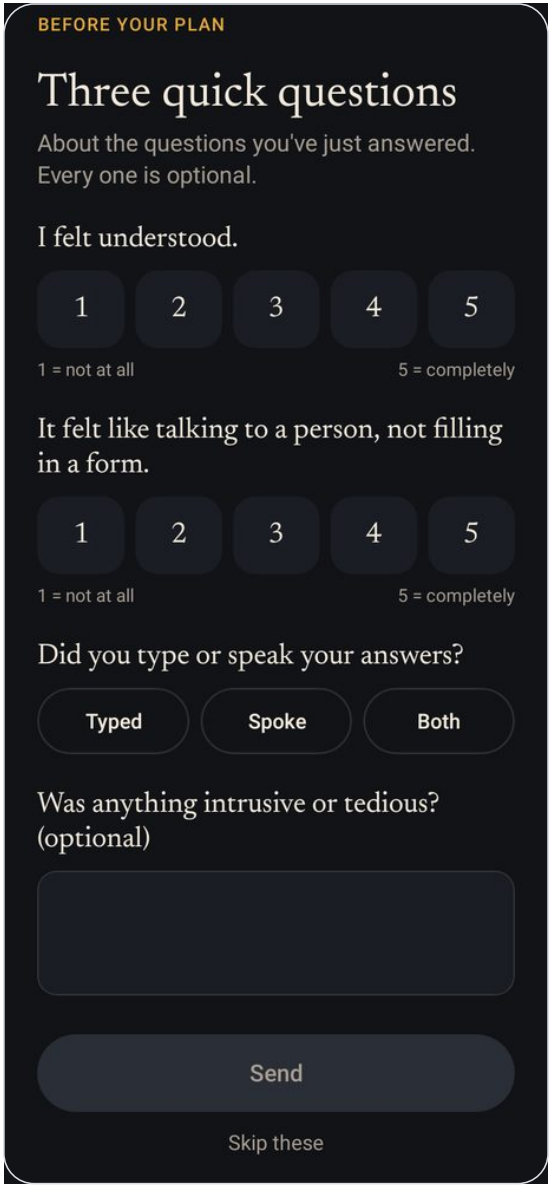

14a Your data

What's stored, where and for how long; rating reminders on or off.

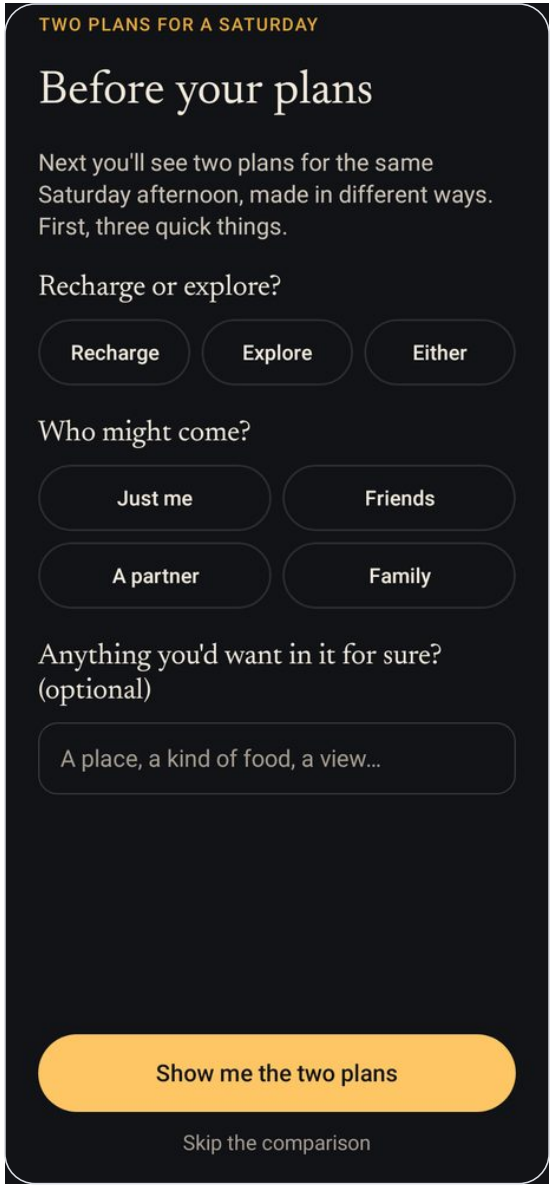

14b Delete my data

Type DELETE to confirm. It can't be undone.

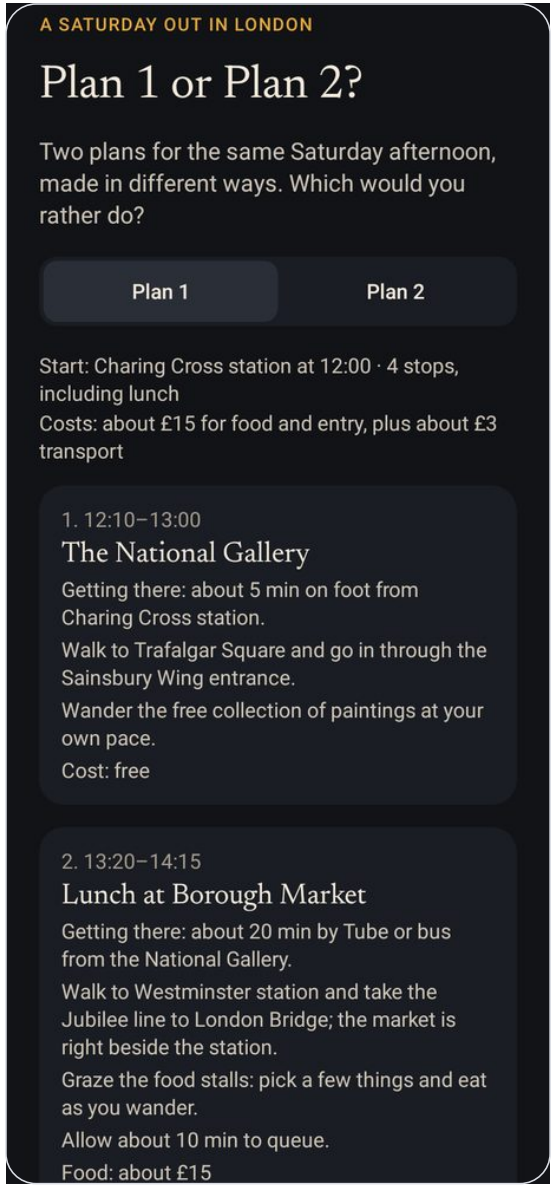

15 Three quick questions

After "So far": I felt understood, it felt like talking to a person, typed or spoke, anything intrusive. All optional.

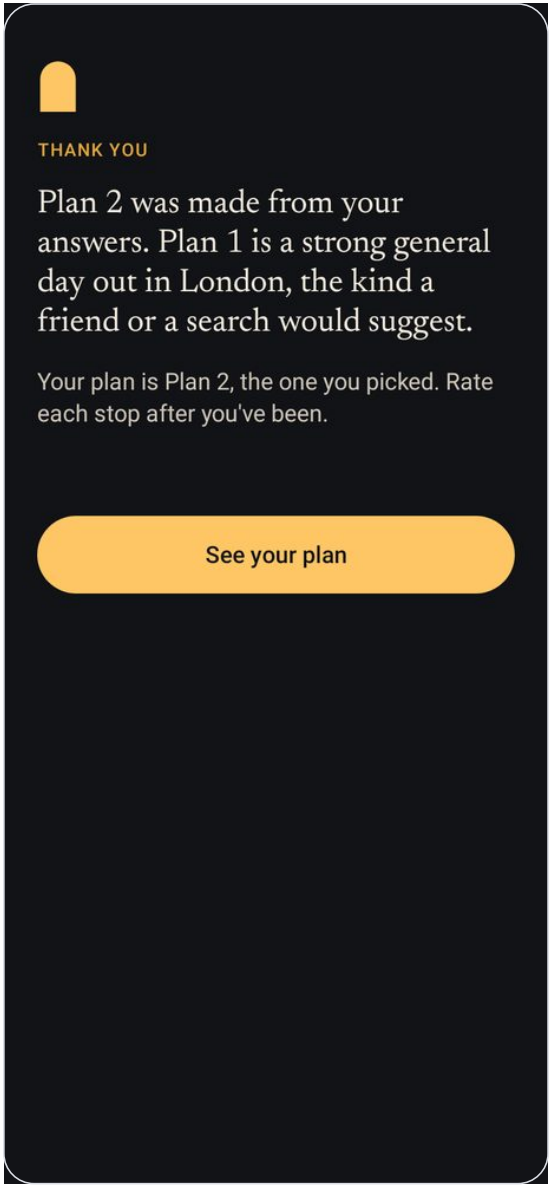

16 Before your plans

Recharge or explore, who might come, anything for sure. Stored with both plans; it changes neither.

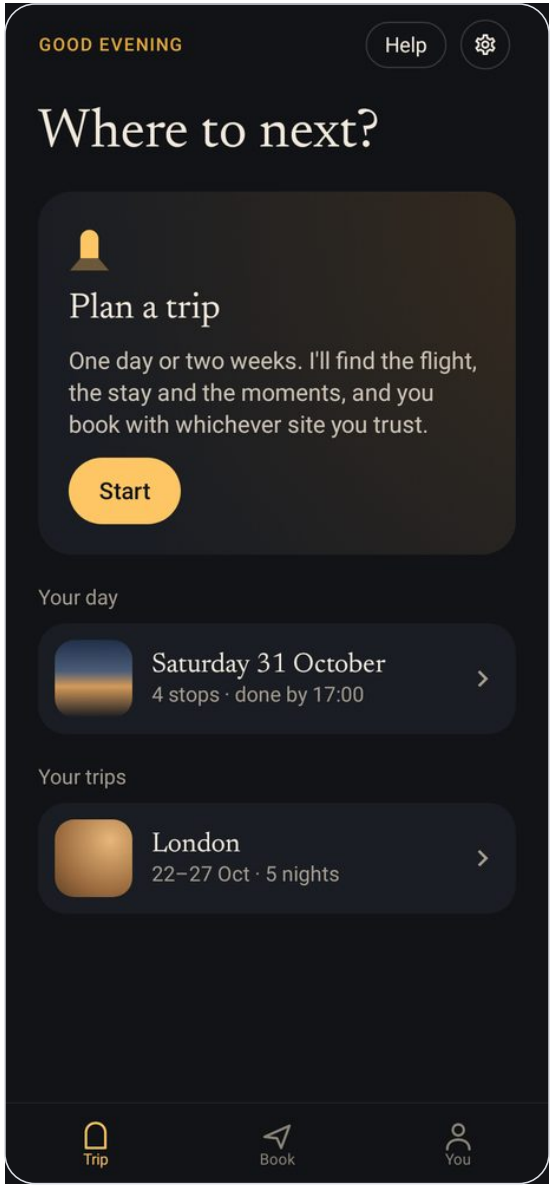

17a Plan 1 or Plan 2?

Two plans for the same Saturday in the same text format: no photos, map or reasons, so nothing gives one away.

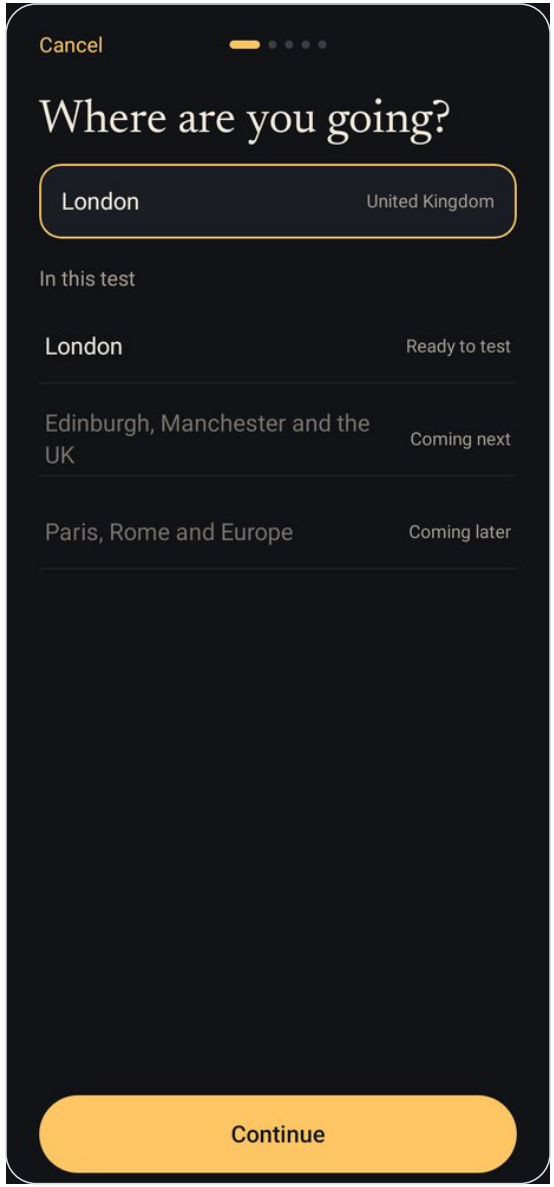

18 Which was yours

Which plan was made from your answers. The one you chose becomes your day, rated stop by stop.

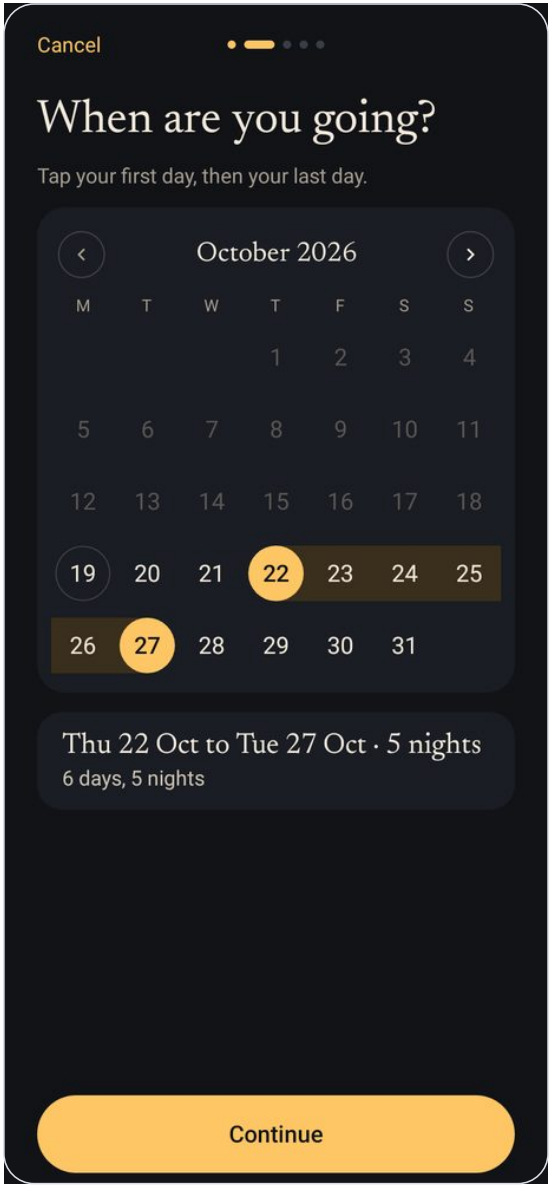

19 Where to next?

Plan a trip, your day and your trips; three tabs: Trip, Book and You.

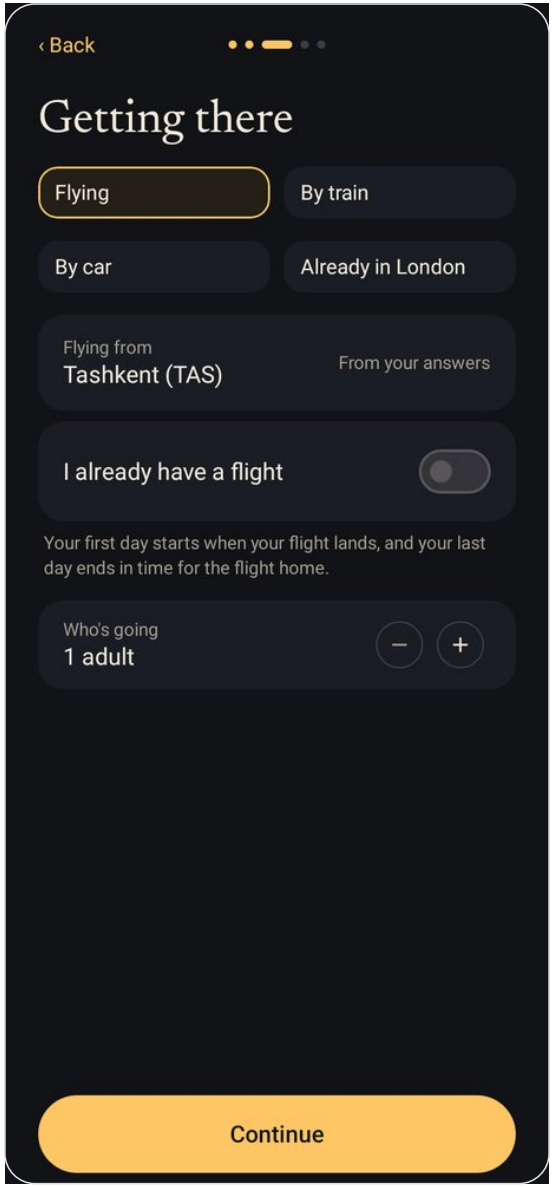

20 Where are you going?

London is ready; UK cities come next, then Europe.

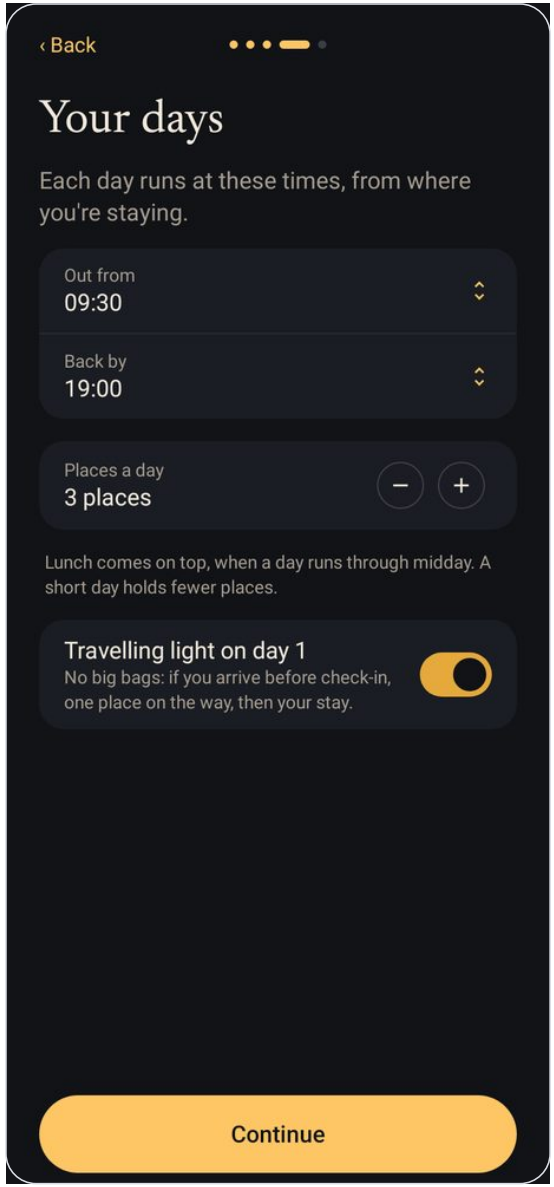

21 When are you going? (new)

A calendar, as in the booking apps: the first tap is the first day, a later tap the last day, the same day twice a day out. Up to 30 nights.

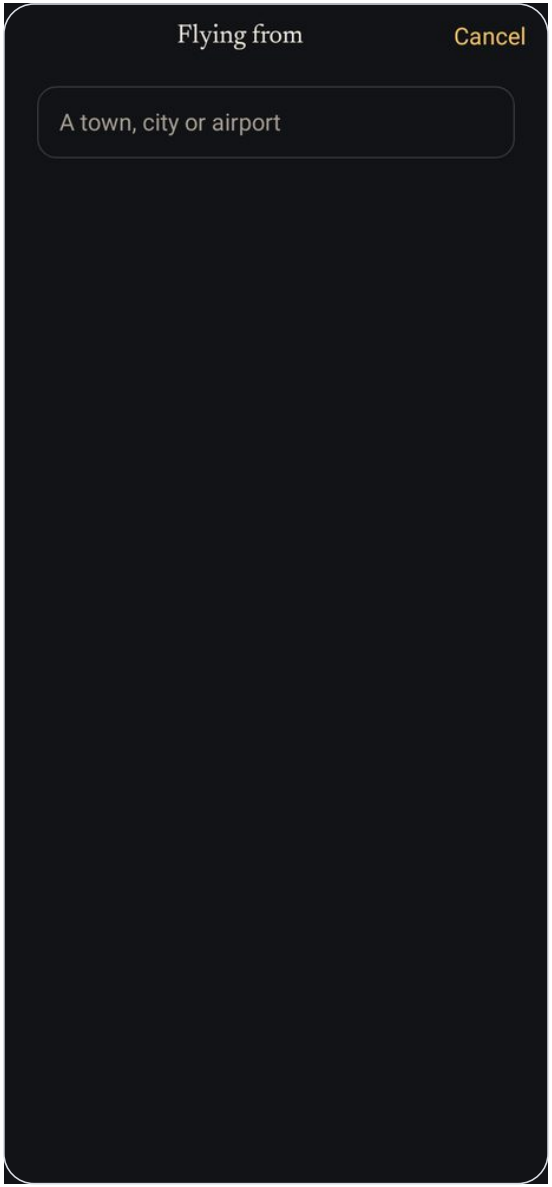

22 Getting there

Flying, by train, by car or already in London (D122); the airport from the town or city you gave (never nationality), and who's going.

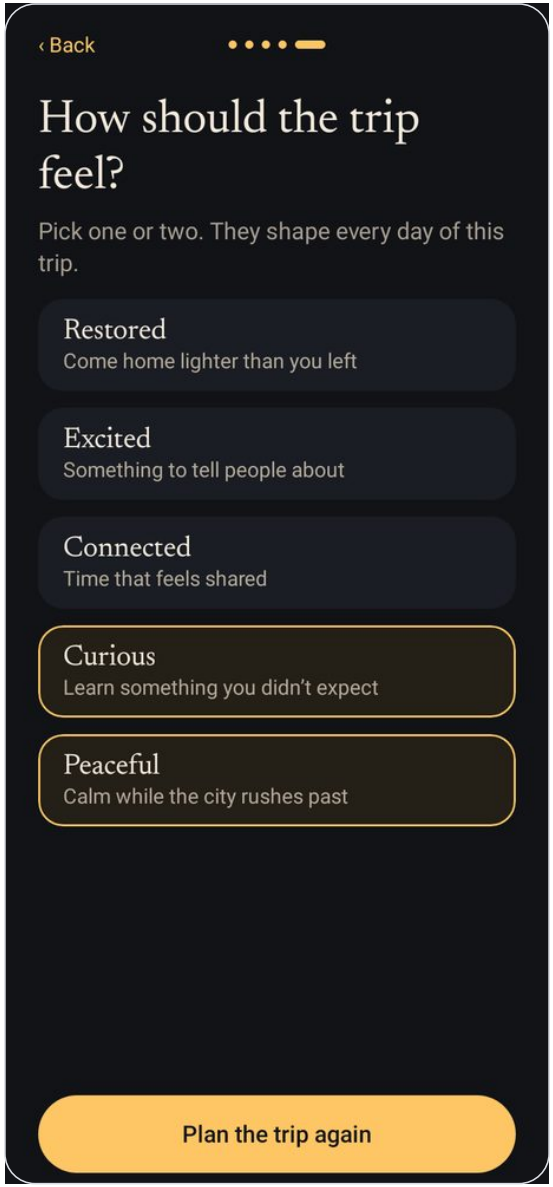

22a Your days

D122: out from and back by, places a day (lunch on top), and travelling light on day 1.

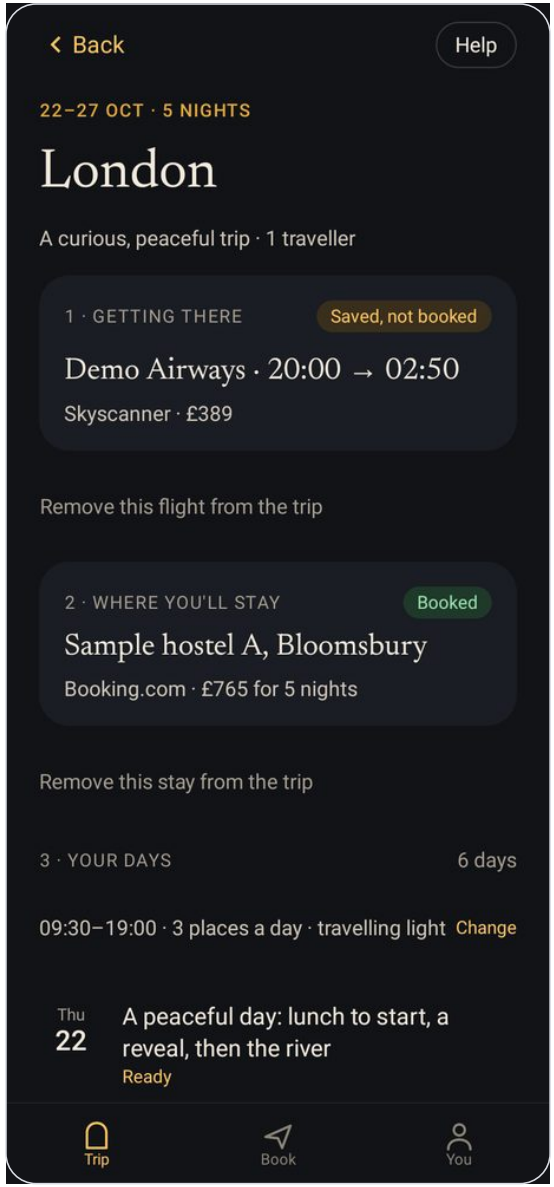

22b Flying from: pick an airport

Type a town, city or airport code; the list is airports and city codes, never countries.

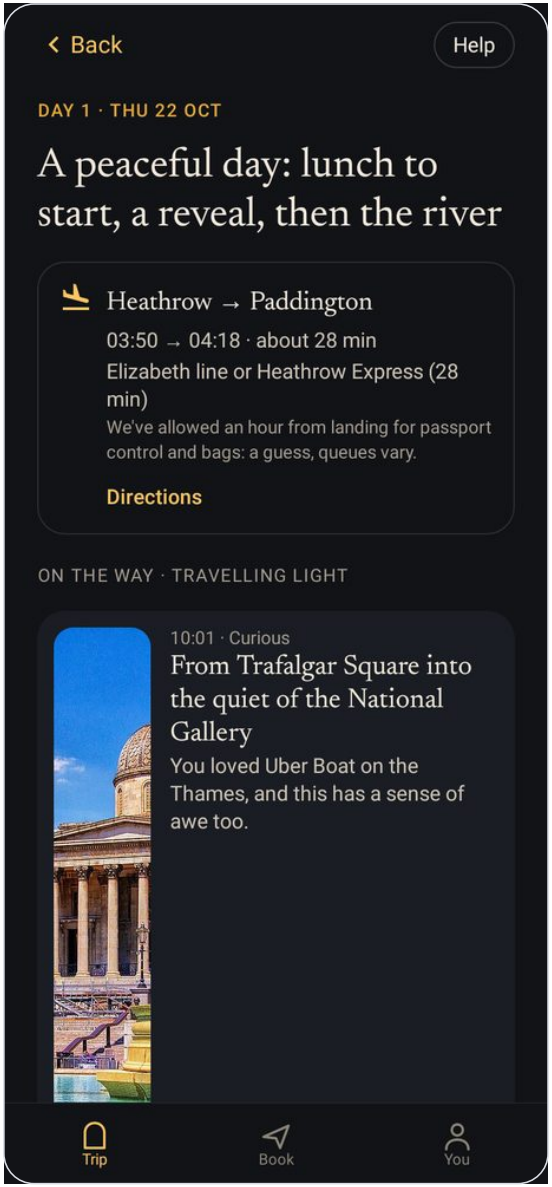

23 How should the trip feel?

One or two feelings; they shape every day of this trip.

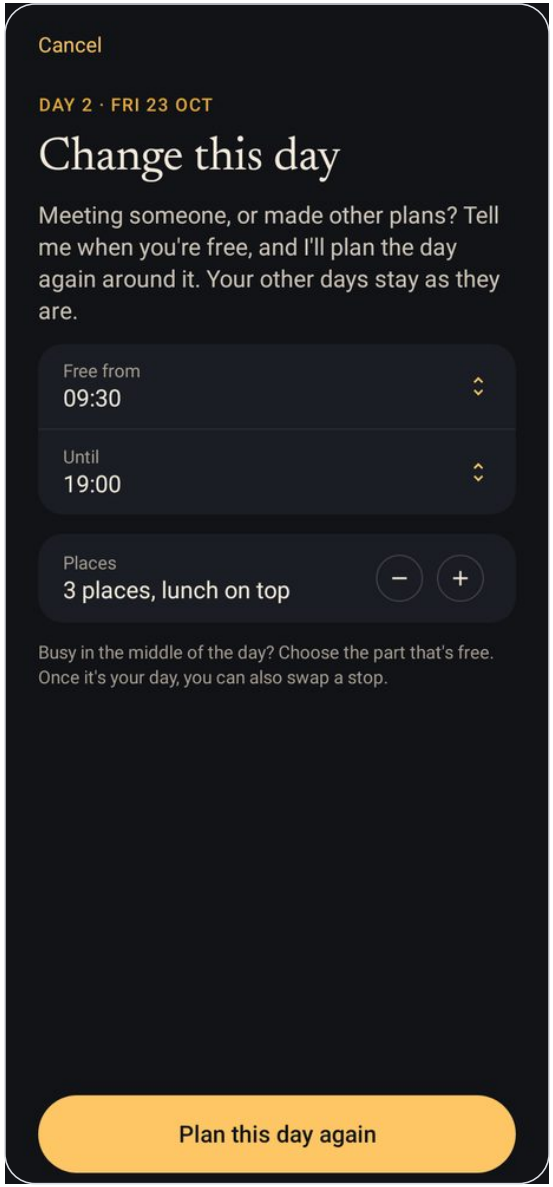

24 The trip

A checklist in the order you'd do it, each with its status, then your days and a running total of real numbers only.

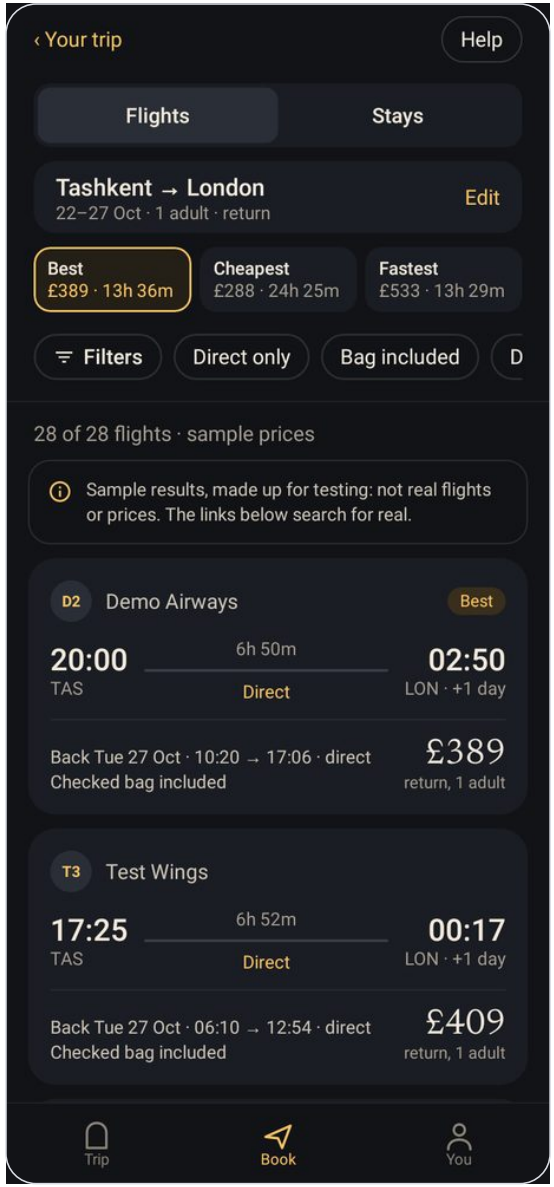

25 The first day

D122: from the airport ("Heathrow → Paddington", with Directions), one place on the way when travelling light, the stay, then the day. No moment twice in a trip.

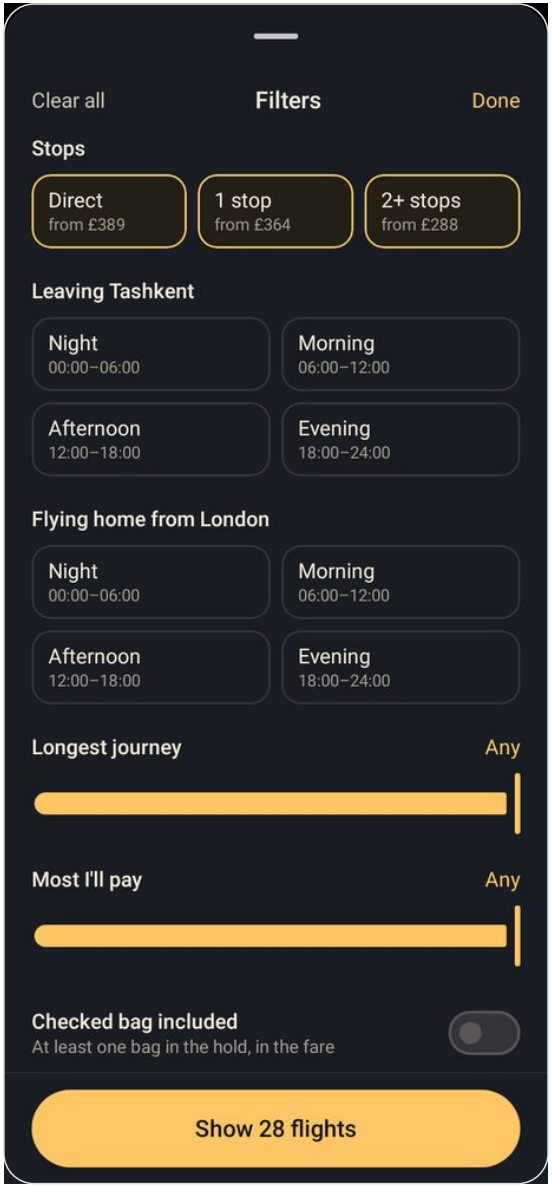

25b Change this day (new)

"Made other plans?" The hours they're free and their places, then the day planned again around them; the other days stay as they are.

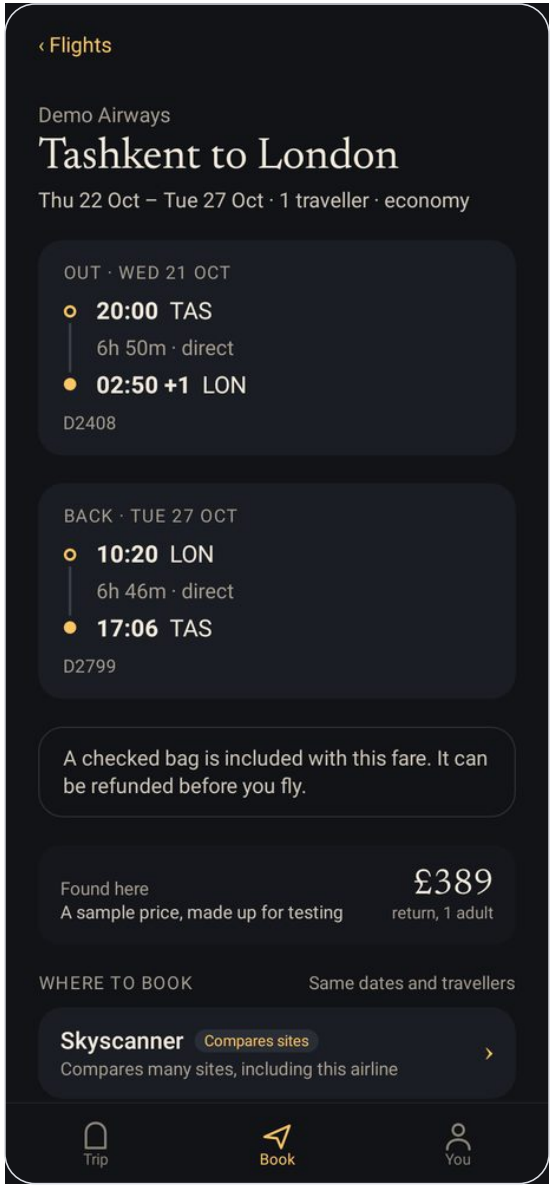

26 Flights

The search pinned at the top; Best, Cheapest and Fastest with their tops; one-tap chips. Sample prices until the keys are in.

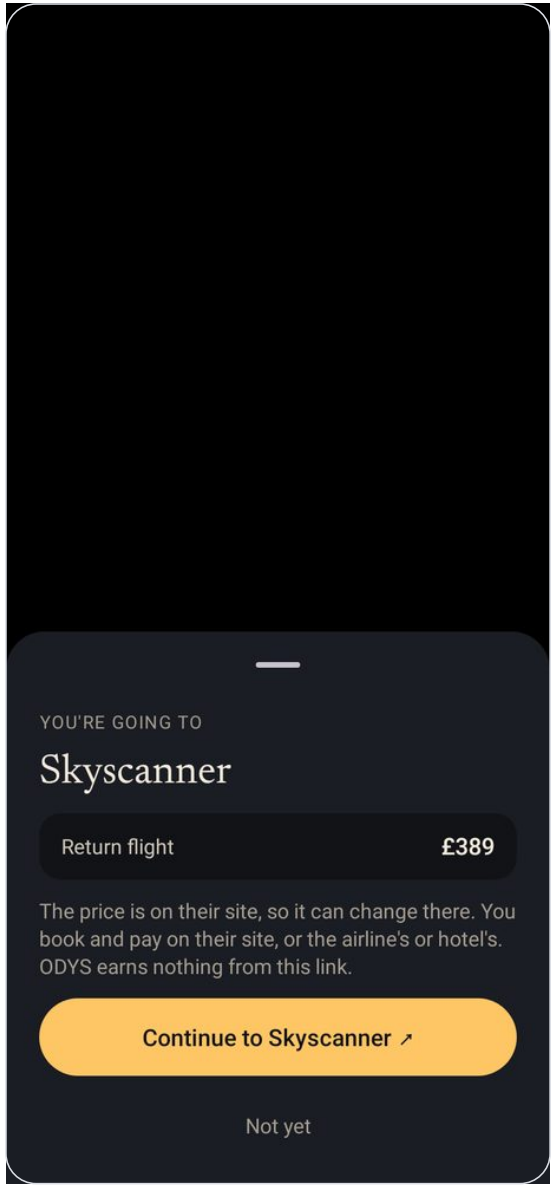

27 Flight filters

Stops, leaving times each way, longest journey, price, a checked bag and airlines, with a live "Show N flights".

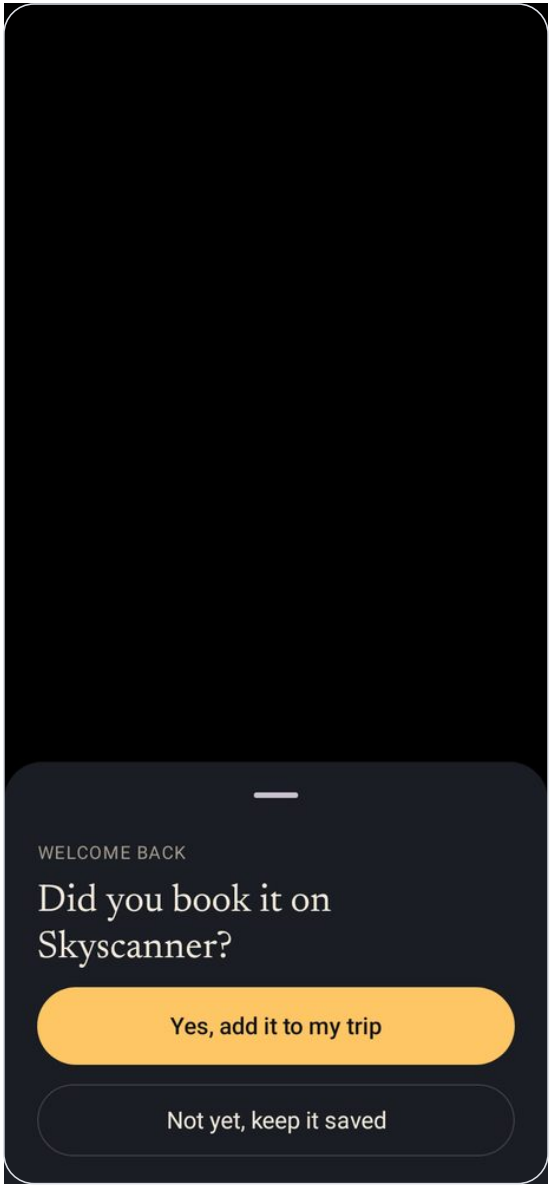

28 A flight: where to book

Both legs, the bags, the price found here and where to book. ODYS earns nothing from these links.

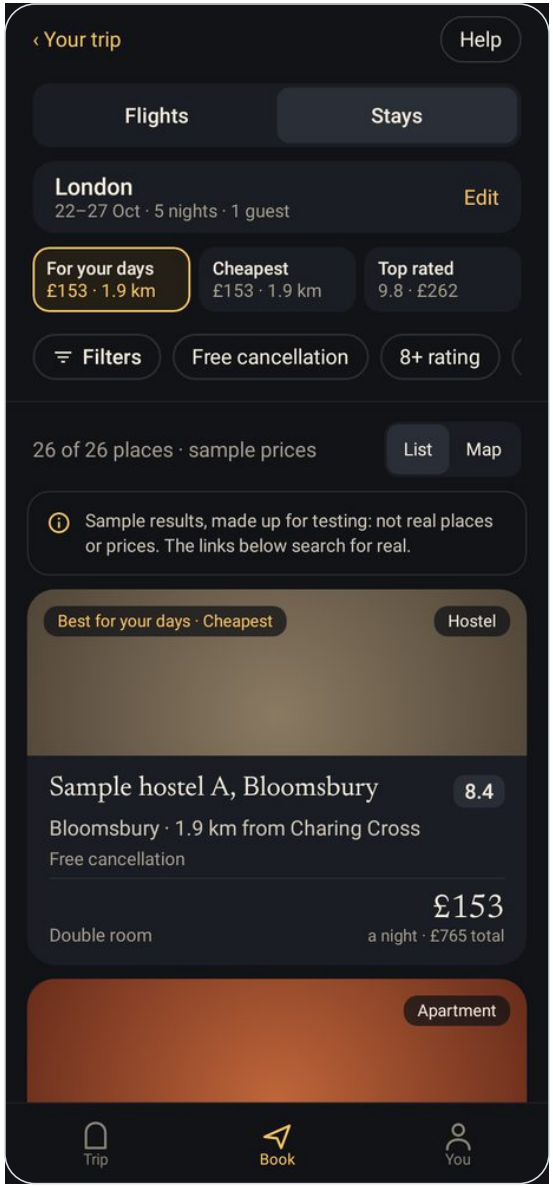

28a Going to a booking site

Where you're going, the price found and when, and that you pay them directly.

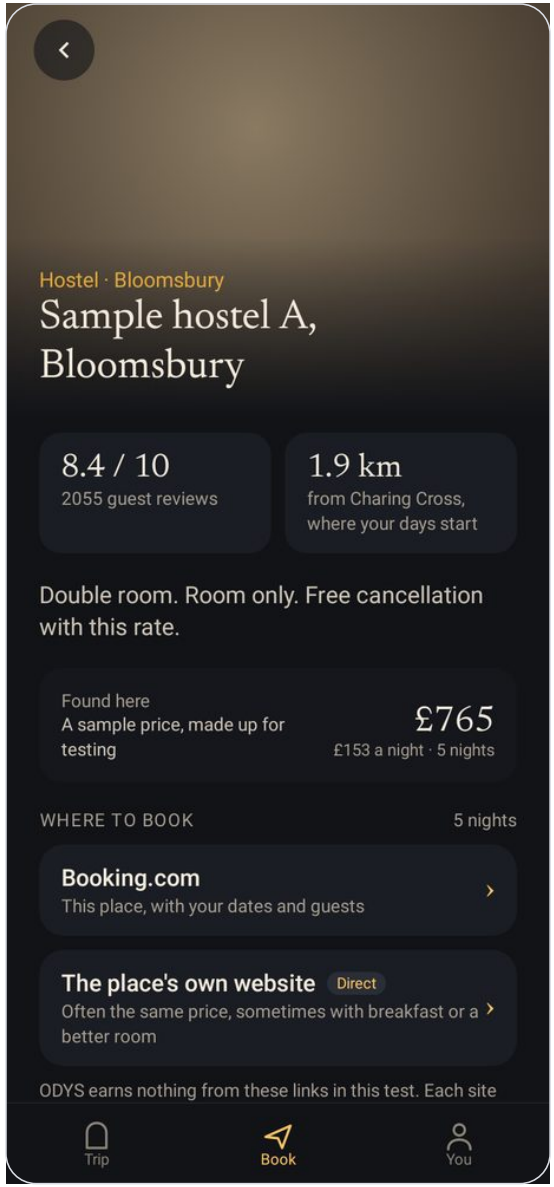

28b Back from the booking site

Did you book it? Yes adds it to the trip; Not yet keeps it saved.

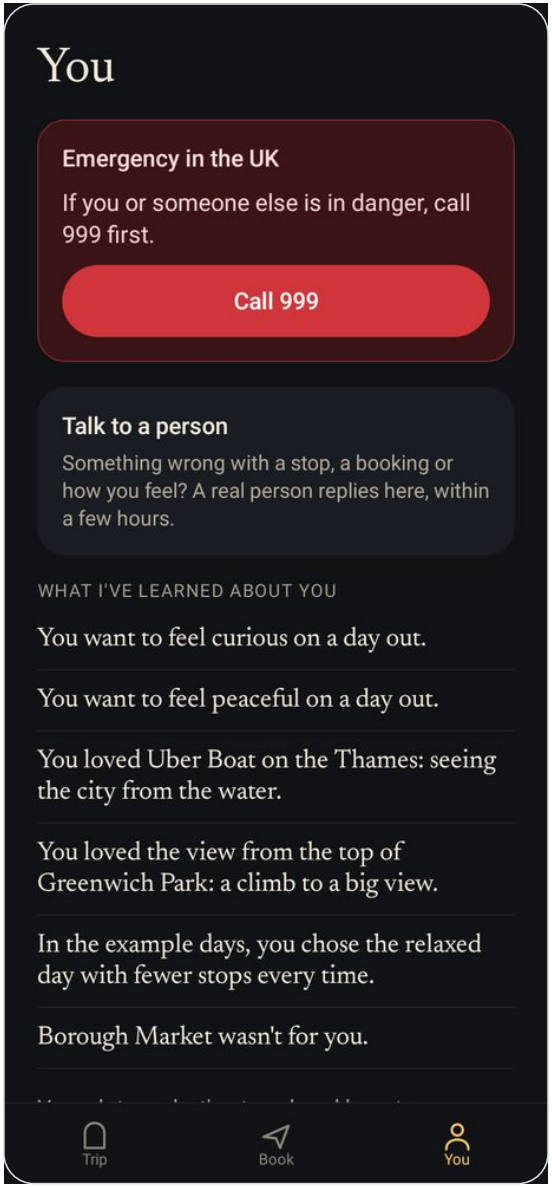

29 Places to stay

Hotels, flats and hostels: For your days, Cheapest, Top rated; distance from where your days start.

32 A place to stay

The rating, the distance, the room and rate, the price found, and where to book.

33 You

999 first, then a person; what the app has learned in plain words; your data.
